**Exchange notice****IT 11/12****IT – Genium INET Update**

*This IT Notice is aimed at all users of the Genium INET test platforms.*

*The member extranet [http://nordic.nasdaqomxtrader.com/memberextranet/genium\\_inet/](http://nordic.nasdaqomxtrader.com/memberextranet/genium_inet/) is always updated with the latest Genium INET related documentation.*

**Maintenance update:** There will be an additional maintenance window for Genium INET Ext1 environment this Friday 24<sup>th</sup> of February. This is in preparation of the go-live of the Commodities markets next week.

We will empty trades and positions as part of the maintenance.

After the upgrade in EXT1, all Genium INET users will be able to do their testing in a setup that corresponds to the March 5th setup, meaning that they can only see and trade financials products but Genium INET is configured with both financial and Commodities products.
