Aarsleff lands Poland's biggest pile contract so far

Aarsleff's Polish subsidiary has made a contract for the execution of the pile foundation for the new Polish national stadium in Warsaw. The stadium will be built in advance of the 2012 European Football Championship where Poland and Ukraine will be the host nations.

The contract consists of installation of a total of 8,000 reinforced concrete piles which will be produced in Aarsleff's own pile factory in Poland.

The DKK 95 million contract is the biggest piling contract in Poland so far.

The earnings impact of the contract will be included in the total earnings expectations for 2008/2009 which will be informed in the preliminary announcement of the financial statements for 2007/2008.
