

INTERIM REPORT JANUARY–SEPTEMBER 2008

In Q3 2008, Tele2's EBITDA¹⁾ increased by 28 percent to SEK 2,248 million. Mobile EBITDA¹⁾ increased by 18 percent to SEK 1,750 million.

THIRD QUARTER HIGHLIGHTS

- › Net sales¹⁾ in Q3 2008 amounted to SEK 9,891 (9,509) million, an increase of 4 percent.
- › EBITDA¹⁾ in Q3 2008 increased by 28 percent to SEK 2,248 (1,750) million.
- › EBIT¹⁾ in Q3 2008 increased by 62 percent to SEK 1,394 (863) million excluding one-off items of SEK –950 (–1,319) million mainly related to impairment losses. Including one-off items EBIT amounted to SEK 444 (–456) million.
- › Net profit/loss²⁾ in Q3 2008 amounted to SEK 160 (–188) million.
- › Earnings per share²⁾ in Q3 2008, after dilution, amounted to SEK 0.32 (–0.37).

NINE MONTH HIGHLIGHTS

- › Net sales²⁾ for 9M 2008 amounted to SEK 29,192 (30,457) million, a decrease of 4 percent.
- › Net profit/loss²⁾ for 9M 2008 amounted to SEK 1,022 (–243) million.
- › Earnings per share²⁾ for 9M 2008 amounted to SEK 2,24 (–0.32).
- › Tele2's net debt at September 30, 2008 amounted to SEK 5,224 (11,167) million, a decrease of 53 percent.

The figures presented correspond to Q3 2008 unless otherwise stated. The figures shown in parentheses correspond to the comparable periods in 2007.

¹⁾ Less divested operations (see Note 9)

²⁾ From continuing operations (see Note 10)

THE PHASE OF TRANSFORMATION

” Going forward, we will focus even more on growth in mobile, mobile internet and corporate services”

Welcome to my first interim report as CEO and President of Tele2. For me, it has been a very exciting start with Tele2.

The last months, I have been working closely with my management team on how to successfully move forward. Tele2's longer term strategy will remain the same, but we will speed up the execution.

Tele2 is now about to exit the phase of realignment, and to enter a new phase of transformation. This implies that our product portfolio will transform to fit the future demands of our customers. People will go for mobility everywhere – and they want it to be fast and immediate.

Customers only pay for value. By investing more in coverage, capacity and quality, we will offer our customers great products, yet still at the best price. Mobile services first, and if it makes commercial sense, complement them by fixed broadband and telephony.

Tele2 has a strong financial position, and we are looking to invest in our existing core businesses. Going forward, we will focus even more on growth in mobile, mobile internet and corporate services. We should not forget our roots, where Tele2 has been successful as a challenger in mobile and green field operations.

MOBILE

The Mobile operations of Tele2 continue to perform strongly in a highly competitive market. The core markets of Russia, Sweden, Croatia and the Baltic all showed solid customer intake. Tele2 Russia continued to maintain its EBITDA margin of 36 percent, despite an initiated roll-out in 18 new regions including Krasnodar. The Baltic region was negatively affected by the poor economic environment. However, the operations managed to maintain an EBITDA margin at 33 percent. The Croatian operation made further inroad in the consumer segment adding 74,000 new mobile users. The Swedish mobile operations had a robust quarter, adding 127,000 new customers in Q3 2008.

FIXED BROADBAND

The Fixed Broadband operations showed promising improvement in Q3 2008 and our goal to focus less on market share and more on operational result has paid off. The quarter, once again, showed a healthy pick-up in operational performance and showed for the first time a positive EBITDA result at group level. However, we still have a long way to go before fixed broadband services meet our set hurdles. Revenue continued to develop according to plan and grew by 10 percent compared to the same period last year.

FIXED TELEPHONY

Fixed Telephony operations continued to deliver strong results and profitability. The EBITDA margin was 28 percent and capital expenditures were kept to a minimum in the quarter. Going forward, we will continue to do more of the same – maximize cashflow of a mature asset.

*Harri Koponen
President and CEO, Tele2 AB*

FINANCIAL OVERVIEW

Tele2's financial performance is a function of a continued focus on mobile services on own infrastructure complemented in some countries by fixed broadband services. Mobile sales continued to develop strongly, compared with the same period last year. A smaller scale and scope of the total operations and a greater focus on mobile services on own infrastructure have led to a continued expansion of the EBITDA margin. The decline in fixed line services is expected to continue. However, the company will focus on maximizing the return from the product line.

FINANCIAL OVERVIEW, LESS DIVESTED OPERATIONS

Net customer intake amounted to 495,000 (539,000) in Q3 2008. Mobile services continue the positive trend with good customer intake in Russia, Sweden, Croatia and the Baltic region. Mobile Internet (also known as Mobile Broadband) continued to see solid intake of customers, adding 21,000. Fixed telephony continued to see an outflow of customers. However, the rate of change slowed significantly in the quarter and Tele2 lost –195,000 (–324,000) users. In Q3 2008, the total customer base increased to 23,967,000 (22,491,000).

Net sales in Q3 2008 amounted to SEK 9,891 (9,509) million, an increase of 4 percent. The positive revenue development was mainly driven by robust trends in core mobile services but also to some extent by fixed broadband services.

EBITDA in Q3 2008 amounted to SEK 2,248 (1,750) million, equivalent to an EBITDA margin of 23 (18) percent. The EBITDA development was influenced by an improved revenue mix, with a larger contribution from mobile services on own infrastructure. Sweden and Russia showed the greatest absolute sequential performance in Q3 2008. Tele2 also continued to succeed in maximizing profits from its mature fixed telephony operations, which contributed to the overall operational development.

