### January–December 2010 compared to January–December 2009

Accounting principles, segment and IFRS reporting, see page 4

- Revenue amounted to SEK 121.7 (135.8) billion.
- Revenue in Construction decreased by 13 percent in Swedish kronor, and by 9 percent adjusted for currency rate effects.
- Operating income for the Group amounted to SEK 5,339 M (5,172), an improvement of 3 percent.
- Operating income in Construction decreased by 10 percent and totaled SEK 4,338 M (4,870). Operating margin improved and amounted to 3.9 (3.7) percent.
- Income after financial items amounted to SEK 5,304 M (4,939), an improvement of 7 percent.
- Profit for the year totaled SEK 3,940 M (3,595).
- Earnings per share totaled SEK 9.54 (8.65) according to segment reporting and SEK 9.76 (10.16) according to IFRSs.
- Operating cash flow before taxes, financing activities and dividends amounted to SEK 6,269 M (7,225).
- Interest-bearing net cash position was SEK 9.9 (8.1) billion.
- Order bookings increased by 2 percent and totaled SEK 131.4 (128.8) billion. Adjusted for currency rate effects, order bookings increased by 6 percent.
- Order backlog totaled SEK 147.1 (136.5) billion, equivalent to 16 (13) months of construction.
- Agreement regarding the sale of the Autopista Central signed as previously announced.
- The Board of Directors proposes a regular dividend of SEK 5.75 (5.25) per share and an extra dividend of SEK 6.25 (1.00) per share. The extra dividend is conditioned upon the sale of the Autopista Central concession having been completed and the full sale price having been paid.

This and previous releases can also be found at [www.skanska.com/investors](http://www.skanska.com/investors).

Skanska AB may be required to disclose the information provided herein pursuant to the Securities Market Act.

## Comments from Skanska's President and CEO Johan Karlström:

- During the fourth quarter, Skanska's operations as a whole continued to deliver strong earnings. The margins in several of our Construction operations showed record levels, while large positive cash flows were generated. In our Residential Development operations, we increased the pace of housing starts and homes sold.
- Construction revenue in local currencies increased by two percent during the fourth quarter of 2010 compared to the fourth quarter of 2009, and the revenue downturn in local currencies during 2010 was limited to nine percent. This was the first time since the recession we had a positive revenue trend in local currencies compared to the corresponding quarter of the preceding year. Order bookings in Swedish kronor were also 16 percent higher than revenue during the year.
- During 2010 we initiated 14 new commercial property development projects and started 4,113 new homes, as well as winning and reaching financial close on three new PPP-projects. This represents a total investment commitment of about SEK 14 billion which, aside from generating a good return on invested capital, will also generate a construction volume of about SEK 24 billion for our Construction operations. Continuing this trend will be an important element of growing our operations in accordance with the targets in our business plan for 2011 – 2015.
- During the final days of 2010 we signed a sales agreement related to the concession for the Autopista Central highway in Chile. This was Skanska's most successful investment ever for such a long term investment, and we expect to be able to complete the transaction latest by the end of the third quarter this year. Assuming that the transaction will be completed according to the schedule, our assessment is that the financial position of Skanska is such, that there is room for an extra dividend of SEK 6.25 per share this year.

## Market outlook

### Construction

The market for building construction is gradually improving, where the Nordic markets in particular, especially Sweden, are showing a stable trend while the outlook for the Czech market is weak. In the United States, the demand within certain building construction segments such as healthcare and computer centers is relatively good.

Civil construction markets are continuing to show a stable trend in most of our markets. The number of bidders is still large, however, which means tight bidding margins. This is especially clear in the U.S. market.

In the United Kingdom and the Czech Republic, the market is affected by public sector austerity programs, which results in reduced public construction investment in these markets. The Polish market is stable but the competition is fierce.

### Residential Development

The housing market is performing well in all of our Nordic markets, with good demand and a stable price trend, and is expected to remain stable. In the Czech Republic the market is weak but has slowly improved.

