

IT Notice 77/11

Genium INET – Long orders not loaded on May 30

Because of the back-end upgrade to version 2.0.0210, long orders either with time validity Good-Till-Date or Good-Till-Canceled/Good-Till-Expiration (including Current Max), will not be loaded on Monday May 30, 2011 in the Genium INET Production System.

Please note that this means that all long orders in the Derivatives Markets active on Friday May 27, 2011 must be re-entered manually by the members on Monday May 30 once continuous trading has started.

For further information on this IT notice, please contact Joakim Fernlund or Mikael Siewertz.