EBIT in Q3 2008 increased by 62 percent to SEK 1,394 (863) million excluding one-off items of SEK –950 (–1,319) million mainly related to impairment losses predominately from the Austrian operation. Including one-off items EBIT amounted to SEK 444 (–456) million.

FINANCIAL OVERVIEW, CONTINUING OPERATIONS¹⁾

Profit/loss before tax amounted to SEK 133 (375) million.

Net profit/loss amounted to SEK 160 (–188) million.

Cash flow after CAPEX²⁾ amounted to SEK 1,664 (635) million.

CAPEX amounted to SEK 941 (915) million.

Net debt²⁾ amounted to SEK 5,224 (11,167) million at September 30, 2008, or 0.83 times full year 2007 EBITDA. Tele2's available credit facility amounts to SEK 20,866 million.

¹⁾ Less discontinued operations (see Note 10)

²⁾ Including discontinued operations

FINANCIAL OVERVIEW CONT.

FINANCIAL COMMENTS

Tele2's longer term financial leverage, defined as net debt/EBITDA ratio, should be in line with the industry and the markets in which it operates and reflect the status of its operations and future strategic opportunities. Short term the company also needs to take into consideration the uncertainties in the financial markets and act accordingly. Hence, Tele2 will not in the near future utilize the current share buy-back mandate. The company will instead maintain a strong financial position.

Toward the end of 2007, Tele2 Russia was awarded mobile telephony licenses for GSM in 17 new regions in Russia. In total, Tele2 now has licenses in 34 regions covering 60 million inhabitants. However, it should still be emphasized that the process for awarding the new licenses has been challenged in court. Due to a more aggressive roll-out, the following new assumptions should be taken into consideration when estimating the financial impact of the 17 new licenses:

- In 2008 operational expenditures are estimated at SEK 40–60 million and capital expenditures are estimated at SEK 100–300 million.
- In 2009 operational expenditures are estimated at SEK 300–500 million and capital expenditures are estimated at SEK 900–1,100 million.
- Up to 12 out of 17 regions will be launched in 2009. The base plan is that an infrastructure-based operation should be able to reach an EBITDA break-even three years after commercial launch date. However, there might be regional differences, moving the break-even date either forward or backwards.
- The longer term market share in the 17 new regions should not deviate significantly from the historic market share of Tele2 Russia.

The following additional points should also be considered when estimating 2008:

- In 2008 Tele2 forecast a corporate tax rate of approximately 15 percent excluding one-off items. The tax payment will affect 2008 cash flow by approximately SEK 500 million.
- In 2008 Tele2 forecast a CAPEX level in the range of SEK 4,500–4,800 million compared to earlier stated SEK 4,800–5,000 million, including SEK 549 million attributable to the payment for 20 MHz of 4G/LTE (Long Term Evolution) 2.6 GHz spectrum in Sweden.

The figures exclude one-off items except for figures presented for continuing operations

¹⁾ Less divested operations (see Note 9) and less one-off items (see Note 1–4)

²⁾ Net sales for Q3 2008 and FY 2007 include negative one-off items of SEK –58 million and SEK –200 million, respectively

³⁾ EBIT includes result from sale of operations, impairment of goodwill and other one-off items stated under the segment reporting section of EBIT in the interim report January–September 2008

⁴⁾ Includes discontinued operations (see Note 10)

Significant events in the quarter

- ▶ Tele2's new CEO Harri Koponen started the 18 August, 2008.
- ▶ Tele2 divested Tele2 Switzerland to TDC Sunrise for approximately SEK 300 million on a debt free basis (see Note 10).
- ▶ Tele2 issued and repurchased 850,000 Class C shares under incentive program (see Note 8).
- ▶ Tele2 repurchased 1 percent of all shares in Tele2 for a cost of SEK 462 million (see Note 8).
- ▶ Tele2 completed the divestment of Tele2 Luxembourg and Tele2 Lichtenstein to Belgacom (see Note 10).
- ▶ Tele2 completed the divestment of Tele2 Poland to Netia (see Note 10)
- ▶ Tele2 reports impairment loss in Austria and Switzerland (see Note 2)

OVERVIEW BY PRODUCT

Comments below relate to selected Tele2 operations less divested companies.

MOBILE

Tele2 currently offers mobile services in nine countries. In most of these Tele2 sells mobile telephony to both consumers and companies. Tele2 has its own network in six countries. In the other countries Tele2 leases network capacity from other operators under MVNO agreements.

Mobile operations of Tele2 are the main driver for the continued strong growth development. Net intake amounted to 682,000 (845,000), driven mainly by Russia, Sweden and Croatia but also by the Baltic Region. Mobile revenue grew by 12 percent to SEK 6,288 (5,623) million and the EBITDA margin amounted to 28 (26) percent.

Sweden The customer growth in Q3 2008 was driven both by strong intake of mobile telephony customers with an emphasis on pre-paid users, as well as by mobile internet, adding in total 127,000 (100,000) customers. The total customer base amounted to 3,330,000 (3,007,000). The total mobile internet customer base was 155,000 in Q3 2008 and ARPU was SEK 108, to some extent boosted by revenue from start-up and administrative fees. Despite a negative EBITDA contribution of more than SEK –220 million from mobile internet, the Swedish mobile operation was able to deliver an EBITDA margin of 36 (37) percent in Q3 2008.

Tele2 continues to expect a strong demand for mobile internet services, both in the consumer as well business segment. The company introduced several new differentiated mobile internet offerings in the quarter, to spur further interest from the domestic market. However, the high level of competition in mobile internet services is expected to continue. The increased intake of mobile internet customers will be associated with higher acquisition costs as well as higher fees to the Svenska UMTS Nät AB joint venture (SUNAB), which will continue to impact margins.

