MANAGEMENT REPORT

General information

The presented report shows AS Järvevana's economic activities and financial indicators before the division. Up until 1 August 2008, AS Järvevana operated in Estonia, Latvia and Lithuania as a construction group providing integrated construction solutions. Largest companies of the Group were SIA Merks (100%), UAB Merko Statyba (100%), Tallinna Teede AS (100%), AS Gustaf (75%), OÜ Gustaf Tallinn (80%), AS Merko Tartu (66%), OÜ Woody (100%) and AS Tartu Maja Betoontooted (25%).

On 1 August 2008, the registration department of Harju County Court made an entry in the Commercial Register registering the division of AS Merko Ehitus (registry code 10068022, with the new business name 'Aktsiaselts Järvevana') into the limited companies Merko Ehitus (registry code 11520257) and Järvevana (registry code 10068022).

Pursuant to the division plan (http://www.merko.ee/upload/File/Restruktureerimise%20dokumendid/AS%20Merko% 20Ehitus%20jagunemiskava%20ENG.pdf), upon the division, AS Järvevana transferred to AS Merko Ehitus the entire set of assets related to the economic activities of the building company, including all concluded building, subcontracting and supply contracts; the equipment, machinery and employees; all professional know-how and cash-flows without interrupting the continuing economic activities. The limited company's only remaining activity is ensuring the fast acquittal, which is in the shareholders' interests, in the criminal case No 05913000055 (http://www.baltic.omxnordicexchange.com/market/?pg=news&news_id=226059).

On 3 June the Annual General Meeting (<u>http://www.baltic.omxnordicexchange.com/market/?pg=news&news_id=226094</u>) approved the division of the company to into the limited companies new Merko Ehitus (registry code 11520257) and Järvevana (registry code 10068022).

At May 21 2008 AS Merko Ehitus transferred the 50-percent holding in the company OÜ Tornimäe Apartments (registry code 11016607) to the copartner AS EKE Invest. The sale price of the company was 58 million kroons (<u>http://www.baltic.omxnordicexchange.com/market/?pg=news&news_id=223709</u>).

At May 2 2008 AS Merko Ehitus transferred the 100-percent holding in the company OÜ Karulaugu Kinnisvara (registry code 11034491) to AS E.L.L. Kinnisvara. The sale price of the company was 42 million kroons; from this amount, 4.12 million kroons, the balance of company's financial obligations and current assets, were deducted (<u>http://www.baltic.omxnordicexchange.com/market/?pg=details&instrument=EE3100003559&list=2&tab=news&ne ws_id=223284</u>).

At 15 April 2008, the management of AS Merko Ehitus presented the Company's restructuring plan (http://www.baltic.omxgroup.com/market/?pg=details&instrument=EE3100003559&list=2&tab=news&news id=222 602), according to which AS Merko Ehitus was split up/demerged so that AS Merko Ehitus, e.g. assets (other than liquid assets in the amount of 250 million kroons), liabilities and contracts as well as the business name was separated and transferred to the new company being set up (hereinafter AS Uus Merko). The exact description of assets and the division plan were published in the materials announcing the general meeting of shareholders http://www.merko.ee/eng/investor/generalmeeting/2008.

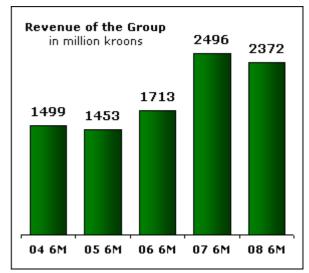

At a joint meeting held at 14 March 2008, the Management Board and the Supervisory Board of AS Merko Ehitus adopted a resolution to restructure the Company and separate operating activities from the criminal proceedings related to the land swap. The Company's management estimates that the restructuring of the Company is the best way to ensure its sustainable development and protect the interests of shareholders and employees in the long-lasting criminal proceedings related to the land swap.

Business operations

Group's revenue for the 6 months in 2008 was 2372.3 million kroons, which constitutes an annual decrease of 4.9%. 61.0% of the sales originated from Estonia, 23.1% from Latvia and 15.9% from Lithuania. As compared with the respective period in 2007, company's sales in Lithuania increased by 1.6%, and decreased in Latvia by 5.5% and in Estonia by 6.3%.

Group's revenue in the second quarter of 2008 was 1252.7 million having decreased by 228.2 million kroons as compared to the same period in 2007.

The decrease in the period's revenue was the result of the low activity in the building sector, caused by the overall economic slump.

In one year, the Group's cost of goods sold decreased by 12.6%, whereas the marketing and general administrative expenses increased by 26.2%, constituting 80.6% and 5.0% of the revenue respectively. The successful development activities enabled the company to compensate the impact of the rapid growth of the costs of services and labor and as a result Group's net profit margin increased from 9.7% to 12.2%.

The Group's net profit in the six months of 2008 was 290.2 million kroons, having increased by 19.9% compared to the last year and profit before tax was 333.8 million kroons, having increased by 27.0% compared to six months 2007. Profitability was positively influenced by the warm winter which boosted 1st quarter sales and by the big share of housing and property developments in the sales of the 1st and 2nd quarters.

The net profit for the first 6 months of 2008 turned out to be the highest profit ever received within the concern for the first half of the year. Since the property and housing development projects have a long preparation period, the achieved results reflect the good performance in previous periods and do not give an adequate idea of the current slump on the construction market.

