Veloxis Pharmaceuticals A/S (VELO)

Based in Hørsholm, Denmark, with an office in New Jersey, Veloxis Pharmaceuticals A/S, or Veloxis, is a specialty pharmaceutical company. Clinical development is the core of Veloxis' efforts to develop a product portfolio which includes the Company's lead product candidate, LCP-Tacro™, for immunosuppression, specifically organ transplantation, and products to combat certain cardiovascular diseases. Veloxis adapts new technologies on a fast commercial timetable. Veloxis' unique, patented delivery technology, MeltDose®, can improve absorption and bioavailability - at low-scale up costs - not only for a broad spectrum of drugs already on the market but also for new chemical entities. Veloxis has a lipid lowering product, Fenoglide®, currently on the U.S. market and a diversified near and medium term pipeline with three clinical stage product candidates and a number of projects in preclinical development. Veloxis is listed on the NASDAQ OMX Copenhagen under the trading symbol OMX: VELO.
