Press information Stockholm 10/14/2010

## Seamless is acknowledged the highest credit rating AAA (triple A)

## Seamless has been evaluated on 2,400 criteria and received the highest possible credit rating AAA from credit bureau Soliditet.

"We are a rapidly growing company. Being acknowledged with this first class judgement is a very good grade considering the demands on liquidity and foresight it takes to achieve this" says Daniel Nyholm, Chief Financial Officer at Seamless. "We are cautiously managing our daily financials and we carefully make long term plans, something that has resulted in strong finances and freedom from debts. This spring we made a directed share issue to be well prepared for the need of growth capital and thus avoided incurring expensive loans, which is one reason for the fine grade. The credit bureau examines more than just the financials, they also judge operations and owners, two factors where we show stability. Internally we have known very well the financial status and position of our company but it is still good to have it confirmed by an independent party" finishes Daniel Nyholm.

The 2,400 criteria are judged in four parts:

- age/operations
- owners/management
- financials
- solvency