### Commercial Property Development

Strong interest and increased activity by property investors are resulting in higher transaction volume, with falling yield requirements. Vacancy rates are stable in the office markets in our Nordic and Central European cities. In the United States there is good potential, because of lack of financing resources among other market players, to develop new office projects in our metropolitan regions (Washington, D.C., Boston, Houston and Seattle).

### Infrastructure Development

Due to fiscal tightening in the British public sector, a general cutback in public construction investments occurs in the U.K. These cutbacks will also affect new public-private partnership (PPP) projects, but to what extent remains uncertain.

In other European markets, the supply of projects is more limited, although interest in PPP solutions is improving. As the financing market becomes more stable, the conditions for new PPP projects have also improved. There is potential for new projects in the United States and Latin America, but the lead times for these are difficult to predict.

## Order bookings and backlog, Construction, SEK bn

### Order bookings

Order bookings increased by 2 percent compared to 2009, totaling SEK 131.4 (128.8) billion. Adjusted for currency rate effects, order bookings increased by 6 percent. Order bookings in SEK were also 16 (-1) percent higher than revenue during 2010. During the fourth quarter, order bookings were reduced by about SEK 765 M when two previous assignments were cancelled.

Presented below are some of the fourth quarter's major projects that were included in order bookings. During the comparative period of 2009, order bookings included two large construction contracts for Skanska USA Building and Skanska USA Civil, equivalent to about SEK 5.1 billion.

Skanska USA Building was awarded two major healthcare projects in California. The first construction assignment pertains to a healthcare facility in San Carlos, and the second contract pertains to the renovation and expansion of a medical center in the San Francisco Bay Area. The total contract amount for these two projects is about SEK 1.9 billion.

Skanska USA Building also secured an assignment to construct two laboratory buildings at the City University of New York in Harlem. The contract amounts to about SEK 626 M, and the customer is the Dormitory Authority of the State of New York.

Skanska USA Building was also awarded two construction contracts with a total amount equivalent to about SEK 575 M. These contracts are for a university building in Connecticut for the University of Connecticut and an office building including a parking garage in Oregon.

Skanska UK secured an assignment to build tunnels in the London area for power transmission, with a contract amount totaling about SEK 970 M.

Skanska UK also received a contract to build a new civil centre for Brent Council in London. The contract is valued at about SEK 930 M.

Skanska started the first phase of the Lustgården office project on the isle of Kungsholmen in Stockholm. The property will be the largest green office project in the Swedish capital and is being developed by Skanska Commercial Development Nordic, which will invest about SEK 1.4 billion, while the construction contract for Skanska Sweden is valued at about SEK 1 billion.

### Order backlog

Order backlog increased by 8 percent and totaled SEK 147.1 (136.5) billion at the end of the fourth quarter. Adjusted for currency rate effects, order backlog increased by 14 percent. Order backlog was equivalent to about 16 (13) months of construction. The portion of order backlog that is planned for execution during 2011 was equivalent to 69 (59) percent of 2010 revenue.

## New accounting principles

For the Group, this Year-end Report has been prepared in compliance with IAS 34, “Interim Financial Reporting,” the Annual Accounts Act and the Securities Market Act. For the Parent Company, the Year-end Report has been prepared in compliance with the Annual Accounts Act and the Securities Market Act, which is pursuant to the Swedish Financial Reporting Board’s Recommendation RFR 2.3.

As stated in Skanska’s Annual Report for 2009, IFRIC 12, “Service Concession Arrangements,” IFRIC 15, “Agreements for the Construction of Real Estate,” IFRIC 16, “Hedges of a Net Investment in a Foreign Operation,” the revised IFRS 3, “Business Combinations,” and the amended IAS 27, “Consolidated and Separate Financial Statements” shall begin to be applied effective from 2010. Due to the introduction of IFRIC 15, segment reporting of Residential Development and Commercial Development has been prepared using a principle that diverges from the principle applied when preparing the consolidated income statement. IFRIC 12 and IFRIC 15, as well as this segment reporting principle, have led to changes in comparative figures.

