¹ A real property hold for sale is the real property whose possession is taken by the Bank (as a result of takeover or acquisition) and which served as collateral for granted loans. The acquisition cost of this real property is measured at fair value. As a result of this transaction the amount received is channeled to settle customer's obligations to the Bank.

² The fair value of *spot* foreign exchange contracts which is disclosed for each contract as asset or liability. The notional value of these contracts reflects the value of basis asset underlying the agreement whose changes in fair value are estimated and the due and payable amounts of cash flow.

³ The funds, transferred from other correspondent accounts of the Bank, whose crediting has not been confirmed by the correspondent bank yet, are disclosed as money in transit.

⁴ Other assets include various claims on debtors in relation to operating activities of the Bank.

⁵ Assets of the disposal group classified as held for sale are investments in the subsidiary "Heckbert C7 Holdings (100% shares), which owns 100% of the company" Ferrous Kereskedelmi KFT (Hungary) shares, which in its turn, holds 25,085% of the Ukrainian gas company "Dewon" shares. In June 2011, the Bank signed an agreement on sale of this investment for the amount of USD 28,4 million. The proceeds from the sale have been transferred to the escrow account in Ukrainian hryvnas, however, given that the purchaser is based in Ukraine, it needs according to the local legislation to obtain a permit from the National Bank of Ukraine for purchasing the investment and to transfer the proceeds in USD. Given that as of date of preparation of these financial statements the deal has not been finalized yet and the sale has not been concluded outside of the Group, the Bank continues to recognize this investment in its balance sheet.
