PRESS RELEASE

Net Entertainment signs two breakthrough contracts for CasinoCafé

Net Entertainment has signed two contracts for delivery of CasinoCafé™ with Delta Invest Ltd in Russia and PCP Electronics Ltd in Cyprus.

Delta Invest Ltd has extensive experience from the land based gambling industry and will roll out CasinoCafé™ through a network of over 500 shops in Russia. "We are very pleased to have reached an agreement with Net Entertainment. Through CasinoCafé™ our customers are able to experience and access top class gambling content by the click of a button" says Vjaceslavs Volkovs, Director at Delta Invest Ltd.

PCP Electronics Ltd has extensive experience in land based gambling and is operating gambling halls throughout Cyprus. The intention is to roll-out CasinoCafé™ in 20 shops in Cyprus over a 12 month period.

Roll-out and launch will commence during the second quarter 2009. CasinoCafé™ is a new product line for Net Entertainment and it is possible that Delta Invest will become one of the largest licensees of Net Entertainment if the projections given holds true.

"I am very pleased to be able to announce these two agreements for CasinoCafé™. One of the benefits of CasinoCafé™ is that it combines the cost efficiency of electronically distributed gaming with the business volumes of land based casino operations" says Johan Öhman, CEO at Net Entertainment and continues; "It is estimated that well over 90% of all gaming still is conducted in physical environments, a market we hence tap into with CasinoCafé™."

Net Entertainment develops digitally distributed systems for Internet gaming. CasinoCafé™ is set up similar to an Internet café, where an operator can set up a local casino operation using standard PC′s. The solution comes complete with a wide range of casino games and a powerful administration tool capable of handling cash payments and issuing one-time accounts to players. CasinoCafé™ merges the virtual and the physical world reaping the maximum rewards of both. Net Entertainment licenses CasinoCafé™ on a royalty basis based on the revenues the product generates. Net Entertainment is listed on NASDAQ OMX Stockholm (NET-B). More information about Net Entertainment is available at www.netent.com.
