PRESSRELEASE

Net Entertainment signs a deal with Betsafe

Net Entertainment signs a deal with Betsafe to deliver its award winning product CasinoModule™. Betsafe operates one of Scandinavia's fastest growing gaming portals (www.betsafe.com) with over 50 000 registered customers.

Betsafe will apply for a gaming license in Malta during 2007 and the goal is to launch the CasinoModule™ on betsafe.com before the end of the year. Andre Lavold, CEO of Betsafe says: "The fact that Net Entertainment has a license in Malta and that their product supports 21 languages means that we now have a casino product that aids our continued expansion in Europe."

Andre Lavold adds "Betsafe's motto is to always put customer focus first. We offer our players the best service and highly entertaining products. We found that Net Entertainment not only has the best and most entertaining games but also has a solution that is tested and approved by various external parties. This coincides entirely with our strategy to offer our customers a safe gaming experience."

Johan Öhman, CEO of Net Entertainment says "We continue to sign deals with influential operators, which I find very gratifying. The deal with Betsafe further confirms our position as one of the leading actors in online gaming."

Net Entertainment develops digitally distributed systems for Internet gaming. The core product, CasinoModule™, is a complete gaming platform that comprises a high number of browser based games as well as a powerful administration tool. Customers are offered a system solution that is adapted to each customer and is easily integrated with their existing websites. Net Entertainment licenses the CasinoModule™ on a royalty basis based on the revenues the product generates. Net Entertainment is listed on the Nordic Growth Market (NET-B). More information about Net Entertainment is available on www.netent.com.
