Alfa Laval wins SEK 70 million power order from the Middle East

Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has received an order for crude oil treatment at Rabigh gas turbine power plant in Saudi Arabia. The order value is about SEK 70 million and delivery is scheduled for 2009.

“During the last month we have won two large power orders from Asia which confirms that energy related customers continue to invest,” says Lars Renström, President and CEO of the Alfa Laval Group.

This is Alfa Laval’s second order for the Rabigh Power plant this year, and includes separators and plate heat exchangers for cleaning of crude oil and oily water. The latest stage of Rabigh expansion project consists of 12 gas turbines generating an extra 720 MWe of capacity to the installed capacity of 2,700 MWe.

Did you know that over the next two decades, Saudi Arabia’s electric generation capacity is set to more than double – to 60 gigawatts (GWe) - roughly equivalent to the current capacity of South Korea. Moreover, almost all of Saudi Arabia’s power generation is based on Natural Gas and Crude (or distilled) Oil. Alfa Laval is the biggest supplier of liquid fuel cleaning equipment to the power industry in Saudi Arabia.

About Alfa Laval

Alfa Laval is a leading global provider of specialized products and engineering solutions based on its key technologies of heat transfer, separation and fluid handling.

The company's equipment, systems and services are dedicated to assisting customers in optimizing the performance of their processes. The solutions help them to heat, cool, separate and transport products in industries that produce food and beverages, chemicals and petrochemicals, pharmaceuticals, starch, sugar and ethanol.

Alfa Laval's products are also used in power plants, aboard ships, in the mechanical engineering industry, in the mining industry and for wastewater treatment, as well as for comfort climate and refrigeration applications.

Alfa Laval's worldwide organization works closely with customers in nearly 100 countries to help them stay ahead in the global arena.

Alfa Laval is listed on the Nordic Exchange, Nordic Large Cap, and, in 2007, posted annual sales of about SEK 25 billion (approx. 2.7 billion euros). The company has some 12,000 employees.
