

Lapland Goldminers environmental permit, for the Fäboliden gold project, has gained legal force.

Lapland Goldminers environmental permit, for the Fäboliden mine, process plant and tailing facility, has now gained legal force. This means, since no additional appeal has been submitted, that the permit for Fäboliden cannot be further contested.

The permit approved by the Environmental court was, with minor changes, approved by the Supreme Environmental Court of Appeals,

Lapland Goldminers has previously published a feasibility study for the Fäboliden Gold Project which can be found at: www.laplandgoldminers.com

Lapland Goldminers AB is an exploration company and a producing mining company. The company is listed on the market place "First North" under the name GOLD, with Mangold Fondkommission AB as the Certified Adviser, as well as on the Norwegian OTC list. Lapland Goldminers has secured a number of gold deposits along the so-called Guldlinjen ("The Gold Line") in Västerbotten. The Company's strategy is to develop a profitable, producing gold company, with centrally located processing plants in Fäboliden and Blaiken, Sweden, and in the Haveri area in southern Finland and Pahtavaara in Northern Finland, supported by ore from one or several mines either through the Company's own exploration or alternatively through acquisitions. Lapland Goldminers is a member of SveMin, the trade association for mines, minerals and metal producers in Sweden (formerly called the Swedish Mining Association) and follows SveMin's reporting rules for public mining and exploration companies.
