STATEMENT FROM THE CEO

QUARTER SHOWED STRONG FINISH AND AGREEMENT WITH LEADING OPERATOR

Experience tells us that the 3rd quarter is relatively tough, and poker has also shown lower growth than in previous years. However, it should be noted that during the period we increased our liquidity in the poker network, launched an action programme, which is already making its effects felt in the 4th quarter, and signed an exclusive agreement with one of the market's largest gaming operators. These factors, and the increase in revenue in the early part of the 4th quarter, point towards a rapid turnaround of our results – even before the end of the year. Q3 earnings have been adversely affected by one-off costs of approx. SEK 10 million. These comprise staff lay-off costs and write-downs of certain trade receivables for precautionary reasons.

The third quarter is seasonally weak, but, as in previous years, sales began to increase towards the end of August and the adjusted operating profit for September amounted to SEK 3.5 (3.8) million. We signed a number of small customer agreements during the period and in November we entered into an exclusive poker agreement with one of the sector's leading operators. The operator, who wishes to remain anonymous at this stage, will move its players to Entraction's poker network before the year end, and we expect to see positive effects on both player liquidity in the network and earnings in due course. We are convinced that there will continue to be a high level of activity, with several operators changing networks, and Entraction's position as a completely independent supplier without its own operator activities is really beginning to yield results.

The proportion of casual players is increasing and there is much to indicate that this trend will continue. There is also a desire among our customers to create systems that make the poker network more attractive to casual players too. With this in mind, Entraction will revamp its loyalty and bonus systems and adapt them to the players of the future. Developing the market's best product also involves creating incentive structures that increase activity levels among both low-stake players and high rollers.

During the quarter, we implemented an action programme involving staff lay-offs, mainly in Stockholm, which will reduce

our annual costs by approx. SEK 15 million. The staff lay-off costs amount to SEK 5.5 million and have been charged to the 3rd quarter. Earnings were also adversely affected by expected customer losses of SEK 4.5 million.

Local regulation of the gaming market continues and Denmark will be introducing a licence system in 2011. Denmark has adopted a very pragmatic approach, whereby Danish players are allowed to access a global poker network, but the generated income is taxed in Denmark. The introduction of poker cash games and casino has been postponed further by the Italian authorities, forcing us to delay our Italian establishment. However, we shall be able to launch a local network in Italy relatively quickly when the right conditions are in place. Entraction has decided to bar French players from the global network, although we are able to supply gaming to operators with a French licence.

Against the backcloth of a rapidly changing market, I am convinced that our position as an independent supplier, responsiveness to customers' needs and the ability to act quickly will ensure that Entraction delivers strong results in the future. Sales from our existing customer base are increasing and we have successfully reduced our annual costs. In addition, we have signed an agreement with one of the sector's largest operators.

Peter Åström, CEO Entraction

SIGNIFICANT EVENTS AFTER THE PERIOD

AGREEMENT WITH LEADING OPERATOR

Entraction has signed a multi-year exclusive agreement with a leading European gaming operator. The operator, who wishes to remain anonymous at this stage, will migrate its players to Entraction before the year end. Entraction will announce the name of the operator and provide additional information before the new customer is launched in Entraction's network.

FINANCIAL REVIEW

The 3rd quarter was dominated by costs associated with the action programme announced in the Q2 interim report and initiated in August. Staff lay-off costs of SEK 5.5 million were charged to earnings for the quarter. The decline in sales compared with the same period the previous year is, as mentioned earlier, largely due to the weak euro and the closure of Cardroom2. As part of the action programme a close examination was made of the risk in accounts receivable and as a result SEK 4.5 million has been charged to the third quarter.

SALES

Net sales for the 3rd quarter amounted to SEK 77.0 (98.8) million, which is a decline of 22%. Net sales for the period January-September amounted to SEK 254.2 (326.7) million, which is a decline of 22% on the same period the previous year. All the Group's income is in euros. Disregarding the negative euro rate and sales from Cardroom2, which was closed down in the latter part of 2009, the actual decline in net sales for the 3rd quarter was 6% and for the period January-September also 6%.