The press release “New segment reporting and new accounting principles for the Skanska Group,” published on April 19, 2010 (available at [www.skanska.com](http://www.skanska.com)) provides an account of the implications of IFRIC 12 and IFRIC 15 for Skanska, and it presents restated comparative figures.

## Segment and IFRS reporting

### Segment reporting

Effective from January 1, 2010, the Group is reporting its Residential Development and Commercial Property Development segments according to a new segment reporting method. The new segment reporting method recognizes revenue and gains on the divestment of properties, residential as well as commercial, when binding sales contracts are signed. When reporting in compliance with IFRIC 15, revenue and gains on divestment of properties are recognized when the purchaser takes possession of the property or residential unit, which may occur up to two years after the sales contract is signed. Revenue and capital gains on the divestment of properties were previously recognized successively after the signing of the sales contract and according to the percentage of completion.

The new segment reporting method reflects Skanska’s operations better than IFRIC 15. The Senior Executive Team and the Board of Directors monitor operations based on segment reporting, and this will also serve as the primary basis for dividend decisions. The design of the Group’s incentive programs also mainly follows operating segment reporting.

Skanska’s business streams – Construction, Residential Development, Commercial Property Development and Infrastructure – are reported as operating segments.

Tables in this report that refer to segment reporting are shown with a shaded background.

Construction includes both building construction and civil construction. Revenue and earnings are reported successively as a project accrues, in compliance with IFRSs and consistent with previous reporting.

Residential Development develops residential projects for immediate sale. Homes are adapted to selected customer categories. The units are responsible for planning and selling their projects. The construction assignments are performed by construction units in the Construction business stream in each respective market. Revenue and earnings are recognized when binding contracts are signed for the sale of homes.

Commercial Property Development initiates, develops, leases and divests commercial property projects. Property development focuses on office buildings, shopping malls and logistics properties. In most markets, construction assignments are performed by Skanska’s Construction segment. Commercial Property Development revenue and earnings are recognized when binding contracts are signed for the sale of properties.

Infrastructure Development specializes in identifying, developing and investing in privately financed infrastructure projects, such as highways, hospitals and power generating plants. The business stream focuses on creating new potential projects mainly in the markets where the Group has operations. Construction assignments are performed in most markets by Skanska’s construction units. Revenue and earnings in Infrastructure Development are recognized in compliance with IFRSs.

Intra-Group pricing between operating segments occurs on market terms.

### Reporting in compliance with IFRSs

Revenue and earnings reporting for Construction and Infrastructure Development are the same for segments and IFRSs.

The statements of financial position and cash flow are presented in accordance with IFRSs.

## Revenue and earnings

### Performance analysis, segment reporting

### The Group

Revenue declined by 10 percent to SEK 121.7 (135.8) billion, primarily due to decreased revenue in Construction. In local currencies, the revenue decline was 8 percent.

Operating income amounted to SEK 5,339 M (5,172), with Residential Development accounting for the largest improvement compared to the preceding year. Earnings in Commercial Property Development and Infrastructure Development also improved compared to the preceding year. Earnings in Construction decreased somewhat less than the pace of the downturn in revenue. Currency rate effects lowered the Group's operating income by SEK 178 M.

Central expenses, including businesses that are being closed down, totaled SEK -792 M (-680). Units that are being closed down affected earnings in the amount of SEK -130 M (-18). Of this, SEK 104 M of which SEK 72 M in the fourth quarter was related to Skanska's former residential operations in Denmark, mainly writedowns on land. Net financial items totaled SEK -35 M (-233). For a specification of the items included in this figure, see page 14.

Income after financial items amounted to SEK 5,304 M (4,939). Taxes for the year amounted to SEK -1,364 M (-1,344), equivalent to a tax rate of about 26 (27) percent. Profit for the year totaled SEK 3,940 M (3,595). Earnings per share for the year according to segment reporting amounted to SEK 9.54 (8.65). Earnings per share for the year according to IFRSs amounted to SEK 9.76 (10.16). The main reason for the discrepancy between earnings according to segment reporting and IFRSs is that the number of homes sold during the year was significantly larger than the number of homes where the purchaser took possession, and that previously sold commercial properties were taken in possession by the purchaser during the year. For further information regarding these differences, see the reconciliation between segment reporting and IFRSs on pages 12 and 13.

