CONTENTS

MANAGEMENT REPORT ON THE BANK'S AND THE GROUP'S OPERATIONS DURING HALF A YEAR 2010

Dear customers, partners, shareholders and colleagues,

During the first half of 2010 Latvian economy have continued downturn, however early signs of stabilization have been observed. Still, continued downturn impacted negatively profitability and growth of Latvian banking sector.

GE Money Bank continued strategy with main objective to ensure safe and stable position. In the first six months of the year, the main focus of the Bank was to ensure high capital adequacy and liquidity, efficient risk management and debt collection systems and improved effectiveness of compliance and controllership.

The Bank continued rigorous approach to risk assessment. The total amount of reserves on June 30th, 2010 comprised LVL 39,490 thousands. In total, reserves comprised 24% of the credit portfolio. As a result the Bank concluded first half of the 2010 with audited losses of LVL 11,395 thousands. The Bank's total assets in the first half of the year comprised LVL 219,671 thousands, including loan portfolio of LVL 123,353 thousands and deposit portfolio of LVL 194,516 thousands.

On June 30th, 2010 the Bank's capital adequacy ratio was 11.28% that exceeded the requirement established by the Capital and Financial Market Commission (FCMC) of 8%, while the liquidity ratio was 93.84%, which was significantly higher than FCMC requirement of 30%. In June, 2010 shareholder extraordinary meeting resolved to increase Bank's share capital.

The Bank continued to support independent, non-governmental organization "Money Planning Centre" (MPC). MPC's mission is educated Latvian society in financial matters. In April, 2010, MPC presented first electronic teaching aid in Latvia regarding money for various age groups – "Study of Money". This teaching aid is available to all schools in Latvia free of charge.

During the next six months of 2010, the Bank will continue to manage company through current economic cycle focusing on this year's strategy, applying conservative risk management approach and continuing to ensure safe and stable position. The Bank will continue to leverage on experience of its owner, General Electric Company, one of the largest corporations in the world.

We have also audited the accompanying consolidated condensed interim financial information of AS GE Money Bank and its subsidiaries ("the Group"), which comprises the consolidated condensed interim statement of financial position as at 30 June 2010, the consolidated condensed interim income statement, the consolidated condensed interim statement of comprehensive income, consolidated condensed interim statement of changes in equity and consolidated condensed interim statement of cash flows for the six month period then ended, and condensed notes, comprising a summary of significant accounting policies and other explanatory information, as set out on pages 8 to 30.

Management's Responsibility for the Financial Information

Management is responsible for the preparation and fair presentation of this consolidated and Bank's condensed interim financial information in accordance with IAS 34 *Interim Financial Reporting* and for such internal control as management determines is necessary to enable the preparation of financial information that is free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on this consolidated and Bank's condensed interim financial information based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the condensed interim financial information is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial information. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial information, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the consolidated and Bank's condensed interim financial information in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control system. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the condensed interim financial information.

KPMG

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the condensed interim financial information of AS GE Money Bank as at and for the six month period ended 30 June 2010 is prepared, in all material respects, in accordance with IAS 34 *Interim Financial Reporting*.

In our opinion, the consolidated condensed interim financial information of AS GE Money Bank Group as at and for the six month period ended 30 June 2010 is prepared, in all material respects, in accordance with IAS 34 *Interim Financial Reporting*.

The accompanying consolidated and Bank's financial information as at and for the six month period ended 30 June 2009 were reviewed by us and our report thereon, dated 27 August 2009, stated that nothing came to our attention that caused us to believe the consolidated and Bank's financial statements were not prepared, in all material respects, in accordance with IAS 34 *Interim Financial Reporting*. However, a review is substantially less in scope than an audit and does not provide a basis for the expression of an opinion on the consolidated and Bank's financial statements taken as a whole.

Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual earnings.

New standards and interpretations

The following new standards, amendments to standards and interpretations are mandatory for the first time for the financial year beginning 1 January 2010, but are not currently relevant for the Bank and the Group:

- Revised IFRS 3 *Business Combinations*
- Amendments to IFRS 2 *Share-based Payment - Group Cash-settled Share-based Payment Transactions*
- Amended IAS 27 *Consolidated and Separate Financial Statements*
- Amendment to IAS 39, *Financial Instruments: Recognition and Measurement – Eligible Hedged Items*
- IFRIC 12 *Service Concession Agreements*
- IFRIC 15 *Agreements for the Construction of Real Estate*
- IFRIC 16 *Hedges of a Net Investment in a Foreign Operation*
- IFRIC 17 *Distributions of Non-cash Assets to Owners*
- IFRIC 18 *Transfers of Assets from Customers*

The following new standards, amendments to standards and interpretations have been issued, but are not effective for the financial year beginning 1 January 2010 and have not been early adopted:

- Amendment to IFRS 1 First-time Adoption of International Financial Reporting Standards - Limited Exemption from Comparative IFRS 7 Disclosures for First-time Adopters. Provides relief to a first-time adopter from providing comparative information for the disclosures required by the amendments to IFRS 7 issued in March 2009 entitled Improving Disclosures about Financial Instruments - Amendments to IFRS 7 and clarifies the relief provided in the transitional requirements of IFRS 7. The Amendment to IFRS 1 is not relevant to the Group's and the Bank's financial statements as the Group and the Bank are not first time adopters.

