## ONCOlog Medical partner IBA wins a tender that includes their PatLog<sup>®</sup> system

LinkMed's portfolio company ONCOlog Medical partner IBA has received an order for their proton therapy equipment from the Federal Medico-Biological Agency in Russia (FMBA of Russia). The order includes a fully PatLog<sup>®</sup> system and it will be the first gantry-equipped Proton Therapy center installed in Russia. Order value for ONCOlog Medical is circa SEK 10 million.

IBA won a public tender and will deliver the proton therapy equipment including PatLog<sup>®</sup> system from ONCOlog Medical to Federal High-Tech Medical Center in Dimitrovgrad, Russia.

The choice of PatLog<sup>®</sup> is a result of a successful cooperation between IBA and ONCOlog Medical which has resulted in several winning tenders.

The novel PatLog<sup>®</sup> approach of out-of-treatment room set up and smooth transportation of the patient between different imaging devices and treatment rooms, will highly improve the patient throughput in large radiotherapy clinics, at the same time as the treatment accuracy, patient comfort and clinical efficiency will be better.