Group's net cash flow of the six months of the year was +502.5 million kroons, including cash flow from operating activities +552.0 million kroons, from investing activities +39.8 million kroons and financing activities -89.3 million kroons. The cash flow from operating activities were mostly influenced by operating profit +338.9 million kroons, the change in trade and other receivables related to operating activities (+216.3 million kroons), change in trade and other payables (-143.3 million kroons) and adjustments of revenue from construction contracts under stage of completion method +158.3 million kroons. As at 30 June 2008, the group has 704.6 million kroons of funds on the group's bank accounts.

Construction market

During the first 6 months of 2008, construction production (with own forces) was performed in Lithuania for 24 381 million Estonian kroons, in Latvia for 16 552 million Estonian kroons and in Estonia for 16 972 million Estonian kroons; compared to the first half of 2007, the volume of construction work in Latvia increased by 30.8%, in Lithuania by 23.1% and decreased in Estonia by 0.4%. Due to the inertness of construction activities, the sector follows economic trends with a 12-18 month delay, which is why the previously given growth figures reflect more the situation of the construction market in 2007 than that in 2008. The figures illustrating the general economic environment can give a more adequate picture of developments in sector for the nearest future.

Compared to the second quarter of 2007, initial observations have shown that economic growth for the same period of this year in Latvia has been 0.2% and in Lithuania 5.5%, whereas economic growth in Estonia has decreased by 1.4%. The deceleration of economic growth creates considerably more tension between state and local government budgets and influences their investment capabilities. The biggest problems of private investments are decreasing financing opportunities, uncertainty and negative future perspectives. Regardless of a few courageous developers who have started to use the advantage of low construction prices in their best interests, general interest towards construction services in all of the three Baltic States is low.

Although Statistics Departments claims that the prices of construction services have been increasing in the Baltic States -a yearly growth in Latvia being 16.0%, in Lithuania 11.9% and in Estonia 4.2%, while labour costs climbed up in Latvia by 27.0% and in Estonia by 6.0%- experience has shown that the prices of construction services have decreased by 25-30% within the past year. The decrease of demand and tougher competition has taken the prices of services to a level from where their further decrease will challenge the sustainability of construction companies. The nearest future will probably see the liquidation of financially weaker and less effective companies. The close connection of the workforce market of the Baltic States to the workforce market of the European Union, the great dependence of construction sector inputs on the prices of the global market and the probable decrease in the number of offers due to the bankruptcy of companies and the transition of workforce from foreign countries set clear boundaries to the further decrease in the prices of construction services.

The market of residential premises was slow to grow in the second quarter as is usual in the summer period. In the third quarter, a somewhat seasonally inspired increase of demand can be expected but no signs of the recovery of the demand for residential and commercial premises in the perspective of the next 12 months can be detected. The situation might change in the second half of 2009 when owners have been found for most of the new and waiting to be sold residential premises. The biggest challenge for developmental activities will be the handling of decreased financing opportunities and liquidity problems.

Staff costs	173 848	191 037
Depreciation and impairment charge	9 289	7 670
Design	37 329	47 947
Construction mechanisms and transport	58 472	41 843
Other expenses	54 118	52 221
Total cost of goods sold	1 913 248	2 190 123

Note 4 Earnings per share

Basic earnings per share for profit attributable to equity holders of the parent company has been derived by dividing the net profit attributable to shareholders by the weighted average number of shares.

	2008 6 months	2007 6 months
Net profit attributable to shareholders <i>(in thousand kroons)</i> Weighted average number of ordinary shares <i>(thousand pcs)</i>	290 178 17 700	242 000 17 700
Earnings per share (in kroons)	16,39	13,67

The Group did not have any potential ordinary shares to be issued; therefore the diluted earnings per share equal the basic earnings per share.

Note 5 Cash and cash equivalents in thousand kroons

	30.06.2008	31.12.2007
Cash on hand	106	116
Bank accounts	198 852	53 722

Payment guarantee	1 964	5 176
Letter of credit	-	11 218
Total contingent liabilities	598 125	484 314

Performance period's warranty to the customer – warranty provider grants to customer that contractor's obligations arising from construction contract will be adequately completed.

Tender warranty – warranty provider grants to customer arranging the tender process that the tenderer will sign a contract as per tender conditions.

Guarantee for warranty period - warranty provider grants to customer that construction defects discovered during the warranty period will be repaired.

Prepayment guarantee - warranty provider grants to customer that advances will be reimbursed, if contractor fails to deliver goods or services agreed.

Payment guarantee – warranty provider grants to customer payment for goods or services.

MANAGEMENT DECLARATION

The Management Board of Merko Ehitus has prepared the consolidated 6 months interim report 2008 as presented on pages 3 to 20.

The Management Board confirms to the best of its knowledge:

- the accounting methods used for preparing the interim financial statements are in compliance with International Financial Reporting Standards as adopted by the European Union;
- the interim financial statements give a true and fair view of the financial position, the results of operations and the cash flows of the Group;
- the parent company and all Group companies are going concerns.

The consolidated interim financial statements of AS Merko Ehitus for the 6 months period ending 30.06.2008 have been prepared in accordance with IAS 34 "Interim Financial Reporting" for condensed interim financial statements. Company applies the same accounting policies in its interim financial statements as applied in its annual financial statement of 2007.
