Alfa Laval wins SEK 60 million cleantech order from a distillery in Russia

Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won an order to supply a complete Dried Distillers Grains with Solubles (DDGS) process line to one of the biggest distilleries in Russia. The order value is approximately SEK 60 million and delivery is scheduled for 2013.

Alfa Laval will provide various pieces of equipment such as decanters, evaporators and fluid handling products to one of the biggest Russian distilleries, located in Tatarstan, a region along Central Volga. The process line will convert the distillery waste stream into animal feed by-product.

“It is truly a ‘clean technology’ order that stems from new legislation, as the solution we provide actually turns waste into a valuable by-product”, says Lars Renström, President and CEO of the Alfa Laval Group. “The order also confirms our strong position as supplier of high quality solutions in Russia.”

Did you know that ... since March 2010 there is a federal law in Russia to prevent pollution from distilleries, making it mandatory for alcohol producers to treat the stillage?

About Alfa Laval

Alfa Laval is a leading global provider of specialized products and engineering solutions based on its key technologies of heat transfer, separation and fluid handling.

The company's equipment, systems and services are dedicated to assisting customers in optimizing the performance of their processes. The solutions help them to heat, cool, separate and transport products in industries that produce food and beverages, chemicals and petrochemicals, pharmaceuticals, starch, sugar and ethanol.

Alfa Laval's products are also used in power plants, aboard ships, in the mechanical engineering industry, in the mining industry and for wastewater treatment, as well as for comfort climate and refrigeration applications.

Alfa Laval's worldwide organization works closely with customers in nearly 100 countries to help them stay ahead in the global arena.

Alfa Laval is listed on the Nordic Exchange, Nordic Large Cap, and, in 2011, posted annual sales of about SEK 28.6 billion (approx. 3.2 billion Euros). The company has 16 000 employees.