The mobile operations in Sweden reported an ARPU of SEK 201 (212) in Q3 2008, including post-paid, pre-paid and mobile internet subscriptions. Minutes of use per customer for the Swedish operations were 202 (194) in Q3 2008.

Norway The quarter was characterized by increased focus on securing and strengthening the price position of Tele2 in the Norwegian market and also improve antichurn campaigns. As an effect the customer base stabilized and Tele2 added 4,000 customers in Q3 2008 compared to –4,000 in Q2 2008. Competition continued to be high in the quarter, a development that is expected to persist.

The EBITDA margin continued at stable levels. EBIT was negatively affected by Tele2's share of the result from the operations of Mobile Norway of SEK -20 million in Q3 2008.

Tele2 continued its dialogue with the Norwegian authorities regarding mobile termination prices as the notice from NPT could affect the plan for the build-out in Mobile Norway.

12%

**MOBILE REVENUE
GROWTH IN Q3 2008**

We offer mobile services in Croatia, Estonia, France, Latvia, Lithuania, Netherlands, Norway, Russia and Sweden.

Russia The EBITDA margin improved to 36 (33) percent during the quarter, mainly driven by further scale benefits in the 16 operational regions. During the quarter, Tele2 continued to invest in the Krasnodar region together with preparatory work to start roll-out in the 17 new regions, which were awarded in Q4 2007 (the process for awarding the new licenses has been challenged in court). As a result, the EBITDA margin was to some extent hampered by the 18 new regions to be launched.

Competition continued to be tough in Russia, but Tele2 has been able to further improve its market position due to better network quality and continued price leadership. ARPU amounted to SEK 60 (58) driven by improved quality of service together with robust economic development. Customer net intake amounted to 449,000 (631,000) in Q3 2008. Tele2 Russia will continue to look for possibilities to expand its operations in Russia and CIS-countries through new licenses as well as by complementary acquisitions.

Estonia The economic environment in the country continued to be challenging in the quarter. As an effect, the market for telecommunication services continues to be price sensitive. Tele2, as the price leader, has been exploiting the current market conditions and moved its market position forward, both in the corporate as well as the consumer segment. The trend of customers moving from pre-paid to post-paid subscriptions has continued in the quarter. The mobile internet market is showing positive signs of taking off, but was to some extent hampered by the economic development.

Churn was stable during the quarter and Tele2 continued its effort to expand its network and improve quality of service. Mobile interconnect rate was lowered an additional 18 percent from EEK 1.66 to EEK 1.37 in Q3 2008.

Lithuania Tele2 accelerated its inroad into the post-paid and corporate segment, adding 49,000 (43,000) customers in Q3 2008. Acquisition cost increased slightly during the quarter due to more market activities from competitors. A higher level of competition also led to lower tariffs as a result of promotional pricing offerings. Tele2 customer churn remained stable through effective retention activities and high customer satisfaction.

OVERVIEW BY PRODUCT cont.

MOBILE cont.

Latvia The economic situation in Latvia continued to be difficult, affecting the activity in the mobile segment. Competition continued to be high in the quarter with lower prices both in the pre-paid as well as post-paid segment. As a result, marketing costs and churn increased during the period leading to lower EBITDA margin compared to the same period last year. Tele2 Latvia continues to see a good opportunity in the corporate segment as well as among the state-owned companies. This opportunity has been enhanced due to a slower economy, making business customers more price sensitive.

Croatia The operations in Croatia continued to develop according to plan, adding 74,000 (49,000) customers in Q3 2008, partly driven by summer tourists. Price competition remained high during the quarter, however, Tele2 benefited from its price leading position. The new shop concept introduced in Q2 2008 continued to contribute to the overall customer intake and has helped to improve the market perception of the Tele2 brand.

Netherlands Tele2's mobile operation in the Netherlands continued to develop satisfactory for both revenue as well as EBITDA in the quarter, with an increased focus on moving the customer base from the pre-paid segment towards higher ARPU post-paid subscriptions. As a result Tele2 was able to retain good financial performance in the mobile segment, despite a slight decline in the customer base.

France Tele2 continued to be profitable in Q3 with a stable customer base at 462,000. The pricing environment for post-paid services in the French mobile market was stable in Q3 2008. However, acquisition cost started to increase in the quarter with back to school activities in September, affecting EBITDA contribution negatively. Going forward, Tele2 will continue to focus on profitability by strengthening its price leader position, improving its retention management and pushing lower cost products. Sales channels will be monitored closely in order to invest in the most profitable ones. Tele2 will continue to proactively work with the national regulator to get full MVNO legislation introduced in France.

OVERVIEW BY PRODUCT cont.

FIXED BROADBAND

Tele2 currently offers fixed broadband solutions to consumers and companies in six countries. Tele2 operate its own or jointly-owned network in five countries and is a reseller of network capacity in one country. Fixed broadband services are, in some countries, seen as a good complement to Tele2's core mobile services on own infrastructure.

The total fixed broadband customer base grew by 8,000 (58,000) users and amounted to 1,276,000 (1,139,000). Revenue increased by 10 percent to SEK 1,501 (1,363) million. EBITDA improved to SEK 78 (-92) million, due to a larger focus on cost control and less emphasis on market share. In 2008 it is important that profitability in fixed broadband services continue to improve and contribute to the operations as a whole.

Sweden The fixed broadband market continued to develop more slowly in the quarter, and the product segment was to some extent affected by promotional offerings in the mobile internet market. In total, Tele2 Sweden added 12,000 (20,000) customers in the quarter and net sales grew by 10 percent. Tele2 continued to focus on improved profitability in fixed broadband service. In Q3 2008 EBITDA margin was for the first time in positive territory, to some extent helped by seasonality, and amounted to 2 (-7) percent in Q3 2008.

