**Exchange Notice****IT 126/11****IT – INET OTF – Low Latency FIX protocol specifications now available on member extranet**

As previously communicated in [IT-notice 108/11](#), Nasdaq OMX will introduce Low Latency FIX connectivity for order entry and associated drop copies later this year. The new Low Latency FIX connectivity will be offered in OTF from September 19, and will be available in Production from October 17. The transition to the Low Latency FIX ports must be completed by all members in June 2012.

Protocol specifications for Low Latency FIX are now available on Nasdaq OMX member extranet:
