

PRESS RELEASE
September 7th 2010

Acando builds a new customer portal for G4S Solutions

G4S Cash Solutions has chosen Acando and SharePoint 2010 for its new customer portal. The solution contains functions for case handling, ordering of new services, as well as follow up and statistics for delivered services. In conjunction with the development of the customer portal, SharePoint 2010 is implemented as the new company wide platform for collaboration, document handling and intranet for the G4S co-workers.

“We continuously work on simplifying and improving the communication with our customers. With this new solution we also lay the foundation for a first class internal collaboration solution. The combination of business knowledge and technical expertise made the choice for Acando as implementation partner easy”, says Björn Pihlgren, CIO, G4S Cash Solutions.

G4S is Sweden’s second largest security company. G4S Cash Solutions offers complete solutions for cash handling, including transportation of cash and valuables. They also perform counting of cash, cash replenishment of ATM’s, emptying of service boxes and deposit machines, as well as handling and storage of valuables.

“We are very proud to work with G4S in this important project. G4S is very far ahead in their business development, and SharePoint 2010 is a platform which matches their needs in a very good way”, says Thomas Lindbäck, business responsible, Acando.