Norway Tele2 Norway continued to focus on migrating customers onto its own infrastructure. Competition from fiber-based services and cable TV operators was still high during the quarter, driving churn rate up in the wholesale base. As an effect, the customer base decreased by -6,000 (2,000) in Q3 2008. Hence, Tele2 Norway will focus its future marketing efforts where Tele2 owns infrastructure on Local Loop Unbundling (LLUB). The ARPU development was stable in the quarter. Tele2 will continue to focus on cost control and improved customer care as main areas for its broadband operations.

Netherlands Tele2 continued to gain market share in the fixed broadband market driven by more differentiated offerings for double and triple play services in Q3 2008. New value added services helped increase ARPU. Acquisition cost and churn remained stable due to effective retention campaigns. Tele2's business division added another strong quarter, mainly due to implementation of large corporate contracts and increased sales efforts of its on-net services.

10%

**FIXED BROADBAND REVENUE
GROWTH IN Q3 2008**

We offer fixed broadband services in Austria, Germany, Lithuania, Netherlands, Norway and Sweden.

Germany The fixed broadband market continued to be highly competitive in Q3 2008. However, market saturation started to become visible in the quarter with many operators lowering their intake targets. Market consolidation has not yet had a significant impact on the competitive environment. However, the price environment during the quarter continued to be relatively stable, with most operators maintaining existing offerings together with some promotional offers. In the quarter the market was more focused on direct access products rather than resold services.

Tele2 Germany continued with a reactive customer acquisition strategy. Together with better cost control at the Plusnet JV, this led to an improvement in operational losses in fixed broadband services. Churn rate continues to develop according to plan, with higher levels of customer turnover in the wholesale compared to the direct access base.

Austria Competition from bundled offerings together with aggressive pricing on mobile internet services continued to pressure Tele2's operations in Q3 2008. As a response, Tele2 focused on improving the overall cost structure of its operations with emphasis on network and customer operations, which lead to improving EBITDA in the quarter. The process of streamlining the Austrian operations will continue in Q4 2008. In the corporate segment, Tele2 added new customers despite increased competition from the incumbent. Revenues and churn levels for direct access developed according to plan. Tele2 expects further price pressure, in the corporate segment, due to large differences against the consumer segment. Competition is also expected to increase in the consumer segment due to a new aggressive bundled fixed broadband and telephony offering from the incumbent.

Due to deteriorating market conditions in fixed broadband, Tele2 booked an impairment loss of SEK 829 million in Q3 2008 related to the acquisition of SEC and UTA.

OVERVIEW BY PRODUCT cont.

FIXED TELEPHONY

Tele2 currently offers fixed telephony services in eight countries. Use of the traditional fixed telephone line declined in pace with growth in mobile and IP telephony. During the quarter, Tele2 focused on minimizing the need for investments and use of marketing to maintain the cash flow generation of the service.

In Q3 2008, churn in the fixed line customer base improved leading to a net loss of –195,000 (–324,000) users. Revenue declined by 18 percent to SEK 1,631 (1,998) million. However, due to better customer retention EBITDA contribution was SEK 452 (294) million in Q3 2008, corresponding to a margin of 28 (15) percent.

Sweden The EBITDA margin was stable during the quarter and amounted to 20 (18) percent. Tele2 focused in the quarter on improving cost control in the fixed telephony segment, to maximize the return. The company also continued with retention measures such as providing wholesale line rental service.

Norway Tele2's Norwegian operation continued to experience a decline in the fixed line market, in line with the overall market conditions for fixed. Tele2 Norway continued to experience a volume shift from fixed to mobile services. This led to reduced operating conditions, which had a negative effect on EBITDA contribution.

Netherlands The CPS (Carrier Pre-Select) customer base in the Netherlands developed according to expectations. Continued intake of WLR (Wholesale Line Rental) and effective retention programs slowed down the decline of the customer base even further, while improving profitability. The EBITDA contribution from the fixed telephony base was delivered above plan in Q3 2008.

28%

**FIXED TELEPHONY
EBITDA MARGIN IN Q3 2008**

We offer fixed telephony in Austria, Estonia, Germany, Latvia, Lithuania, Netherlands, Norway and Sweden.

Germany The pricing environment in the fixed telephony market remained stable in Q3 2008, with few marketing initiatives from the competition. The majority of the operators were, during the quarter, more focused on unbundled broadband services, leading to relatively less competition and once again better profitability. Tele2's market share for CPS (Carrier Pre-Select) services remained stable at 40 percent in Q3 2008. As for fixed broadband services, no active marketing initiatives were used in the quarter for Tele2's fixed telephony segment. Instead the company continued to focus solely on retention and potential reactive cross selling opportunities. As a result, the EBITDA margin for fixed telephony improved to 41 (14) percent in Q3 2008.

The overall customer turnover in fixed telephony improved during the quarter to some extent helped by flat fee products with binding periods, more effective retention and customer base management as well as higher call by call usage.

Austria Fixed telephony continued to be promoted as part of bundled offerings together with fixed broadband. In the consumer market competition from mobile remained high, leading to high fixed to mobile substitution. However, in the business market fixed telephony services had stable development. Overall, both fixed telephony customers and revenues developed better than planned during Q3 2008.

OTHER ITEMS

RISKS AND UNCERTAINTY FACTORS

Tele2's operations are affected by a number of external factors. The risk factors considered to be most significant to Tele2's future development are operating risks such as changes in regulatory legislation in telecommunication services, increased competition, introduction of new services, ability to attract and retain customers, legal proceedings and financial risks such as currency risk, interest risk, liquidity risk and credit risk. In addition to the risks described in Tele2's annual report (see Directors' report and Note 40 of the report for a detailed description of Tele2's risk exposure and risk management), no additional significant risks are estimated to have developed.

