

## Nederman receives order worth 10 MSEK from Mostostal Warszawa SA

**Nederman will supply Mostostal Warszawa SA Poland with a solution for dust extraction and filtration for mineral coal handling.**

The Nederman solution ensures a good working environment during the coal handling process at six new production lines. The new lines are part of a second phase of the investment plan to build the coal transfer point in the mine. Nederman was also the supplier during the first phase in 2010.

“The order from Mostostal Warszawa shows the strength of our presence and position in Poland. We are honoured that Mostostal Warszawa and their investor Lubelski Węgiel Bogdanka are giving us this confidence”, says Sven Kristensson, CEO Nederman.

Mostostal Warszawa SA is one of the largest construction companies in Poland. It acts as a general contractor of investment projects and provides turnkey execution of construction assignments for local and foreign investors. Mostostal Warszawa SA is the Polish unit of ACCIONA, the Spanish business corporation active in development and management of infrastructure, renewable energy, water and services. The Company has over 30,000 employees in over 30 countries.

Lubelski Węgiel Bogdanka S.A. is one of the leading manufacturers in the hard coal market in Poland. Their customers are mainly active within production of electric and thermal energy as well as cement production.

The filter equipment will be produced at the Nederman plant in Marki, Poland and the technical department from the Polish sales company will be responsible for installation and project management. Installation and commissioning will be completed in two stages in Q4 2012 and Q1 2013.
