Notes to the consolidated interim financial statements
for the six month period ended 30 June 2008
(LTL '000 unless otherwise stated)

1. Reporting entity

AB Alita was established in 1963 and was reregistered as a state enterprise in 1990. In 1995 AB Alita was re-organised to a joint stock company.

Registered address of AB Alita is Miškininkų 17, Alytus, Lithuania.

On 6 January 2004 an agreement on sale of the AB Alita shares was signed between the State Property Fund and UAB Invinus. AB Invinus acquired controlling 83.77 per cent shareholding of the Company.

On 10 November 2004 extraordinary shareholders' meeting of AB Invinus and on 11 November 2004 extraordinary shareholders' meeting of AB Alita took place during which a decision to merge AB Invinus to AB Alita and approve the reorganisation terms was made. AB Alita share capital decreased as a result of the reorganisation.

	Nominal value (LTL)	Percent
Private share capital	50.827.209	100,0

The nominal value of one share is LTL 1. All shares are authorised, issued and fully paid registered ordinary shares. Alitas's shares are listed in the current list of the Vilnius Stock Exchange.

On 8 July 2004 a sales agreement of controlling shareholding comprising 72.93 percent of AB Anykščių Vynas was signed between the State Property Fund and AB Alita. 35,793,407 ordinary registered shares of AB Anykščių Vynas were acquired for 25,610 thousand Litas. During the same year AB Alita additionally acquired 11,607,163 ordinary registered shares. At present AB Alita hold 46,577,570 ordinary registered shares, comprising 94,90 per cent, with a nominal value of 1 Litas each .

On 12 April 2007, according the final protocol, AB Alita obtained 100 ordinary registered shares of the wholesale company UAB Daivalda with a nominal value of 100 Litas each. UAB Daivalda holds 100 % shares of UAB Vilkmergės Alus.

On 27 April 2007, according the AB Alita Board protocol, the name of UAB Daivalda was changed to UAB Alita Distribution.

The financial statements of AB Alita and AB Anykščių Vynas (hereinafter „the Group") are consolidated from 1 July 2004. The financial statements of the Group consolidate AB Alita, AB Anykščių Vynas, UAB Alita Distribution and UAB Vilkmergės alus financial statements from 1 April 2007.

The Group produces and distributes alcohol beverages, including sparkling wines, alcohol mixes, cider, beer, wines, hard liqueurs, as well as concentrated fruit juice.

Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), as adopted by the European Union.

Basis of preparation

The financial statements are presented in Litas, being the functional currency of the Group and prepared on the historical cost basis, except for the property plant and equipment, which are presented at deemed cost.

The preparation of the financial statements in conformity with IFRSs, as adopted by the European Union, requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

2. Summary of significant accounting policies

Basis of consolidation

Subsidiaries are entities controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable or convertible are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Intragroup balances and any unrealised gains and losses or income and expenses arising from intragroup transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with associates and jointly controlled entities are eliminated to the extent of the Group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Associates

Associates are those entities in which the Group has significant influence, but not control, over the financial and operating policies. The consolidated financial statements include the Group's share of the total recognised gains and loses of associates on an equity accounted basis, from the date that significant influence commences until the date that significantinfluence ceases. When the Group's share of losses exceeds its interest in an associate, the Group's carrying amount is reduced to nil and recognition of further losses is discontinued exept to the extent that the Group has incurred legal or constructive obligations or made payments on behalt of associate.

Foreign currency transactions

Transactions in foreign currencies are translated at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to the functional currency at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the income statement.

Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.
Certain items of property, plant and equipment that have been indexed in accordance with Lithuanian legislation prior to 1 January 2004, the date of transition to IFRSs, are measured on the basis of deemed cost, being the indexed amount at the date of the indexation less indexed accumulated depreciation and impairment losses.
The cost of self-constructed assets includes the cost of materials, direct labor and an appropriate proportion of production overheads.
Where parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

Subsequent costs

The Group recognizes in the carrying amount of an item of property, plant and equipment the cost of replacing part of such an item or major overhaul when that cost is incurred if it is probable that the future economic benefits embodied with the item will flow to the Group and the cost of the item can be measured reliably. All other costs are recognized in the income statement as an expense as incurred.