COMPANY DISCLOSURE

Tele2 AB (publ) Annual General Meeting 2009

The 2009 Annual General Meeting will be held on May 11, 2009 in Stockholm.

Shareholders wishing to have a matter considered at the Annual General Meeting should submit their proposals in writing to agm@tele2.com or to the Company Secretary, Tele2 AB (publ), P.O. Box 62, SE-164 94 Kista, Sweden, at least seven weeks before the Annual General Meeting in order that the proposal may be included in the notice to the meeting.

Further details on how and when to register will be published in advance of the Annual General Meeting.

Nomination committee for the 2009 Annual General Meeting

A Nomination Committee of major shareholders in Tele2 AB (publ) has been formed in accordance with the resolution of the 2008 Annual General Meeting. The Nomination Committee is comprised of Cristina Stenbeck on behalf of Investment AB Kinnevik and Emesco AB, Åsa Nisell on behalf of Swedbank Robur Fonder, Peter Lindell on behalf of AMF Pension and Ramsey Brufer on behalf of Alecta, who together represent more than 50 percent of the voting rights in Tele2. Information about the work of the Nomination Committee can be found on Tele2's corporate website at www.tele2.com.

Shareholders wishing to propose candidates for election to the Board of Directors of Tele2 AB (publ) should submit their proposal in writing to agm@tele2.com or to the Company Secretary, Tele2 AB (publ), P.O. Box 62, SE 164 94, Kista, Sweden.

Other

Tele2 will release the financial and operating results for the period ending December 31, 2008 on February 10, 2009.

Stockholm, October 22, 2008

Tele2 AB

Harri Koponen
President & CEO

REPORT REVIEW

The financial and operating results for this interim report have not been subject to review by the Company's auditors.

Result Meeting

Tele2 will present the results at a meeting at Hitechbuilding 17th floor, Sveavägen 9, Stockholm, at 10:00 am CET (09:00 am UK time/04:00 am NY time) on Wednesday, October 22, 2008. The meeting will be held in English and webcasted on Tele2's website, www.tele2.com, with the possibility to enter questions online.

Conference Call

There will also be the possibility to listen to the meeting live over the phone and attend the Q&A session via a conference call. Please note that there might be a time lag of up to 30 seconds between the Internet broadcast and the conference call if you are simultaneously watching and calling in to the press conference.

Dial-in information:

To ensure that you are connected to the conference call, please dial in a few minutes before the start of the press conference to register your attendance.

Notes

TELE2 IS ONE OF EUROPE'S LEADING ALTERNATIVE TELECOM OPERATORS. Tele2's mission is to provide price leading and easy to use communication services. Tele2 always strives to offer the market's best prices. We have 24 million customers in 11 countries. Tele2 offers mobile services, fixed broadband and telephony, data network services, cable TV and content services. Ever since Jan Stenbeck founded the company in 1993, it has been a tough challenger to the former government monopolies and other established providers. Tele2 has been listed on the OMX Nordic Exchange since 1996. In 2007, we had net sales of SEK 40.1 billion and reported an operating profit (EBITDA) of SEK 6.3 billion.

NOTES

ACCOUNTING PRINCIPLES AND DEFINITIONS

For the Group, the interim report has been prepared in accordance with IAS 34 and the Swedish Annual Accounts Act, and for the parent company in accordance with the Swedish Annual Accounts Act.

As a result of the changed strategic focus and divestment of a number of operations in 2007, Tele2 has in Q1 2008 chosen to change the reporting of the primary segment from market area level to country level. This change corresponds with the internal reporting to the Board and management. Segment Other mainly includes the parent company Tele2 AB, operations in the UK, Datamatrix, Radio Components and Procure IT Right.

Tele2 has in Q1 2008 chosen to change the definition of the following business areas (previous periods have been adjusted retrospectively). The Fixed telephony business area includes resold products within fixed telephony. The product portfolio within resold fixed telephony consists of prefix telephony, pre-selection (dial the number without a prefix) and subscription. The Fixed broadband business area includes direct access & LLUB, i.e. our own services based on access via copper cable, and other forms of access, such as cable TV networks, DNS networks, wireless broadband and metropolitan area networks. Fixed broadband also includes resold broadband while mobile broadband is included in business area Mobile. The product portfolio within direct access & LLUB includes telephony services (including IP telephony), internet access services (including Tele2's own ADSL) and TV services.

Divestment of the total operations in a country will be reported as discontinued operations according to IFRS 5, from January 1, 2008. This is an effect of the transition from reporting at market area level to country level. Divestments up to 2007, which have not previously been reported as discontinued operations, do not amount to a material part of the respective market area and are reported as divested companies in a separate line within continuing operations.

Tele2 has, in all other respects, presented its interim report in accordance with the accounting principles and calculation methods used in the 2007 Annual Report. Definitions are found in the 2007 Annual Report.

NOTE 1 Net sales

In Q3 2008, net sales in Tele2 Sweden were reduced by SEK 58 million due to a revaluation regarding Tele2's claim on TeliaSonera concerning a number of disputes. The amount is reported as a one-off item and concerns the interconnect disputes between the years 2000–2004. In Q4 2007, net sales in Tele2 Sweden were reduced by SEK 200 million concerning these disputes and were reported as a one-off item. In Q1 2008, the Supreme Administrative Court decided to refuse appeal in one of the disputes hence from a cash flow view Tele2 has paid SEK 533 million to TeliaSonera in Q2 2008. Decision by the district court in the case of Tele2's claims on TeliaSonera is expected in 2009.

Net sales were negatively impacted in Q1 2008 by SEK 61 million in the Austrian fixed broadband operations due to revaluation of reserves.

