

IT Exchange Notice

IT 89/11

**IT – INET Prod – Multiple Enhancements May 23
Summary – REMINDER**

This IT-notice contains information on what enhancements and known issue corrections will be implemented in INET Prod Monday May 23. Note that there are also some earlier announced enhancements that will be postponed.

Enhancements for implementation

Items
New ETN segments
New Order Routing Strategies
Routing orders allowed for participation in auctions
Reloading GTC for routing orders

Pending

Item
Norwegian shares on First North Stockholm (subject to agreement with EMCF and regulatory approval received by EMCF).

Known Issues to be corrected

Date Reported	Known issues
Oct 15, 2010	In a rare scenario Iceberg orders with TIF-GTC will not be carried over to the next trading day. If the visible part of the Iceberg order fully execute in the closing auction, leaving all or a part of the non-displayed non-executed. That remaining volume will be rejected and not be carried over to the next trading day.
March 3, 2011	GoodTillCancelled-orders in halted securities are not reloaded into the system in the morning, therefore they cannot be cancelled. Order cancellation is possible first after the halted security has been released.

Earlier announced enhancements to be postponed

An updated schedule about these items will be communicated next week outlining when they will be available in OTF and Production.

Items
Routing strategy DIVE
Nordic@Mid on Norwegian shares
