***Q-Med AB** is a rapidly growing and profitable biotechnology/medical device company. The company develops, manufactures, markets, and sells primarily medical implants. The majority of the products are based on the company's patented technology, **NASHA™**, for the production of stabilized non-animal hyaluronic acid. The product portfolio today contains: **Restylane®** for filling lines and folds, contouring and creating volume in the face, **Macrolane™** for body contouring, **Durolane™** for the treatment of osteoarthritis of the hip and knee joints, **Deflux®** for the treatment of vesicoureteral reflux, VUR, (a malformation of the urinary bladder) in children, and **Solesta™** for the treatment of fecal incontinence. Sales are made through the company's own subsidiaries or distributors in over 70 countries. Q-Med today has just over 700 coworkers, with close to 500 at the company's head office and production facility in Uppsala, Sweden. Q-Med AB is listed in the Mid Cap segment of the OMX Nordic Exchange in Stockholm.*