NOTE 2 Operating expenses

In Q3 2008 Tele2 Netherlands was positively affected by SEK 63 million concerning a settlement with Versatel AG/APAX mainly related to the valuation of stock options for tax purposes. The amount is reported as a one-off item. In Q4 2007 the costs for the Netherlands were increased by SEK 124 million following The Supreme Court in The Hague ruled negatively on Tele2 Netherlands Holding N.V.'s (formerly Versatel) appeal regarding the dispute with the tax authorities about the valuation of the stock options for tax purposes. The amount was reported as one-off items.

Tele2 Germany's EBITDA for fixed telephony was in Q1 2008 negatively affected by SEK 52 million of costs related to a lost court case against Deutsche Post.

In Q4 2007 EBITDA was effected negatively by SEK 34 million, attributable to the fixed telephony and fixed broadband operation in Austria, due to revaluation of reserves.

DEPRECIATION/AMORTIZATION AND IMPAIRMENT

In Q3 2008 Tele2 recognized goodwill impairment losses of SEK 783 (1,310) million, related to operations stated below, impairment loss of SEK 46 million related to customer agreements in Austria and SEK 114 (284) million attributable to impairment loss of central IT-systems in Sweden.

Due to the existing severe competitive market situation for broadband in Germany, in Q2 2008 Tele2 performed an impairment test that resulted in reported impairment losses in the quarter related to goodwill SEK 183 million and in investment in joint venture Plusnet of SEK 555 million.

SEK million	Q3 2008	Q2 2008	Full year 2007	Q3 2007
Austria	783	–	291	290
Germany	1	183	572	570
Netherlands	–	–	176	175
Total impairment of goodwill	784	183	1,039	1,035
Divested operations				
Belgium	–	–	276	275
Total impairment of goodwill	784	183	1,315	1,310

The impairment loss of goodwill, SEK 783 million, and customer agreements, SEK 46 million, in Austria is related to increased and severe competition from mobile broadband providers for internet access services in Austria.

The impairment loss of IT-systems in Sweden, SEK 114 million, is related to the expectation that utilization of common billing systems will be lower than planned, included reduced expectations on customer stock in Austria, and due to the sale of the operations in Poland.

NOTE 3 Sale of operations, profit

Tele2 has reported the following capital gains from the divestment of operations.

SEK million	Q3 2008	Q1 2008	Q4 2007	Q3 2007

NOTE 5 Contingent liabilities

SEK million	2008 Sep 30	2007 Dec 31
Guarantee related to joint ventures		
– Svenska UMTS-nät, Sweden	1,928	1,838
– Plusnet, Germany	–	47
– Mobile Norway, Norway	28	28
Other commitments	1	1
Total contingent liabilities	1,957	1,914

In Q2 2008, the guarantee for the benefit of Plusnet has been replaced by a deposit in a restricted bank account of SEK 98 million. Additional contractual commitments and liabilities related to the joint venture Plusnet and Mobile Norway are stated in Note 35 in the Annual Report for 2007.

NOTE 6 Other operating income and other operating expenses

Service contracts and sales of capacity to sold operations are included in other operating income and in other operating expenses as set out below.

SEK million	Q3 2008	Q2 2008	Q1 2008	Full year 2007
In other operating income	77	82	101	50
In other operating expense	–74	–70	–80	–44
Net service contracts and sales of capacity, sold operations	3	12	21	6

NOTE 7 Taxes

In Q3 2008 net taxes has been positively affected by SEK 102 million as a result of valuation of deferred tax assets related to continued improved earnings in Russia.

In Q2 2007, a one-off adjustment of deferred tax assets was reported affecting the income statement by SEK –228 million, of which SEK –193 million was related to reduced income tax rate in Germany. In Q3 2007, in connection with the impairment of goodwill according to Note 2, an additional write-down of tax assets for Tele2 Germany was reported, affecting the income statement by SEK –599 million.

NOTE 8 Shares and convertibles

In Q3 2008 Tele2 has repurchased own shares of Series B of 4,500,000, corresponding to 1 percent of all shares in Tele2, for a cost of SEK 462 million. The Board of Directors will propose to cancel the repurchased shares at the next Annual General Meeting.

In order to ensure delivery of shares under the incentive program 2008–2011 Tele2 has, in Q3 2008, issued 850,000 Class C shares through a directed placement at a subscription price corresponding to a quota value of SEK1.25 per share, a total of SEK 1 million. The Class C shares are not entitled to dividends and represent one vote each. Tele2 has immediately after the issue repurchased all Class C shares at a price corresponding to the subscription price.

Tele2 has, in Q2 2008, paid a dividend of SEK 7.85 per share, corresponding to a total of SEK 3,492 million, of which ordinary dividend SEK 1,401 million and extraordinary dividend SEK 2,091 million.

Continuing Note 8

INCENTIVE PROGRAM 2008–2011

The Annual General Meeting on May 14, 2008, approved an incentive programme for allocation to senior executives and other key employees in the Tele2 Group.

The incentive program (“the Plan”) includes a total of approximately 80 senior executives and other key employees within the Tele2 Group. The participants in the Plan are required to own shares in Tele2. These shares can either be shares already held or shares purchased on the market in connection with notification to participate in the Plan. Thereafter the participants have been granted, free of charge, retention rights and performance rights on the terms stipulated below.

For each share held under the Plan, the participants will be granted retention rights and performance rights by the company. Subject to fulfilment of certain retention and performance based conditions during the period April 1, 2008–March 31, 2011 (the “Measure Period”), the participant maintaining the employment within the Tele2 Group at the date of the release of the interim report January – March 2011 and subject to the participant maintaining the invested shares, each retention right and performance right entitles the employee to receive one Class B share in the company. Dividends paid on the underlying share will increase the number of retention and performance shares being allotted in order to treat the shareholders and the participants equally. The participant’s maximum profit per right in the Plan is limited to SEK 540, five times the average closing share price of the Tele2 Class B shares during March 2008 (SEK 108).