- Revised IAS 24 Related Party Disclosure (effective for annual periods beginning on or after 1 January 2011). The amendment exempts government-related entity from the disclosure requirements in relation to related party transactions and outstanding balances, including commitments, with (a) a government that has control, joint control or significant influence over the reporting entity; and (b) another entity that is a related party because the same government has control, joint control or significant influence over both the reporting entity and the other entity. The revised Standard requires specific disclosures to be provided if a reporting entity takes advantage of this exemption. The revised Standard also amends the definition of a related party which resulted in new relations being included in the definition, such as, associates of the controlling shareholder and entities controlled, or jointly controlled, by key management personnel. Revised IAS 24 is not relevant to the Group's and the Bank's financial statements as the Group and the Bank are not a government-related entities and the revised definition of a related party is not expected to result in new relations requiring disclosure in the financial statements.

- Amendment to IAS 32 Financial Instruments: Presentation – Classification of Rights Issues (effective for annual period beginning on or after 1 February 2010). The amendment requires that rights, options or warrants to acquire a fixed number of the entity's own equity instruments for a fixed amount of any currency, are equity instruments if the entity offers the rights, options or warrants pro rata to all of its existing owners of the same class of its own non-derivative equity instruments. The amendments to IAS 32 are not relevant to the Group's and the Bank's financial statements as the Group and the Bank have not issued such instruments at any time in the past.

- Amendment to IFRIC 14 IAS 19 – The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction (effective for annual periods beginning on or after 1 January 2011). The amendment of IFRIC 14 addresses the accounting treatment for prepayments made when there is also a minimum funding requirements (MFR). Under the amendments, an entity is required to recognize certain prepayments as an asset on the basis that the entity has a future economic benefit from the prepayment in the form of reduced cash outflows in future years in which MFR payments would otherwise be required. The amendments to IFRIC 14 is not relevant to the Group's and the Bank's financial statements as the Group and the Bank do not have any defined benefit plans with minimum funding requirements.

- IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments (effective for annual periods beginning on or after 1 July 2010). The Interpretation clarifies that equity instruments issued to a creditor to extinguish all or part of a financial liability in a 'debt for equity swap' are consideration paid in accordance with IAS 39.41. The initial measurement of equity instruments issued to extinguish a financial liability is at the fair value of those equity instruments, unless that fair value cannot be reliably measured, in which case the equity instrument should be measured to reflect the fair value of the financial liability extinguished. The difference between the carrying amount of the financial liability (or part of the financial liability) extinguished and the initial measurement amount of equity instruments issued should be recognized in profit or loss. The Group and the Bank did not issue equity to extinguish any financial liability during the current period. Therefore, the Interpretation will have no impact on the comparative amounts in the Group's and the Bank's financial statements for the year ending 31 December 2010. Further, since the Interpretation can relate only to transactions that will occur in the future, it is not possible to determine in advance the effects the application of the Interpretation will have.

Risk management

All aspects of the Bank and Group's risk management objectives and policies are consistent with those disclosed in the consolidated financial statements as at and for the year ended 31 December 2009.

Capital management

The Financial and Capital Market Commission sets and monitors capital requirements for the Bank, the lead operating entity of the Group, and for the Group as a whole.

The Bank defines as capital those items defined by statutory regulation as capital. Under the current capital requirements set by the Financial and Capital Market Commission, banks must maintain a ratio of capital to risk weighted assets ("statutory capital ratio") above the prescribed minimum level. As at 30 June 2010, this minimum level is 8%.

The Bank's risk based capital adequacy ratio, as at 30 June 2010, was 11.28% (31 December 2009: 15.92%; 30 June 2009: 20.32%).

Sensitivity analysis

Foreign currency sensitivity analysis

A 10 percent weakening of the Lat against the following currencies would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. There is no additional effect on the equity other than through the profit or loss.

USE OF ESTIMATES AND JUDGMENTS

The preparation of interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated and Bank interim financial statements, the significant judgments made by management in applying the Bank and Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2009. These were allowances for credit losses, valuation of financial instruments, impairment of financial instruments, valuation of investment property, valuation of assets shown under other assets, recognition/ non-recognition of deferred tax asset.

As of 30.06.2010	**1,333**

As part of the normal course of business the Bank occasionally takes possession of property that originally was pledged as security for a loan. When the Bank acquires (i.e. gains a full title to) a property in this way, the property's classification follows the nature of its intended use by the Bank.

During 2009 and 2010 the Bank has been developing the strategic plans regarding the property repossessed. As a result the Bank classified the property repossessed as Investment property and applied the cost model to investment property.

By the date of signing the report the Bank has developed a certain strategy and has made certain steps to prepare the property repossessed for sale and has started the process of marketing the objects. The Bank has a clear intention to reclassify the property repossessed as Held-for-sale assets till the end of 2010.

Commitments to extend credit, from guarantees and letters of credit

Guarantees and standby letters of credit, which represent irrevocable assurances that the Group and Bank will make payments in the event that a customer cannot meet its obligations to third parties, carry the same credit risk as loans. Documentary and commercial letters of credit, which are written undertakings by the Group on behalf of a customer authorizing a third party to draw drafts on the Group up to a stipulated amount under specific terms and conditions, are collateralized by the underlying shipments of goods to which they relate and therefore carry less risk than a direct borrowing.

Commitments to extend credit represent unused portions of authorizations to extend credit in the form of loans and issued guarantees or letters of credit. Unused guarantees limits are being included in off-balance sheet items when the Bank signs it off and issues to the Client. With respect to credit risk on commitments to extend credit, the Group is potentially exposed to loss in an amount equal to the total unused commitments. However, the likely amount of loss is less than the total unused commitments since most commitments to extend credit are contingent upon customers maintaining specific credit standards.

Guarantees, irrevocable letters of credit and undrawn loan commitments are subject to similar credit risk monitoring and credit policies as utilized in the extension of loans. The management of the Bank and the Group believes the market risk associated with guarantees, irrevocable letters of credit and undrawn loans commitments to be minimal.