EARNINGS

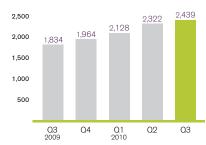

Operating profit (EBIT) for the 3rd quarter amounted to SEK -5.1 (12.6) million, a decline of 140%. Operating profit for the period January-September was 8.6 (40.0) million, a decline of 79%. Currency effects had a negative impact of SEK 7.3 million on operating profit for the period compared with the same period the previous year. Profit attributable to equity holders of the parent company for the first three quarters was SEK 8.9 (60.5) million. The previous year's results included SEK 26.4 million attributable to the divestment of operations in Casagaming Ltd.

DEVELOPMENT OF NUMBER OF PLAYERS

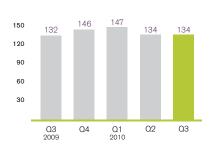

The number of registered players at the end of the period was 2,439,055 (1,834,278), an increase of 33%.

The number of active players during the quarter was 133,854 (131,842), an increase of 2%.

GAMING SURPLUS, TURNKEY

Gaming surplus for the quarter amounted to SEK 90.6 (120.0) million, which is a decline of 25%. Gaming surplus for the period January-September amounted to SEK 298.1 (395.8) million, which is a decline of 25% on the same period the previous year. The decline is largely due to an unfavourable euro rate and Entraction's closure of Cardroom2 in the 4th quarter of 2009. Expressed in euros and taking into account the closure of Cardroom2, gaming surplus fell by 8% for the quarter and 8% for the period January-September.

The majority of bonuses to players are covered by Entraction's customers themselves, although Entraction shares the costs of certain shared network bonus programmes and sponsorship of poker tournaments. Customer commission for the quarter amounted to SEK 39.7 (52.1) million, which is a decline of 24%. The figure for the period January-September was SEK 131.0 (172.1)

million, which is a decline of 24% and is a natural consequence of the decline in gaming surplus.

234.7 (328.8) million, a decline of 29%. Poker net sales for turnkey customers, i.e. rake less bonuses, for the quarter amounted to SEK 46.9 (69.9) million, a decline of 33%, while the figure for the period January-September was SEK 158.0 (229.3) million, a decline of 31%. Cardroom2 accounted for approx. SEK 27 million of poker net sales for the corresponding period in 2009.

Expressed in euros and taking into account the closure of Cardroom2, net sales for the period January-September fell by 13% compared with the same period the previous year.

2010 has been marked by a general decline in the poker market and lower sales per player. The summer months are seasonally weak for online poker, although September showed a clear upswing and the positive trend has continued.

NET SALES POKER SEK MILLIONS

POKER

Gaming surplus for the 3rd quarter amounted to SEK 71.3 (101.7) million, which is a decline of 30% on the same period the previous year. Gaming surplus for the period January-September amounted to SEK

BETTING

Gaming surplus for the 3rd quarter amounted to SEK 2.9 (1.9) million, an increase of 53%. Gaming surplus for the period January-September amounted to SEK 9.6 (8.6) million, an increase of 12%. Net sales for the quarter amounted to SEK 2.8 (1.8) million, which is an increase of 56%, while net sales for the period January-September amounted

SEK 9.2 (6.0) million, an increase of 53%. Expressed in euros, net

sales for the period January-September increased by 70%. Bonus costs have been kept relatively low, resulting in growth in gaming surplus and net sales, which has benefited both Entraction and its customers.

The World Cup, which ended on 11 July, had a positive impact on gaming surplus. Entraction launched live betting with additional customers during the quarter.

The betting margin remained high during the quarter and was 14.1% (6.6%). This is partly a due to favourable results during the final rounds of the FIFA World Cup.