The Board of Directors was authorized during the period until the next Annual General Meeting, to increase the company’s share capital by not more than SEK 1,062,500 by the issue of not more than 850,000 Class C shares, each with a ratio value of SEK 1.25. The new issue was performed during Q3 2008. With disapplication of the shareholders’ preferential rights, Nordea Bank AB (publ) have subscribed for the new Class C shares at a subscription price corresponding to the ratio value of the shares. The purpose of the authorisation and the reason for the disapplication of the shareholders’ preferential rights in connection with the issue of shares was to ensure delivery of Class B shares to participants under the Plan. Moreover, it was resolved to authorise the Board of Directors, during the period until the next Annual General Meeting, to repurchase the new Class C shares. The repurchase may only be effected through a public offer directed to all holders of Class C shares and shall comprise all outstanding Class C shares. The purchase may be affected at a purchase price corresponding to not less than SEK 1.25 and not more than SEK 1.35. Payment for the Class C shares shall be made in cash. Tele2 has in Q3 2008 repurchased all Class C shares. The purpose of the repurchase is to ensure the delivery of Class B shares under the Plan. Further, it was resolved that Class C shares that the Company purchases by virtue of the authorisation to repurchase its own shares, following reclassification into Class B shares, may be transferred to participants in accordance with the terms of the Plan.

In total, the Plan is estimated to comprise up to 164,000 shares and entitling up to 752,000 rights whereof 164,000 retention rights and 588,000 performance rights. The participants are divided into different Groups and in accordance with the above, the Plan comprise, at allocation date, a total number of 80,100 shares and the following number of rights for the different Groups: a) 8,000 shares and 7 rights per invested share for the CEO, b) 20,000 shares and 6 rights per invested share for other senior executives (5 persons) and c) 52,100 shares and 4 rights per invested share for other participants (31 persons). Allocation to key employees in Russia has not yet been done. Allocation is expected to be done in Q4 2008 and will be a maximum of 367,600 rights.

	May 30, 2008– Sep 30, 2008,
Number of rights	
Allocated May 30, 2008	384,400
Forfeited	–8,000
Total outstanding rights	376,400

Total costs before tax for outstanding rights in the incentive program are expensed as they arise over a three-year period, and these costs are expected to amount to SEK 33 million, of which SEK 9 million has been expensed in 2008.

The estimated average fair value of the granted rights was SEK 109.30 on the grant date, May 30, 2008. The calculation of the fair values has been carried out by external analysts. The following variables have been used where Serie A is based on total shareholder return (TSR), Serie B is based on the company’s average normalised return on capital employed (ROCE) and Serie C is based on total shareholder return (TSR) compared to a peer Group.

	Serie A	Serie B	Serie C
Weighted average share price	128.60	128.60	128.60
Expected life	2.91 years	2.91 years	2.91 years
Annual turnover of personnel	7.0%	7.0%	7.0%
Expected value reduction parameter market condition	90%	–	65%
Expected value reduction parameter fulfilment	–	50%	–

INCENTIVE PROGRAM 2007–2012

	Jan 1, 2008– Sep 30, 2008	Aug 2007– Sep 30, 2008
Number of options		
Allocated August 2007		3,552,000
Outstanding as of January 1, 2008	3,489,000	
Forfeited	–570,000	–633,000
Total outstanding stock options	2,919,000	2,919,000

During Q3 2008 the incentive program for 2007 has been supplemented with a possibility to receive a bonus, as a compensation for the extra ordinary dividend paid during 2008. Total costs before tax for outstanding stock options in the incentive program are expensed as they arise over a three-year period, and these costs are expected to amount to SEK 51 million, of which SEK 6 million was expensed in 2007 and SEK 16 million in 2008.

Continuing Note 8

INCENTIVE PROGRAM 2006–2011

Number of options	Stock options		Warrants	
	Jan 1, 2008– Sep 30, 2008	Feb 2006– Sep 30, 2008	Jan 1, 2008– Sep 30, 2008	Feb 2006– Sep 30, 2008
Allocated February 2006		1,504,000		752,000
Outstanding as of January 1, 2008	1,164,000		717,000	
Forfeited	-230,000	-570,000	-80,000	-115,000
Total outstanding	934,000	934,000	637,000	637,000

During Q3 2008 the incentive program for 2007 has been supplemented with a possibility to receive a bonus, as a compensation for the extra ordinary dividend paid during 2008. Total costs before tax for outstanding stock options and warrants in the incentive program are expensed as they arise over a three-year period, and these costs are expected to amount to SEK 26 million, of which SEK 7 million was expensed in 2006, SEK 8 million in 2007 and SEK 8 million in 2008.

NOTE 9 Business acquisitions and divestments

Acquisitions and divestments of shares and participations affecting cash flow are the following:

TOTAL CASH FLOW EFFECT	1,491

ACQUISITIONS

Netherlands

During the first nine month of 2008 Tele2 increased its shares in Tele2 Netherlands (formerly Versatel) by an additional 0.78 percent and is now holding 99.6 percent of the shares. The purchase price amounted to SEK 60 million. An additional SEK 332 million was paid during the first quarter 2008 as settlement for shares purchased in 2007.

Adigeja, Russia

On February 22, 2008 Tele2 acquired all shares in Adigeja Cellular Communications with an 1800 MHz GSM-license in the Russian region Adigeja for SEK 13 million. Adigeja is a small enclave inside Krasnodar.

Other acquisitions

In July, 2008 Tele2 acquired the remaining 49 percent in Tele2 Retail Latvia for SEK 2 million.