2. Significant accounting policies (cont'd)

Depreciation

	Years
Buildings	8-84
Machinery and equipment	2-50
Motor vehicles, furniture and fixtures	4-25
IT equipment	4-5

The useful lives are reviewed periodically to ensure that the period of depreciation is consistent with the expected pattern of economic benefits from items of property, plant and equipment.

Intangible assets

Intangible assets, comprising computer software and other licenses that are acquired by the Group, are stated at cost less accumulated amortisation and impairment.

Amortisation is charged to the income statement on a straight-line basis. The Group's intangible assets are amortized over 1-3 years.

Inventories

Inventories, including work in process, are valued at the lower of cost or net realisable value, after recognition of impairment loss for obsolete and slow moving items. Net realisable value is the selling price in the ordinary course of business, less the costs of completion, marketing and distribution. Cost is determined in accordance FIFO principle.

Auxiliary materials and supplies are expensed at the time they are taken into use or booked to the finished goods value if used in production.

In the case of manufactured inventories and work in progress, cost includes an appropriate share of overheads based on normal operating capacity.

The Company accounts for bottles as current assets in inventory, since they are not expected to be reused following the initial delivery. Bottles are booked to the cost of finished goods when used in production.

The Company books multiple usage tare, which comprise plastic boxes, pallets and etc. for placing the bottles of alcohol beverages, to the operating expenses immediately after it is taken for use.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits.

Impairment

The carrying amounts of the Company's assets, other than inventories and deferred tax assets, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

Calculation of recoverable amount

The recoverable amount of the Company's receivables carried at amortized cost is calculated as the present value of estimated future cash flows, discounted at the original effective interest rate (i.e., the effective interest rate computed at the initial recognition of these financial assets). Receivables with a short duration are not discounted.

Divdends

Dividends are recognized as a liability in the period in which they are declared.

2. Significant accounting policies (cont'd)

Liabilities

Liabilities are initially recognized at fair value less direct costs related to occurrence of respective loan and other liabilities. Subsequent to initial recognition, liabilities are stated at amortized cost on an effective interest method basis. Short-term liabilities are not discounted.

Provisions

A provision is recognized in the balance sheet when the Company has a legal or constructive obligation as a result of past event, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Revenue

Revenue is recognised when it is probable that the economic benefits associated with the transaction will flow to the enterprise and the amount of the revenue can be measured reliably. Sales are recognised net of VAT, excise tax and price discounts directly related to the sales. Revenue from sales of goods is recognised when delivery has taken place and transfer of risks and rewards has been completed.

Revenue from the services rendered is recognized in the income statement as the services are rendered. The revenue recognized is net of discounts provided.

Rental income is recognized in the income statement on a straight-line basis over the term of the lease.
Revenue from disposal of assets is recognized in the income statement when the significant risks and rewards of ownership have been transferred to the buyer.

No revenue is recognized if there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of assets disposed also continuing management involvement with the assets.

Expenses

Operating expenses comprise costs regarding sales personnel, advertising, administrative staff, management, office premises and office expenses etc., including depreciation and amortisation.

Payments made under operating leases are recognized in the income statement on a straight-line basis over the term of the lease.

Net financing costs comprise interest payable on borrowings calculated using the effective interest rate method, interest receivable on funds invested, foreign exchange gains and losses.

Income tax

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognized in the income statement except to the extent that it relates to the items recognized directly in equity, in which case it is recognized in equity. Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Earnings per share

The Company presents data of basic and diluted earnings per share (EPS) for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares. During reporting periods there were no any dilutive potential ordinary shares issued by the Company.

Subsequent events

Post-year-end events that provide additional information about the Group's position at the balance sheet date (adjusting events) are reflected in the financial statements. Post-year-end events that are not adjusting events are disclosed in the notes when material.

Notes to the consolidated interim financial statements
for the six month period ended 30 June 2008
(LTL '000 unless otherwise stated)

3. Non current assets

The acquisition of intangible assets amounts to LTL 209 thousand and the amortiziation charge - LTL 249 thousand for the period ended 30 June 2008.

The Group acquired property, plant and equipment amounts to LTL 1,210 thousand, disposed and wrote off of LTL 27 thousand, the depreciation charge amounts to LTL 4,279 thousand and the depreciation charge of investment property amounts to LTL 44 thousand.

4. Non-current financial asset