### Construction

Revenue declined by 13 percent to SEK 113.2 (130.4) billion. In local currencies, the decline was 9 percent.

In the Construction business stream, operating income decreased by 10 percent and amounted to SEK 4,388 M (4,870). Currency rate effects lowered the operating income in Construction by SEK 169 M.

Operating margin improved compared to the preceding year and amounted to 3.9 (3.7) percent. The margin was positively affected because there was a relatively larger share of projects at the end of the project cycle than at the beginning. Net project writeups occurred primarily in Skanska Sweden, Skanska USA Civil, Skanska USA Building, Skanska UK and Skanska Poland, while net project writedowns occurred primarily in Skanska Finland and Skanska Norway. Earlier in the

year, earnings in Construction were positively affected by recovered bidding costs of SEK 56 M in conjunction with the financial close of New Karolinska Solna in Sweden and by a positive nonrecurring effect of SEK 102 M due to changes in the Norwegian pension system. In Finland, a goodwill writedown of SEK 109 M in civil construction operations in Finland was also charged to earnings earlier in the year.

### Residential Development

In Residential Development, operating income totaled SEK 559 M (-16). The operating margin amounted to 7.4 (neg) percent. The number of project start-ups developed favorably while sales also developed well, though at a somewhat slower pace than project start-ups. Operating income included SEK 53 M (-4) in income from joint ventures and associated companies.

### Commercial Property Development

Operating income in Commercial Property Development totaled SEK 920 M (780). During the year, the business stream carried out divestments worth SEK 3,942 M (3,559). Its operating income included capital gains from property divestments amounting to SEK 791 M (754).

### Infrastructure Development

Operating income in Infrastructure Development totaled SEK 297 M (187). Income was favorably affected in the amount of SEK 97 M by the business stream's divestment of its stake in the Orkdalsvegen E39 road in Norway. The financial close of New Karolinska Solna had an impact on earnings, in the form of recovered bidding costs totaling SEK 12 M. Additional earnings from previous divestments totaled SEK 86 M.

## Operating cash flow and changes in interest-bearing net receivables

Cash flow before taxes, financing operations and dividends amounted to SEK 6,269 M (7,225).

In Construction, cash flow totaled SEK 6,277 M (7,223). This positive cash flow was primarily due to good cash flow from business operations and the trend of working capital.

In Residential Development, cash flow amounted to SEK -1,934 M (461). The negative cash flow was explained primarily by the change in working capital and cash flow from business operations. Net investments amounted to SEK -281 M (2,528). The change in net investments was mainly due to a smaller number of homes being handed over to purchasers, as well as increased investments in land and ongoing projects. In Commercial Property Development, cash flow before taxes totaled SEK 3,393 M (769), with this positive cash flow primarily being due to purchasers taking possession of a number of properties during the period. In Infrastructure Development, cash flow totaled SEK -749 M (-280).

Taxes paid amounted to SEK -1,636 M (-986). Cash flow before changes in interest-bearing receivables and liabilities totaled SEK 1,698 M (3,315). The change in pension liability in defined benefit pension plans totaled SEK 760 M (690). See also page 14. The change in interest-bearing net receivables totaled SEK 1,822 M (3,585), of which SEK -726 M (-528) was related to translation differences. Interest-bearing net receivables amounted to SEK 9.9 (8.1) billion.

### Note, contingent liabilities

Contingent liabilities amounted to SEK 15.2 bn on December 31, 2010 (Dec 31, 2009: 20.9). During the year, contingent liabilities decreased by SEK 5.7 bn. This was mainly because joint and several liability for projects carried out in consortium form decreased due to a higher degree of completion. Currency exchange rates also reduced contingent liabilities by SEK 0.9 bn.

