Stock exchange price /net asset value	0,79	0,78	0,85

The key figures have been calculated according to the Danish Society of Financial Analysts' "Recommendations and Key figures 2010".

Management statement

The management and the board of directors have today presented and approved the interim report for the period 1 May - 31 July 2011.

The interim report, which has not been audited or reviewed by the company auditors, has been prepared in accordance with IAS 34 "Presentation of interim financial reports" as approved by EU as well as additional Danish disclosure requirements for listed companies.

In our opinion the interim report gives a true and fair view of the group's assets, liabilities and financial state as per 31 July 2011 as well as of the result of the group's activities and cash flows for the period 1 May – 31 July 2011.

Moreover, we find that the management report gives a true statement of the development of the group's activities and financial state, of the profit for the period and of the group's financial state as a whole, as well as a description of the major risks and elements of uncertainties the group is facing.

Management report

In the annual report for 2010/11 our expectations to 2011/12 read as follows:

"The financial crisis still has an impact on a number of our markets. Among our important markets, especially Denmark and England are affected by the crisis. The activity level within the building industry is still low in parts of Europe. However, the adjustments made during the last years as well as the continued focus on product development and strengthening of our sales organization form a good basis for the financial year ahead."

The activity level in the first quarter of 2011/12 has been as expected. The markets are still characterised by big uncertainty. The activity level is still low on the Danish and British contract markets, while especially Norway, Sweden and the Middle East are growing. The development in earnings is positive, well supported by rising exchange rates.

Turnover of the period amounted to 184 DKK million against 177 DKK million last year, which presents an increase of 4%. The export share is now 78% against 76% last year.

The group's overheads, amounting to 93.2 DKK million (other external costs, staff expenditure and depreciations) increased by 3% compared to last year. As per 31 July 2011 the average number of employees was 461 against 460 last year.

Profit for the period before taxation and minority holdings amounted to 15.0 DKK million against 9.6 DKK million last year. Last year's result was affected negatively by 3 DKK million due to revaluations and group internal profit on stocks in connection with the takeover of Bentzon Carpets ApS. Adjusted for this, the result before taxation increased by 19%.

Group cash flow from operations amounted to 4 DKK million against 18 DKK million last year. Increased funds tied up in working capital amounted to 17 DKK million in all. Rising prices of raw material have caused increased funds tied up in stocks. Consequently the value of stocks increased by 12 DKK million.

Investments in long-term assets in this period amounted to 7 DKK million. Investments during the second quarter is expected to be at the same level.

Prospects

Normally we operate with an order book corresponding to one week's production which makes it difficult to look months ahead. We have informed earlier that for the present accounting year we expect an increase in group turnover of 5-10% and a result before taxation of approx. 40 DKK million.

Based on the development of the first quarter of 2011/12, we maintain our expectations to the result for the whole financial year, viz. a result of approx. 40 DKK million. Increasing prices of raw materials will have a negative effect on the remaining part of the financial year. Expectations to the group turnover are still an increase of 5-10%. We want to stress, that it is still very difficult to predict how the market situation will develop from now on.

Focus will still be on a cost management, efficiency improvement and a high activity level within product development as well as continuing development of the sales organizations on our export markets.

Decisions and proposals made by the board of directors

The board of directors has decided not to repurchase own shares in the period until the next board meeting.

Accounting policies

The interim report is presented in accordance with IAS 34 "Interim financial reporting" as adopted by the EU and additional Danish disclosure requirements for interim reports of listed companies.

Other than as set out below, the accounting policies are unchanged from those applied in the Annual group Report 2010/11, to which refer is made. It holds a full description of the accounting policies in question.

With effect from 1 May 2011 egetæpper implemented IAS 24 "Related party disclosures" and "Improvements to IFRS May 2010".

The implementation has not affected recognition and measurements.

Notes without reference

The segmentation is prepared on the basis of the group's internal management reporting and is based on the individual market (operating segment). Consolidation to reportable segments is based on differences in sales channels.

The segment "Direct sale" includes sale achieved by egetæpper's Danish sales organisation as well as foreign subsidiaries and sales offices.

The segment "Indirect sale" is defined as sale via commercial agents or sale to importers/distributors abroad.

As segmental result we use the internal phrase "market contribution". This is defined as external revenue with deduction of direct wages and and material used for production as well as cost, which are directly referable to the individual markets.

Segmental information			Total
	Direct	Indirect	reportable
1 May 2011 - 31 July 2011	sale	sale	segments
External revenue	156.922	26.907	183.829
Market contribution	34.871	6.414	41.285