NET SALES CASINO SEK MILLIONS 24 20 16 14.9 18.0 18.2 15.1 14.7 21 22 4 4 23 2009 04 21 2010 02 03

CASINO

Gaming surplus for the 3rd quarter amounted to SEK 16.2 (15.8) million, which is an increase of 3% on the same period the previous year. Gaming surplus for the period January-September amounted to SEK 53.1 (56.6) million, a decline of 6%. Net sales for the guarter amounted to SEK 14.7

(14.9) million, which is a decline of 1%. Net sales for the period January-September amounted to SEK 48.0 (54.2) million, a decline of 11%. Expressed in euros, net sales for the period January-September declined by 2%.

Live Casino was launched in the 3rd quarter and will be offered to more customers in the future, with the aim being to offer more low stake tables. Entraction is continuously evaluating casino campaigns aimed at different player segments in order to increase casino sales. A new casino is being launched via the poker client during the 4th quarter. This is an important launch for Entraction as it makes casino gaming available to both turnkey and integrated customers, unlike the seperate casino products which are only offered to turnkey customers.

BINGO

Bingo net sales for the quarter amounted to SEK 0.1 (0.3) million. Net sales for the period January-September were SEK 0.4 (1.3) million. Entraction's present bingo customers are active in saturated bingo markets where competition is tough.

ROYALTY

Royalty is entirely attributable to customers which have integrated Entraction's poker into their own gaming platform. Royalty income, which provides a high contribution to fixed costs, was SEK 9.7 (9.3) million during the 3rd quarter, which is an increase of 4% on the previous year. Royalty income for the period January-September amounted to

SEK 31.2 (27.2) million, an increase of 15%. Expressed in euros, royalty income for the period January-September increased by 17%. The increase is largely due to partner launches in the network during the year, although other partners have also generally developed well as new partners tend to have positive consequential effects throughout the poker network.

OTHER INCOME

Other income consists of set-up fees for new customers, with-drawal charges, exchange fees in the cashier and income associated with European Masters of Poker. Other income amounted to SEK 2.8 (2.7) million during the quarter.

ACCOUNTING POLICIES AND ADDITIONAL INFORMATION

All figures refer to the Group unless otherwise stated. Comparative figures in this interim report refer to the corresponding period in 2009 unless otherwise stated. These have been restated without the Casablanca Gaming Group segment, which was disposed of in the second quarter of 2009 and is reported under Discontinued operations. Poker sales are reported on a net basis as rake less bonuses etc. Casino, betting and bingo sales are reported on a net basis as the difference between bets and winnings less bonuses. Royalty comprises the monthly licence fee paid by customers with an integrated solution to Entraction's network. The royalty is based on the sales generated by the integrated customers' players.

This interim report has been prepared in accordance with IAS 34 Interim Financial Reporting and the applicable provisions of the Swedish Annual Accounts Act. Unless otherwise specified, the accounting policies applied for the Group and Parent Company are the same as those applied in the preparation of the most recent annual report, which is available at www.entraction.com or from the head office in Stockholm.

New and amended accounting policies for 2010 which are expected to have a significant effect on the Group's financial reports are the revised IFRS 3 Business Combinations and IAS 27 Consolidated and Separate Financial Statements.

RISK AND UNCERTAINTIES

The Group's significant risks and uncertainties are mainly of a legal and political nature. The Entraction Group is dependent on the legal situation for the gaming industry, particularly in the EU, where the majority of its customers' players are active. The Group does not at present offer services to customers resident in the USA.

In December 2008, the Government's inquiry into gambling presented a report which may bring a change to Swedish legislation with effect from January 2011. Such changes may have a detrimental effect on the legal situation for gaming companies, although Entraction does not believe the risk to be imminent.

The Group's earnings are exposed to changes in exchange rates, mainly in relation to the Euro. All income and direct costs are in Euro. As the Company's functional currency is SEK, earnings and equity are affected by exchange rate movements when the assets and liabilities of foreign subsidiaries are translated to SEK. No use of derivatives has been made to address these fluctuations.