## Financial position

### Reported in compliance with IFRSs

Skanska has a solid financial position, with interest-bearing net receivables of SEK 9.9 (8.1) billion and an unutilized long-term credit facility of SEK 6.8 billion that runs through June 2014. Interest-bearing loans plus interest-bearing pension liabilities and provisions totaled SEK 4.9 (7.7) billion. Of this amount, construction loans to cooperative housing associations amounted to SEK 1.1 billion, and interest-bearing pension liabilities and provisions amounted to SEK 1.3 (2.3) billion.

At year-end 2010, capital employed amounted to SEK 25.7 (27.8) billion. Return on capital employed amounted to 21.6 (22.3) percent.

The equity of the Group totaled SEK 20.8 (20.2) billion. The net debt/equity ratio amounted to -0.5 (-0.4), and the equity/assets ratio was 26.8 (24.1) percent.

Total assets in the consolidated statement of financial position amounted to SEK 77.7 (83.8) billion. Due to currency rate effects, total assets decreased by SEK 4.5 billion.

The carrying amount of current-asset properties totaled SEK 20.4 billion, of which Commercial Property Development current-asset properties accounted for SEK 10.0 billion.

## Residential Development

### Reported in compliance with IFRSs

SEK M	Residential Development
Completed projects	469
Ongoing projects	3,554
Undeveloped land and development properties	6,383
<b>Total</b>	<b>10,406</b>

At the end of the fourth quarter, there were 4,534 (2,429) homes under construction. Of these, 59 (75) percent were sold. The number of completed unsold homes 177 (480), of which 100 (190) in the Czech Republic. During the year, construction started on 4,133 (810) homes. In the Nordic countries, the number of homes started was 3,698 (689), while in the Czech Republic they totaled 415 (121). The number of homes sold during the year was 3,176 (2,392). In the Nordic countries, the number of homes sold totaled 2,761 (2,123), while sales in the Czech Republic totaled 415 (269) homes.

The carrying amount of current-asset properties in Residential Development totaled SEK 10.4 billion. A breakdown of the carrying amount can be seen in the table above. The carrying amount of undeveloped land and development properties was SEK 6.4 billion, with an estimated market value of about SEK 7.4 billion according to the appraisal carried out in conjunction with the annual financial statements as of December 31, 2010. This was equivalent to Skanska-owned building rights for about 21,200 homes and about 2,200 building rights in associated companies. In addition, the business stream was entitled to purchase about 10,000 more building rights under certain conditions.

## Commercial Property Development

<b>Total</b>	<b>10,000</b>	<b>13,641</b>	<b>17,131</b>		
<i>of which ongoing projects sold according to segment reporting</i>	<i>53</i>	<i>73</i>	<i>90</i>		

<sup>1</sup> Market value according to appraisal on December 31, 2010

<sup>2</sup> Estimated market value at completion

Commercial Property Development has 20 projects underway, 14 of them in the Nordic countries. During the year, it started 14 new projects, with an estimated investment volume of SEK 4.7 billion. Ongoing projects represented leasable space of about 298,000 sq. m (3.21 million sq. ft.) and had a pre-leasing rate of 32 percent, measured in rent. At the end of the year, the carrying amount for ongoing projects was SEK 2.0 billion. Their carrying amount upon completion is expected to total SEK 5.6 billion, with an estimated market value of SEK 7.0 billion. The degree of completion in ongoing projects was about 36 percent. Of these ongoing projects, one was sold according to segment reporting. This project was equivalent to a carrying amount upon completion of SEK 73 M, with a market value of SEK 90 M.

The market value of completed projects was SEK 6.6 billion, which represented a surplus value of SEK 1.6 billion. The occupancy level measured in rent totaled 89 percent.

The carrying amount of undeveloped land and development properties (building rights) totaled about SEK 3.0 billion, with an estimated market value of about SEK 3.5 billion.

Accumulated eliminations of intra-Group project gains amounted to SEK 275 M at year-end. These eliminations are reversed as each respective project is divested.

