"Oriola-KD's net sales increased 11.5 per cent to EUR 590.8 million and operating profit was EUR 5.4 million in January-March 2012. Operating profit increased as a result of Pharmaceutical Trade Sweden's higher operating profit compared with the previous year and Pharmaceutical Trade Russia's lower operating loss compared with the previous year. The Swedish retail business profitability improved mainly due to the increased share of OTC, traded goods and parallel import sales and the efficiency program started during second half of 2011. Sales of Wholesale Russia outside Moscow increased by 85 per cent and the increase of hospital sales was strong. Strong sales growth combined with increased efficiency decreased operating loss of Wholesale Russia. We will systematically continue to work on our projects to boost efficiency in order to improve profitability in 2012."

The loan agreement includes financial covenants that are based on Oriola-KD's ratio of net debt to EBITDA and on the gearing ratio. The terms of the financial covenants were met with a wide margin at the end of March 2012.

Oriola-KD's new committed long-term revolving credit facility of EUR 100.0 million and EUR 42.6 million in short-term credit account facilities with banks were unused at the end of March 2012. #### Reporting segments

Oriola-KD's reporting segments are Pharmaceutical Trade Finland and Baltics, Pharmaceutical Trade Sweden and Pharmaceutical Trade Russia.

#### Pharmaceutical Trade Finland and Baltics

The net sales of Pharmaceutical Trade Finland and Baltics in January-March 2012 were EUR 116.8 million (EUR 102.5 million) and its operating profit was EUR 4.8 million (EUR 5.6 million). Invoicing of the pharmaceutical wholesale business in Finland in January-March 2012 came to EUR 256.2 million (EUR 240.5 million) and net sales to EUR 96.6 million (EUR 81.8 million). Net sales of pharmaceutical wholesale in the Baltic countries were EUR 8.8 million (EUR 9.3 million) and net sales of the consumer health business, i.e. consumer health products sold under Oriola-KD's own brands or exclusive sales rights, were EUR 11.5 million (EUR 11.5 million). First-quarter operating profit declined mainly as a result of personnel costs related to the start-up of pharmaceutical wholesale Finland's new picking automation line and the decrease in the net sales in the Baltics.

The Finnish pharmaceutical market grew 3.9 per cent in January-March 2012 (decreased 1.7 per cent). Oriola-KD's market share in the Finnish pharmaceutical wholesale market was 47.1 per cent (46.1 per cent) in January-March 2012. Oriola-KD signed a new distribution agreement with Abbott in Finland, which entered force 1.1.2012. Abbott's market share is about 3 per cent (source: IMS Health).

Pharmaceutical Trade Finland and Baltics had 503 (486) employees at the end of March 2012. During the first quarter a new picking automation line was started up at Oriola-KD's main distribution centre in Espoo. This is expected to improve the efficiency of logistics from the second quarter in 2012.

#### Pharmaceutical Trade Sweden

Pharmaceutical Trade Sweden's net sales in January-March 2012 were EUR 258.9 million (EUR 265.3 million) and its operating profit was EUR 3.4 million (EUR 2.3 million). Invoicing of the wholesale business in Sweden was EUR 338.5 million (EUR 371.5 million) and net sales were EUR 147.4 million (EUR 156.4 million). Net sales of the retail business in Sweden were EUR 124.8 million (EUR 123.6 million). First-quarter operating profit improved on the previous year as a result of good performance by the retail business.

The Swedish pharmaceutical market grew by 2.0 per cent in January-March 2012 (3.1 per cent). Oriola-KD's market share in the Swedish pharmaceutical wholesale market was 36.9 per cent (39.9 per cent) and in the retail market 13.5 per cent (approx. 14 per cent) in January-March 2012. (source: IMS Health)

In 2012 the retail business will focus on improving pharmacies' competitiveness, purchasing, expanding the selection of traded goods and OTC assortment and opening some 15 new pharmacies. Three (2) pharmacies were opened during the first quarter and at the end of March there were 212 (191) pharmacies in total. The rapid establishment of new pharmacies in Sweden over the years 2010 and 2011 has reduced pharmacies average sales and as a result Oriola-KD has further intensified its operations at pharmacies and reduced the costs of individual pharmacies. The share of Oriola-KD's total sales made up by traded goods and OTC assortment increased by about one percentage unit in January-March 2012 compared with the corresponding period in 2011 and this improved the first-quarter gross margin. The IT system taken in use in 2011 has performed well.

In the wholesale business, the focus areas are improving the distribution services provided to pharmaceutical companies and developing logistics services provided to pharmacy chains. The profitability of the wholesale business was weakened by a low invoicing figure in January-March 2012 which was a result of the increase in the share of parallel imports and generic medicines in the Swedish market. In addition to distribution services provided to pharmaceutical companies, Oriola-KD also sells logistics services to pharmacy chains in Sweden.

Pharmaceutical Trade Sweden had 1,232 (1,304) employees at the end of March 2012, 991 (1,022) of whom were employed in retail and 241 (282) in wholesale.

