Item 2.02 Results of Operations and Financial Condition

On October 21, 2008, Century Aluminum Company (the "Company") issued an earnings release announcing its results of operations for the quarter ended September 30, 2008. A copy of the Company's earnings release is attached as Exhibit 99.1 and is incorporated herein by reference.

The Company will hold a follow-up conference call on Tuesday, October 21, 2008, at 5:00 p.m. Eastern Time. The earnings call will be webcast live on the Company's website, located at www.centuryaluminum.com. Anyone interested in listening to the live webcast should plan to begin the registration process for the webcast at least 10 minutes before the live call is scheduled to begin. A replay of the webcast will be archived and available for replay approximately two hours following the live call.

The press release attached as Exhibit 99.1 hereto contains "forward-looking statements" within the meaning of U.S. federal securities laws, including statements regarding the Company's proposed greenfield smelter to be constructed near Helguvik, Iceland. The Company has based its forward-looking statements on current expectations and projections about the future, however, these statements are subject to risks, uncertainties and assumptions, including the risk that the Company will not be able to complete its planned Helguvik project which is subject to various conditions and risks that may affect the Company's ability to complete the project. Any of these risks and uncertainties could cause the Company's actual results to differ materially from those expressed in its forward-looking statements. More information about the Company's risks, uncertainties and assumptions can be found in the risk factors and forward-looking statements cautionary language contained in the Company's Annual Report on Form 10-K, its Quarterly Reports on Form 10-Q and in other filings made with the Securities and Exchange Commission. The Company does not undertake, and specifically disclaims, any obligation to revise any forward-looking statements to reflect the occurrence of anticipated or unanticipated events or circumstances after the date such forward-looking statements are made.

Item 9.01. Financial Statements and Exhibits

(d) Exhibits

The following exhibit is being furnished with this report pursuant to Item 2.02:

<u>Exhibit Number</u>	<u>Description</u>
99.1	Press Release, dated October 21, 2008, announcing the Company's results of operations for the quarter ended September 30, 2008.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Date: October 21, 2008

Century Aluminum Reports Third Quarter 2008 Earnings

MONTEREY, CA. October 21, 2008 — Century Aluminum Company (NASDAQ:CENX) reported net income of \$37.0 million (\$0.59 per basic and \$0.57 per diluted common share) for the third quarter of 2008. The reported earnings per share data reflect, as prescribed by GAAP, net income allocable to common shareholders without effect for the July 2008 issuance of preferred shares. These results were negatively impacted by a net after-tax charge of \$50.4 million for mark-to-market adjustments on forward contracts that do not qualify for cash flow hedge accounting. Quarterly results were positively impacted by a \$3.3 million tax benefit related to the release of tax reserves no longer required. For a full reconciliation of earnings per share allocable to common and preferred shareholders, see the attached Exhibit A.

In the third quarter of 2007, the company reported net income of \$7.5 million (\$0.18 per basic and \$0.17 per diluted common share), which included an after-tax charge of \$46.2 million for mark-to-market adjustments on forward contracts that do not qualify for cash flow hedge accounting.

Recent highlights included:

- Operating performance was strong at all primary aluminum facilities.
- Direct and toll shipments of primary aluminum totaled a record 203,618 tonnes, up nearly three percent from the previous quarter.
- Construction continues at the company's greenfield smelter project at Helguvik, Iceland. The company is closely monitoring and evaluating the project in light of the disruptions in global financial markets.
- In early July, Century settled all of its remaining fixed price aluminum financial sales contracts. The company made the final payment under the deferred settlement amount on October 1.

Sales in the third quarter of 2008 were \$552.2 million, compared with \$454.4 million in the third quarter of 2007. Shipments of primary aluminum for the quarter totaled 203,618 tonnes compared with 195,540 tonnes in the year-ago quarter, reflecting the impact of the Grundartangi expansion to 260,000 tonnes, which was completed in the fourth quarter of 2007.

For the first nine months of 2008, the company reported a net loss of \$198.2 million (\$4.57 per basic and diluted common share). The reported earnings per share data reflect, as prescribed by GAAP, net loss allocable to common shareholders without effect for the July 2008 issuance of preferred shares. These results were negatively impacted by a net after-tax charge of \$466.2 million for mark-to-market adjustments on forward contracts that do not qualify for cash flow hedge accounting. Results for the nine month period were positively impacted by net tax benefits of \$15.9 million for various non-recurring items. For a full reconciliation of earnings per share allocable to common and preferred shareholders, see the attached Exhibit A.

Net income for the first nine months of 2007 was \$11.1 million (\$0.31 per basic and \$0.29 per diluted common share), which included an after-tax charge of \$172.1 million for mark-to-market adjustments on forward contracts that do not qualify for cash flow hedge accounting.

Sales in the first nine months of 2008 were \$1,568.6 million compared with \$1,366.0 million in the same period of 2007. Shipments of primary aluminum for the first nine months of 2008 were 601,511 tonnes compared with 568,812 tonnes for the comparable 2007 period.

"We had a busy and productive quarter," commented Logan W. Kruger, President and Chief Executive Officer. "Our operations continue to turn in sound performance, with our plants in Iceland and in the U.S. shipping well above their rated capacities. We made good progress on the new, fifteen-year, market-based power contract for our Hawesville smelter; this process is in its final stages. The team leading the construction at Helguvik has maintained the project on time and on budget.

Mr. Kruger continued, "We are carefully managing the business in this environment of unprecedented dislocations in the global financial markets. We have suspended discretionary spending. The operations at our Grundartangi smelter, which is a primarily dollar based business with little exposure to economic conditions in Iceland, are performing normally. We have stabilized Nordural's cash management activities, and continue to believe our cash held in Iceland is secure. The performance of our team in Iceland has been exemplary; the quality of our team is one of the many reasons we believe Iceland will continue to be an attractive business environment over the long-term.

"We are assessing the status of the Helguvik project across multiple fronts," concluded Mr. Kruger. "We continue to be confident that the smelter will be world class in terms of construction cost, productivity, conversion cost and environmental performance. In addition, the economic activity the project will create will be beneficial to Iceland during these volatile times. In the current environment, we have ceased making any new capital commitments and are reducing project spending. We believe the potential exists for a prudent way forward over time, but will soberly evaluate the feasibility of all elements of the project during the near term."

Century Aluminum Company owns primary aluminum capacity in the United States and Iceland, as well as an interest in alumina and bauxite assets in the United States and Jamaica. Century's corporate offices are located in Monterey, California.

The Company's management believes the presentation of adjusted net income and associated adjusted earnings per share data are useful measures that help investors evaluate the Company's earnings per share based on total common stock, common stock equivalents and preferred shares outstanding during the period. The Company's calculation of adjusted net income and associated adjusted earnings per share may not be comparable to similarly titled measures reported by other companies due to differences in the components used in the calculation. Adjusted net income and associated adjusted earnings per share should not be considered as a substitute for net income and earnings per share as determined in accordance with GAAP.