## Infrastructure Development

Reported in compliance with IFRSs

### Unrealized development gains, Infrastructure Development

SEK bn	Dec 31 <sup>1</sup>	Sep 30	Dec 31
	2010	2010	2009
Present value of cash flow from projects	4.6	11.6	11.5
Present value of remaining investments	-1.1	-1.1	-1.0
<b>Net present value of projects</b>	<b>3.5</b>	<b>10.5</b>	<b>10.5</b>
Carrying amount	-1.7	-2.0	-2.1
<b>Unrealized development gain</b>	<b>1.8</b>	<b>8.5</b>	<b>8.4</b>

<sup>1</sup> Autopista Central excluded

At year-end 2010, the carrying amount of shares, participations, subordinated receivables and concessions in Infrastructure Development totaled about SEK -1.7 (2.1) billion. Remaining investment obligations related to ongoing Infrastructure Development projects nominally amounted to a present value of about SEK 1.1 (1.0) billion. At year-end, unrealized development gains before taxes totaled about SEK 1.8 (8.4) billion. During the year, this item was reduced mainly due to the divestment of Skanska's stake in the Autopista Central toll highway concession.

The latest (Sep 30, 2010) reported unrealized development gain, included about SEK 6.5 billion before taxes, corresponding to a value after taxes of about SEK 5 billion, for the Autopista Central. According to the signed sales agreement, the gain on sale after taxes will amount to about SEK 5 billion. See also the table on page 11 concerning adjusted equity.

## Investments and divestments

### Reported in compliance with IFRSs

In the Construction business stream, investments totaled SEK -1,351 M (1,443). This item was mainly related to investments in property, plant and equipment for Skanska's own construction and manufacturing. Net investments in Construction totaled SEK -1,079 M (-954). During 2010, depreciation of property, plant and equipment amounted to SEK -1,206 M (-1,377).

In Residential Development, investments in current-asset properties amounted to SEK -5,367 M (-3,113) and total investments amounted to SEK -5,562 M (-3,430), including about SEK -1,876 M related to acquisitions of land equivalent to about 5,347 building rights.

In Commercial Property Development, investments in current-asset property amounted to SEK -3,125 M (-4,339), and total investments amounted to SEK -3,147 M (-4,299), including SEK 806 M related to investments in land. Divestments of current-asset properties amounted to SEK 6,589 M (4,218). Net investments in Commercial Property Development amounted to SEK 3,464 M (-121).

Investments in Infrastructure Development amounted to SEK -692 M (-445), and divestments were SEK 403 M (137). Net investments in Infrastructure Development were SEK -289 M (-308).

The Group's total investments amounted to SEK -10,749 M (-9,421). Divestments amounted to SEK 12,603 M (10,679), and the Group's net investments were SEK 1,854 M (1,258).

### Net financial items

Net financial items amounted to SEK -35 M (-233). Net interest income amounted to SEK 62 M (-13). Capitalization of interest expenses in ongoing projects for Skanska's own account declined because a relatively large proportion of projects were in their early stages, amounting to SEK 46 M (188). The net change in the fair value of financial instruments amounted to SEK -36 M (-90). Other financial items totaled SEK -61 M (-130) and mainly consisted of currency rate differences.

3 Total effect on equity from actuarial gains and losses on pensions				
	650	549	1,223	464

The strengthening of the Swedish krona, especially against the USD, led to translation differences in equity. Skanska hedges about 30 percent of its equity in foreign subsidiaries against the Swedish krona. The net translation differences as of December 31, 2010 amounted to SEK -1,446 M (-316).

The effects of actuarial gains and losses on pensions totaled SEK 889 M (764). This positive effect was due to increased discount rates as well as a return on managed assets that exceeded actuarial assumptions. The increased discount rates were a consequence of a change in the benchmark rate for Skanska's Swedish pension liabilities as well as a general increase in yields on long-term bonds in the markets where Skanska has pension obligations.

