

Net Insight receives expansion order from GlobeCast

14 November, 2008

Stockholm, Sweden – GlobeCast France has placed an expansion order with Net Insight for its Nimbra based media transport network.

With the new order GlobeCast significantly expands one of its main sites in France with more Nimbra equipment to meet requirements of a growing customer base, use of HD and higher traffic volumes.

GlobeCast, owned by France Telecom is a leading global provider of content management and worldwide transmission services for professional broadcast delivery. The company operates a secure global satellite and fibre network to manage and transport 10 million hours of video and other rich media each year. The global fibre network is based on Net Insight's Nimbra platform.

"GlobeCast is running a demanding multiservice network and we are proud that our Nimbra platform was selected to facilitate GlobeCast's new services and continuously increasing traffic volumes", says Fredrik Trägårdh, CEO of Net Insight.

The Nimbra equipment will be delivered during the fourth quarter 2008.