DIVESTMENTS

Luxembourg/Liechtenstein

On June 26, 2008 Tele2 announced the sale of its operations in Luxembourg/Liechtenstein. The sale was completed on August 5, 2008 after receiving approval from the regulatory authorities. The divested operation has been reported as discontinued operations; please refer to Note 10 for additional information.

Poland

On June 30, 2008 Tele2 announced the sale of its operations in Poland. The sale was completed on September 15, 2008 after receiving approval from the regulatory authorities. The divested operation has been reported as discontinued operations; please refer to Note 10 for additional information.

Managest Media

On August 2008 Tele2 divested the shares in the associated company Managest Media for SEK 22 million.

MVNO operations in Austria

On October 8, 2007 Tele2 announced its divestment of the mobile operation in Tele2 Austria. The sale was completed on March 31, 2008 after receiving approval from the regulatory authorities. The sales price was SEK 20 million which affected the cash flow in Q2 2008. The operation has affected Tele2's net sales year-to-date by SEK 19 (57) million, EBITDA by SEK -6 (-44) million and net profit/loss by SEK -7 (-52) million in addition to a capital gain of SEK 39 million.

Since the divested operation above, was not a significant part of Tele2's result and financial position, separate reporting in the income statement according to IFRS 5, has not been made.

Continuing Note 9

Other

Other cash flow changes in shares and participations include settlements of sales costs and price adjustments in the amount of SEK –158 million, for divestments during 2007. For additional information on divested operations during 2007 please refer to the Q4 2007 Interim Report.

Net assets at the time of divestment

Assets, liabilities and contingent liabilities included in the divested operations at the time of divestment are stated below.

SEK million	Luxembourg/ Liechtenstein	Poland	Austria MVNO	Total

Ongoing divestments

On September 29, 2008 Tele2 announced the sale of its operations in Switzerland. Completion is expected following approval from the relevant regulatory authorities. The divested operation has been reported as discontinued operations; please refer to Note 10 for additional information.

PRO FORMA

The table below shows the effect of the acquired and divested companies and operations at September 30, 2008 on Tele2's net sales and result, had they been acquired or divested at January 1, 2008.

SEK million	Jan 1–Sep 30, 2008		
	Tele2 Group ¹	Excluding acquired and divested operations	Tele2 Group, pro forma
Net sales	29,192	–28	29,164
EBITDA	6,007	8	6,015
Net profit/loss	1,022	–59	963

¹ less Tele2 Switzerland, Poland and Luxembourg/Liechtenstein since these are reported as discontinued operations.

NOTE 10 Discontinued operations and assets classified as held for sale

SWITZERLAND

On September 29, 2008 Tele2 announced the sale of its operations in Switzerland for approximately SEK 300 million on a debt and cash free basis. Completion is expected following approval from the relevant regulatory authorities.

In Q3 2008 Tele2 recognized goodwill impairment loss of SEK 434 million, related to Tele2 Switzerland. An agreement to sell the operation in Switzerland was signed in Q3 2008 and the impairment reflects the difference between sales price and assets sold.

The divestment has been reported separately as discontinued operations in the income statement, with a retrospective effect on previous periods, and in the balance sheet from September 30, 2008 according to IFRS 5-*Non-current assets held for sale and discontinued operations*.

POLAND

On June 30, 2008 Tele2 announced the sale of its operations in Poland for SEK 371 million. The sale was completed on September 15, 2008 after approval from the regulatory authorities.

An impairment of goodwill regarding the operations in Poland has been reported during Q2 2008 amounting to SEK 263 million. The impairment reflects the difference between sales price and assets sold. During Q3 2008, a capital loss of SEK 63 million has been reported as discontinued operations, whereof a loss of SEK 45 million is related to a reversal of exchange rate differences previously reported directly in equity.

The divestment has been reported separately as discontinued operations in the income statement, with a retrospective effect on previous periods, and in the balance sheet from June 30, 2008 according to IFRS 5-*Non-current assets held for sale and discontinued operations*.

Continuing Note 10

LUXEMBOURG/LIECHTENSTEIN

On June 26, 2008 Tele2 announced the sale of its operations in Luxembourg/Liechtenstein for SEK 1,962 million. The sale was completed on August 5, 2008 after approval from the regulatory authorities.

During Q3 2008, a capital gain of SEK 1,116 million has been reported as discontinued operations, whereof a gain of SEK 98 million is related to a reversal of exchange rate differences previously reported directly in equity.

The divestment has been reported separately as discontinued operations in the income statement, with a retrospective effect on previous periods, and in the balance sheet from June 30, 2008 according to IFRS 5-*Non-current assets held for sale and discontinued operations*.

FRANCE, ITALY AND SPAIN

The discontinued operations during 2007 comprised the fixed and broadband business in France as well as Tele2's operations in Italy and Spain.

NOTE 11 Transactions with related parties

Apart from transactions with Transcom no other significant related party transactions have been carried out during 2008. Related parties are presented in Note 42 of the 2007 Annual Report.

NOTE 12 Number of customers

As a way of standardizing reporting both internally and externally, Tele2 decided in 2007 to change its principles for calculating the number of inactive customers in its Nordic mobile prepaid base. As of Q2 2007, Tele2 considers a customer inactive if the customer has not used its mobile service in 6 months, instead of earlier 13 months. However, the customer will still be able to use their SIM card within the 13 months period, as before. In Q2 2007, the one-time effect was a decrease of 664,000 in the reported customer base in Sweden, Norway a decrease of 2,000 customers and Denmark a decrease of 93,000 customers.

NOTE 13 CAPEX

In Q2 2008 Tele2 Sweden was awarded 4G/LTE (Long Term Evolution) 2.6 GHz spectrum. The payment for the license affected CAPEX by SEK 549 million in the second quarter.