## Parent Company

Net sales of the Parent Company during January-December were SEK 285 M (319). Operating income amounted to SEK -300 M (-208). Income after financial items totaled SEK 3,933 M (2,482).

### Summary income statement, Parent Company

SEK M	Jan-Dec 2010	Jan-Dec 2009	Oct-Dec 2010	Oct-Dec 2009

Polish zloty	2.39	2.46	2.27	2.63

## Personnel

The average number of employees in the Group was 51,645 (52,931).

## Essential risks and uncertainty factors

The construction business is largely about risk management. Practically every project is unique. Size, shape, environment – everything varies for each new assignment. The construction industry differs in this way from typical manufacturing that operates in permanent facilities with long production runs.

In Skanska's operations there are many types of contractual mechanisms. The degree of risks associated with prices of goods and services varies greatly, depending on the contract type. Sharp increases in prices of materials may pose a risk, especially in long projects with fixed-price commitments. Shortages of human resources as well as certain input goods may potentially have an adverse impact on operations. Delays in the design phase or changes in design are other circumstances that may adversely affect projects.

To ensure a systematic and uniform assessment of construction projects, Skanska uses a common model for identifying and managing risks throughout the Group. With the help of this model, Skanska evaluates construction projects continuously, from tender preparations to completion of the assignment, with regard to technical, legal and financial risks.

For further information about risks and a description of key estimates and judgments, see the Report of the Directors and Notes 2 and 6 in the Annual Report for 2009 as well as the above section on the market outlook.

## Other matters

### Repurchases of shares

At its meeting on May 6, the Board of Directors decided to exercise its authorization by the Annual Shareholders' Meeting to repurchase shares on the following conditions. On one or more occasions, however no later than the 2011 Annual Shareholders' Meeting, a maximum of 4,500,000 Series B shares in Skanska may be acquired for the purpose of securing delivery of shares to participants in the Skanska Employee Ownership Program. Acquisitions may only be made on the NASDAQ OMX Stockholm exchange at a price within the applicable range of prices at any given time, meaning the interval between the highest purchase price and lowest selling price. On December 31, Skanska held 8,253,247 Series B shares in its own custody.

## Events after the end of the year

### Conversion of shares

To ensure delivery of shares pursuant to Skanska's Share Award Plan related to the financial year 2007, 490,000 Series D shares were converted to Series B shares.

## Annual Meeting

The Annual Shareholders' Meeting will be held at 4:00 p.m. (CET) on April 5, 2011 at the Cirkus auditorium, Djurgården, Stockholm, Sweden. The invitation to the annual meeting will be published on March 4, 2011.

## Dividend

The Board of Directors proposes a regular dividend of SEK 5.75 (5.25) per share and an extra dividend of SEK 6.25 (1.00) per share for the financial year 2010. The extra dividend proposed by the Board of Directors is conditional upon Skanska's sale of its 50 percent stake in the company that owns the concession for the Autopista Central highway having been completed and the full sale price having been paid. The Board of Directors proposes April 8 as the record date for the regular dividend and proposes that The Board of Directors will be granted authorization by the Annual Shareholders' Meeting to set the record date for the conditional extra dividend. The proposal is equivalent to a regular dividend amount totaling SEK 2,364 M (2,167) and an extra dividend amount of SEK 2,570 M (413). No dividend is paid for the Parent Company's holding of its own Series B shares.

The total dividend amount may change by the record dates, depending on repurchases of shares and transfers of shares to participants in Skanska's long-term incentive programs.

## Financial reports during 2011

Skanska's interim reports as well as the Year-end Report are available for downloading on Skanska's website, [www.skanska.com/investors](http://www.skanska.com/investors), and can also be ordered from Skanska AB, Investor Relations.

The Group's reports during 2011 will be published on the following dates:

May 5, 2011	Three Month Report
July 21, 2011	Six Month Report
November 3, 2011	Nine Month Report

Solna, February 10, 2011

JOHAN KARLSTRÖM

President and CEO

*This Year-end Report has not been subjected to a review by the Company's auditors*
