## LUNDIN PETROLEUM SPUDS BERTAM-2 APPRAISAL WELL OFFSHORE MALAYSIA

**Lundin Petroleum AB (Lundin Petroleum) is pleased to announce that it recently spudded the Bertam-2 appraisal well in the PM307 Production Sharing Contract (PSC) area, offshore Peninsular Malaysia.**

Bertam-2 is planned to be drilled to a total depth of 1,888 metres by the jack-up rig "Offshore Courageous". The objectives of the well are to appraise and test the Oligocene lower coastal plain sandstones of the PM307 PSC area.

The Bertam field was discovered by the Bertam-1 well drilled in 1995. Bertam-1 discovered oil in the K10 sandstone reservoir and flowed 34°API oil at a rate of 624 barrels of oil per day on a short-term production test.

Bertam-2 is located to the northeast of the Bertam-1 discovery well in 76 metres water depth and aims to test the continuity and quality of the K10 oil reservoir and also explore the potential of deeper sands in an independent closure on the northern side of the structure.

The PM307 PSC is operated by Lundin Malaysia BV with 75 percent equity interest. Partner in PM307 is PETRONAS Carigali Sdn. Bhd. with 25 percent.

Bertam-2 is the fifth and final well in Lundin Petroleum's 2011 Malaysia exploration drilling campaign.

*Lundin Petroleum is a Swedish independent oil and gas exploration and production company with a well balanced portfolio of world-class assets primarily located in Europe and South East Asia. The Company is listed at the NASDAQ OMX, Stockholm (ticker "LUPE") and at the Toronto Stock Exchange (TSX) (Ticker "LUP"). Lundin Petroleum has proven and probable reserves of 187 million barrels of oil equivalent (MMboe).*

## **FORWARD-LOOKING STATEMENTS**

Certain statements made and information contained herein constitute "forward-looking information" (within the meaning of applicable Canadian securities legislation). Such statements and information (together, "forward-looking statements") relate to future events, including the Company's future performance, business prospects or opportunities. Forward-looking statements include, but are not limited to, statements with respect to estimates of reserves and or resources, future production levels, future capital expenditures and their allocation to exploration and development activities, future drilling and other exploration and development activities, ultimate recovery of reserves or resources are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management.

All statements other than statements of historical fact may be forward-looking statements. Statements concerning proven and probable reserves and resource estimates may also be deemed to constitute forward-looking statements and reflect conclusions that are based on certain assumptions that the reserves and resources can be economically exploited. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "seek", "anticipate", "plan", "continue", "estimate", "expect", "may", "will", "project", "predict", "potential", "targeting", "intend", "could", "might", "should", "believe" and similar expressions) are not statements of historical fact and may be "forward-looking statements". Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. No assurance can be given that these expectations and assumptions will prove to be correct and such forward-looking statements should not be unduly relied upon. These statements speak only as on the date of this news release and the Company does not intend, and does not assume any obligation, to update these forward-looking statements, except as required by applicable laws. These forward-looking statements involve risks and uncertainties relating to, among other things, operational risks (including exploration and development risks), productions costs, availability of drilling equipment and access, reliance on key personnel, reserve estimates, health, safety and environmental issues, legal risks and regulatory changes, competition, geopolitical risk, financial risks. These risks and uncertainties are described in more detail under the heading "Risk Factors" and elsewhere in the Company's 2010 annual report. Readers are cautioned that the foregoing list of risk factors should not be construed as exhaustive. Actual results may differ materially from those expressed or implied by such forward-looking statements. Forward-looking statements included in this new release are expressly qualified by this cautionary statement.

## **RESOURCES**

The recovery and production estimates of the Company's resources provided herein are only estimates and there is no guarantee that the estimated resources will be recovered or produced. Actual resources may be greater than or less than the estimates provided here. There is no certainty that it will be commercially viable for the Company to produce any portion of these resources.
