

Company announcement no. 15/2010

24 November 2010

Quarterly statement for 1 January – 30 September 2010 for FirstFarms A/S

Summary

The Board of Directors and Management of FirstFarms A/S have today reviewed and adopted the un-audited quarterly accounts for the period 1 January -30 September 2010.

Highlights

- FirstFarms has in the accounting period realised a turnover of DKK 58.1 million, an EBIT result of DKK 3.6 million and a pre-tax result of DKK -0.9 million. The results correspond to the expectations. The EBIT result is improved with DKK 35.2 million compared to the same period in 2009.
- In the beginning of the year, the milk price was lower than assumed but has in the last half year increased and is at the moment a little above the expectations. For the year, an average price of DKK 2.15 per kg is expected compared to an assumed average price of DKK 2.24 per kg.
- The milk production has in the first three quarters been lower than assumed as the planned extension of the cattle herd has happened later than assumed. The yield per cow has not met the expectations. In the period, the total milk production is however more than 20 percent higher than in the same period in 2009.
- The sales prices on grain have been higher than assumed.
- The harvest in Romania has been good with higher yields than expected. The harvest in Slovakia has been negatively influenced by flooding as mentioned in the company announcement in August. Lower yields are expected in maize and alfalfa silage than assumed at the half year report, as the flooding have had a larger negative influence than estimated in August. The total negative influence of the flooding, originally estimated at DKK 7.5 million, is now calculated to approx. DKK 10 million.
- In the light of the above, FirstFarms maintains the expectations for 2010 as earlier announced with an EBIT result of DKK 0-5 million and a pre-tax result of DKK -5-0 million. The expectations for the turnover are decreased with DKK 10 million to a turnover of DKK 80-85 million.

Management report for the period 1 January – 30 September 2010

FirstFarms has in the accounting period realised a turnover of DKK 58.1 million, an EBIT result of DKK 0.3 million and a pre-tax result of DKK -4.2 million. The results correspond to the expectations. The EBIT result is improved with DKK 35.2 million compared to the same period in 2009.

In the period, the equity is reduced with DKK 0.6 million, which is composed by a result after tax of DKK -1.1 million and an positive exchange rate adjustment of DKK 0.5 million.

In the beginning of the year, the milk price was lower than assumed but has in the last half year been increasing and is at the moment a little above the expectations. For the year, an average price of DKK 2.15 per kg is expected compared to an assumed average price of DKK 2.24 per kg.

The milk production has in the first three quarters been lower than assumed as the planned extension of the cattle herd has happened later than assumed. The yield per cow has not met the expectations. In the period, the total milk production is however more than 20 percent higher than in the same period in 2009.

The sales prices on grain have been higher than assumed.

The harvest in Romania has been good with higher yields than expected. The harvest in Slovakia has been negative influenced by flooding as mentioned in the company announcement in August. Lower yields are expected in maize and alfalfa silage than assumed at the half year report, as the flooding have had a larger negative influence than estimated in August. The total negative influence of the flooding, originally estimated at DKK 7.5 million, is now calculated to approx. DKK 10 million.

The construction of cattle stables in Slovakia is almost completed, as installation of equipment etc. in the 2 last stable sections is the only outstanding issue.

Risk assessment

FirstFarms has in the annual report for 2009 described the most essential risks for the company, and it is the management's opinion that this description is still adequate. The annual report and the risk assessment can be found on the company's website www.firstfarms.com.

Expectations for 2010

Assumptions

FirstFarms maintains the expectations for 2010 as earlier announced with an EBIT result of DKK 0-5 million and a pre-tax result of DKK -5-0 million. The expectations for the turnover are decreased with DKK 10 million to a turnover of DKK 80-85 million.

An average settlement price for the year on milk is assumed to be 2.15 per kg.

Management statement

The Management and Board of Directors of FirstFarms have today discussed and approved the quarterly account of FirstFarms A/S for the period 1 January – 30 September 2010.

The account, which has not been audited or reviewed by the independent auditors of the Company, has been prepared in accordance with IAS 34 – "Interim Financial Reporting" as adopted by the EU and additional Danish disclosure requirements for interim reports of listed companies.

In our opinion the quarterly account gives a true and fair view of the Group's assets, liabilities and financial position at 30 September 2010 and of the results of the Group's operations and cash flows for the period 1 January – 30 September 2010.

Further, in our opinion the Management's review gives a true and fair overview of the development in the Group's operations and financial matters, the results of the Group's operations and the Group's financial position as a whole.
