Exchange notice**IT 128/10****Market Wide Acceptance Test Update– Genium INET**

INET Nordic Member web has been updated with more detailed information related to the Market Wide acceptance tests arranged during September and October.

Where most important updates are:

- INET OTF will be used as underlying source. It is also possible to trade underlyings during the MWATs.
- Reference data for MWATs will be copied from production, dates added. Clearing Workstation database needs to be renewed accordingly.
- Some small adjustments have been done on schedules but overall schedule stays same.
- More details added.

MWATS

September 23th (CET 18.00-20.00)

September 30th (CET 18.00-20.00)

October 7th (CET 18.00-20.00)

Clearing & settlement verifications are on the following day between CET 12.00-15.00

It is mandatory to participate at minimum two of the MWATs.

See http://nordic.nasdaqomxtrader.com/memberextranet/genium_inet/testing/ for Updated MWAT documents.

Please remember to register for the MWATs