#### Pharmaceutical Trade Russia

Pharmaceutical Trade Russia's net sales in January-March 2012 were EUR 215.2 million (EUR 162.4 million) and operating loss was EUR 1.1 million (operating loss EUR 1.6 million). Net sales of the wholesale business in Russia were 184.5 million (EUR 139.5 million) and net sales of the retail business were EUR 37.3 million (EUR 33.3 million). The operating loss decreased as a result of a growth in sales and actions to boost efficiency.

The Russian ruble-denominated growth in the pharmaceutical market in Russia was 18.7 per cent in January–March 2012 (approx. 9%) (source: Pharmexpert). Oriola-KD's net sales increased 31 per cent (29 per cent) in Russian rubles in January-March 2012.

In the wholesale business, net sales of the regional distribution centres outside Moscow increased by some 85 per cent in January-March 2012, and in addition to this there was strong growth in sales of pharmaceutical to hospitals, which was launched during the second half of 2011. The efficiency of the distribution centres in Moscow and of regional distribution centres improved during the first quarter. The stock of the wholesale business declined by almost a third during the first quarter.

Unprofitable operations will continue to be cut during 2012, logistics operations will be intensified and operational reliability will be improved by developing internal operating processes. Projects have been started in Russia to implement a new warehouse management system at the start of 2013 and to investigate opportunities to establish a new automated main logistics centre in Moscow. The wholesale business has twelve regional logistics centres in addition to its main logistics centre in Moscow.

Retail business sales grew and the number of pharmacies decreased during the first quarter. At the end of March 2012, Oriola-KD had 243 (258) pharmacies in the Moscow area, of which 174 (185) operated under the Stary Lekar brand and 69 (73) under the 03 Apteka brand. Three pharmacies were opened and nine pharmacies were closed during January-March 2012. Traded goods sales and sales per pharmacy grew at Oriola-KD's pharmacies and the cost structure became more efficient. First-quarter profitability was weakened by the low gross margin in January-February and the costs arising from the closures of unprofitable pharmacies. In the retail business the focus in 2012 will be on developing the pharmacy portfolio, improving the competitiveness of individual pharmacies and strengthening the product assortment.

Pharmaceutical Trade Russia had 3,048 (3,131) employees at the end of March 2012, of whom 1,381 (1,582) were employed in retail and 1,666 (1,549) in wholesale.

# **Risks**

Oriola-KD's Board of Directors has approved the company's risk management policy in which the risk management operating model, principles, responsibilities and reporting are specified. The Group's risk management seeks to identify, measure and manage risks that may threaten Oriola-KD's operations and the achievement of goals set. The roles and responsibilities relating to risk management have been determined in the Group.

Oriola-KD's risks are classified as strategic, operational and financial. Risk management is a key element of the strategic process, operational planning and daily decision-making at Oriola-KD.

Oriola-KD has identified the following principal strategic and operational risks in its business:

- growth in the number of pharmacies outperforms growth in the market, leading to intense competition
- competition for market share in pharmaceutical wholesale in a consolidating market
- ensuring cost efficiency, flexibility and quality
- development of processes and infrastructure required by strategic expansion
- requirements and restrictions on pharmaceutical retail and wholesale imposed by the authorities, especially price control
- · commitment of key employees.

The major financial risks for Oriola-KD involve currency rate, liquidity, interest rate and credit risks. Currency risks are the most significant financial risks in Russia and Sweden, as any changes in the value of the Russian ruble or the Swedish krona will have an impact on Oriola-KD's financial performance and equity.

Goodwill and intangible rights are subject to impairment testing at least once every year. Changes in cash flow forecasts based on strategic plans, or in the discount rate or perpetuity growth rate, can cause a

goodwill write-off, which would weaken Oriola-KD's result. The impairment test of the goodwill of the Russian cash-generating unit, in particular, is sensitive to changes in the discount rate or cash-flow forecasts.

#### Near-term risks and uncertainty factors

Intense competition and the number of new pharmacies to be established will have an impact on the profitability of Oriola-KD's pharmacy business in Sweden and Russia. Changes in the exchange rate of the Russian ruble, a potential increase in credit risks concerning customers and changes in the competitive environment may have an impact on the profitability of the wholesale business in Russia.

# Events after the review period

Jukka Niemi, member of the Oriola-KD Group Management Team and Vice President, Pharmaceutical Wholesale, Finland and Baltics will resign from the Group and from his position as Managing Director of Oriola Oy on 1 May 2012.

#### Outlook

Oriola-KD's outlook for 2012 is based on external market forecasts, supplier and customer agreements and management assessments. In the period 2012-2016, the pharmaceutical market is expected to grow by 0.5 per cent in Finland, 1 per cent in Sweden, and 11.5 per cent in Russia, measured in local currencies (source: IMS Health 04/2012). Competition is expected to remain very tough in the Russian pharmaceutical retail and wholesale business and the Swedish pharmaceutical retail business.

Oriola-KD's outlook for 2012 is unchanged: Oriola-KD's net sales are expected to increase 10–15 per cent and operating profit excluding one-off items is expected to come to EUR 23–33 million in 2012.

#### **Tables**
