

ANNOUNCEMENT NO 1 – 2011

10 January 2011

Sale of one product tanker

TORM has entered into an agreement to sell Faja de Oro II. The vessel have been sold for a consideration of USD 12 million. Faja de Oro II will be delivered to the new owner in the first quarter of 2011, where the effect of the transaction will be recognised in the financial statements. The sale implies an accounting loss of USD 6 million.

The sale of Faja de Oro II, build in 1995, is a natural consequence of TORM's strategy to own and operate a modern fleet.

Following the sale of the vessels, TORM's owned fleet consists of 67 product tankers and two dry bulk vessels. In addition, TORM has seven product tankers and two dry bulk vessels on order.

TORM will announce the financial forecast for 2011 in the annual report for 2010, on the 10 March 2011.

About TORM

TORM is one of the world's leading carriers of refined oil products as well as a significant player in the dry bulk market. The Company runs a fleet of approximately 140 modern vessels in cooperation with other respected shipping companies sharing TORM's commitment to safety, environmental responsibility and customer service.

TORM was founded in 1889. The Company conducts business worldwide and is headquartered in Copenhagen, Denmark. TORM's shares are listed on NASDAQ OMX Copenhagen (ticker: TORM) and on NASDAQ in New York (ticker: TRMD). For further information, please visit www.torm.com.

Safe Harbor Forward Looking Statements

Matters discussed in this release may constitute forward-looking statements. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts. The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, Management's examination of historical operating trends, data contained in our records and other data available from third parties. Although TORM believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, TORM cannot assure you that it will achieve or accomplish these expectations, beliefs or projections.

Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward looking statements include the strength of world economies and currencies, changes in charter hire rates and vessel values, changes in demand for "tonne miles" of oil carried by oil tankers, the effect of changes in OPEC's petroleum production levels and worldwide oil consumption and storage, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled dry-docking, changes in TORM's operating expenses, including bunker prices, dry-docking and insurance costs, changes in governmental rules and regulations including requirements for double hull tankers or actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists. Risks and uncertainties are further described in reports filed by TORM with the US Securities and Exchange Commission, including the TORM Annual Report on Form 20-F and its reports on Form 6-K.

Forward looking statements are based on management's current evaluation, and TORM is only under obligation to update and change the listed expectations to the extent required by law.
