

Half Year report

1 January – 30 June 2008

- IFRS NAV at the end of the period was SEK 5,664 million (SEK 99.94 per share)
- Profit for the period amounted to SEK 1,062 million (SEK 1,618 million for the second quarter)
- Main contributor to the profit was the break-up of UES and subsequent valuation based on the underlying assets
- Several directed share issues completed in April and May, totaling gross SEK 2,118 million out of which SEK 918 million was issues in kind. More than 120 institutions participated
- Total number of shares outstanding after the directed share issues at the end of the period was 56,673,177 (average for the period was 38,047,831)
- EOS has used a USD 165 million leverage facility to further increase its holding in UES pre-breakup
- UES ceased to trade on June 6th at which time EOS controlled around 2% of its outstanding shares

Significant events after the end of the reporting period

- The downturn in global stock markets has negatively impacted EOS daily NAV and even more so its share price. On the 27th of August EOS daily NAV was SEK 67.95 and its share price closed at SEK 46.7.

EOS Russia AB (publ)

Biblioteksgatan 11, 111 46 Stockholm, Sweden

<http://www.eos-russia.com> | info@eos-russia.com | Phone +46 (0) 8 407 31 50

EOS Russia

EOS Russia was founded in the spring of 2007 in order to capitalize on investment opportunities arising as a result of the deregulation, restructuring and privatization of the Russian electricity sector.

EOS Russia AB is the Group's parent company and is headquartered in Stockholm, Sweden. EOS Russia (Cyprus) Ltd is a subsidiary of EOS AB and is located in Limassol, Cyprus. All investments are conducted by the subsidiary, which holds the complete investment portfolio of EOS. EOS was founded in its present form in May 2007 when the company decided to carry out a directed share issue to a number of institutional investors, paid for in kind or in cash. The company listed on First North on June 25th, 2007. The financial year is 1 January – 31 December.

The founders of EOS believe that the assets in the Russian electricity industry are currently undervalued due to the complex restructuring that is underway, as well as the still relatively underdeveloped equity market in Russia.

Russian electricity industry reform

A comprehensive reform program is gradually being implemented in the Russian electricity sector until 2011¹. The reason for the reform is the considerable investment need that has emerged as a result of rapidly increasing electricity demand. The goal of the reform is to ensure an attractive climate in order to facilitate the major new investments required to satisfy the need for power generation, as well as associated distribution and transmission grids.

Operational and financial results for the first six months

Group

EOS recorded a net profit from investing activities of SEK 1,139 million (42), whereof unrealized gains amounted to SEK 1,230 million, during the first half year. Operating costs amounted to SEK -62.4 million (-12.4). Net financial items for the period amounted to SEK -14.1 million (-12.9). Net financial items include interest income of SEK 0.2 million (0.6) and interest expenses totaling SEK -14.3 million (-1.6).

The net profit for EOS during the period was SEK 1,062 million (17). Net profit per share was SEK 27.92 (1.54).

EOS net asset value at June 30th was SEK 5,664 million (2,081). The net asset value was negatively impacted by exchange rate translation differences of SEK -347 million (0).

Parent Company

The parent company's income for the period amounted to SEK 8.6 million (2.1) Operating costs amounted to SEK -24.4 (-2.2) million for the period. Net financial items amounted to SEK 12.8 million (0.2) for the period. The net income for the period was SEK -2.9 million (0).

The total number of shares outstanding at June 30th, 2008 was 56,673,177 (20,361,555).

EOS Russia's portfolio

EOS' investment strategy is to focus on companies within the energy/power industry in Russia with the best relative value as perceived by the Group.

As per June 30th, 2008, EOS' portfolio consisted of the assets listed in the table below.

Assets June 30, 2008	Book value		Share of EOS portfolio, %
	MSEK	MUSD	
Federal generation	1,574	263	23.5%
Regional generation	1,496	250	22.3%
Hydro generation	1,292	216	19.3%
Distribution	927	155	13.9%
Transmission	1,047	175	15.6%
Integrated	359	60	5.4%
Total	6,695	1,119	100%

All shares are regarded as being traded on an inactive market and the portfolio is valued with a model based on mid prices.

UES

UES was the major electricity holding company in Russia, and accounted for 70% of Russia's total electricity production and 33% of heat production² at the end of 2006. UES had direct and indirect ownership as well as in most cases control of most of the regional and other individual power plants in Russia.

The restructuring of UES was finalized on July 1st, 2008, when UES was liquidated. During July and August 2008 shareholders received shares in 23 different companies consisting of OGKs, TGKs, MRSKs, federal Grid Company, HydroOGK, InterRAO and RAO Vostok.

After the completion of the Russian electricity reform, mentioned earlier, power production based on gas, coal and oil will be mainly privately owned.

EOS Russia's share price development

The closing price of EOS share at June 30th, 2008 was SEK 74, corresponding to a decline during the first half year of 24.3% (the OMX Stockholm 30 index lost 19% during the same period).

EOS share declined 52.2% from January 2nd, 2008 until August 27th, 2008 compared to the OMX Stockholm 30 Index that declined 18.5% during the same period.

Other information

Creation of the Group

EOS Russia AB is the parent company of the group and was registered in December 2005. During the first period of business the company was inactive. When the group in its present form was founded on May 8th, 2007, the parent company decided to direct a new share issue paid in cash or in kind to institutional investors. The group investments are made by the subsidiary EOS Russia (Cyprus) Ltd.

Organization

The number of employees (full time) in the group as of June 30th, 2008 was five (5), of which three (3) were employed by the parent company. In July a senior trader was employed by EOS Russia (Cyprus) Ltd.

Related party transactions

Group

The group company EOS Russia (Cyprus) Ltd has as of June 30th, 2008 accrued a cost of SEK 43.7 million (8.3) and a debt of SEK 71.1 million (8.3), of which SEK 28.2 million is accounted for as a liability and SEK 42.9 million represents a provision of possible future dividends in accordance with the current agreement with the preference shareholders. The preference shares give no residual right to a part of the group's net assets or profit, but instead guarantee compensation depending on the result of (i) the company's yearly share price development, (ii) the development of the group's net asset value from 2008-2012 and (iii) the difference between a total of 0.5% per quarter of the group's net asset value less actual adjusted operating costs.

Parent company

EOS Russia AB has not granted any loans, warranties or guarantees to or for the benefit of board members or management. No agreements on benefits to board members or management following the completion of their respective assignment exist. None of the board members or management has any direct or indirect participation in business transactions with the group, which are or were unusual in nature or with regards to terms, and which occurred in the current or previous fiscal year. Seppo Remes has a consultancy agreement with

EOS AB, whereby he continuously provides expert advice on all matters related to the Russian electricity sector.

Provisions

Apart from what has already been explained under "Related party transactions", no provisions related to uncertainties have been accounted for.

Risks

Group

Almost all the group's assets are invested in shares of Russian power utility companies with no diversification in country or sector risk. The main part of the group's assets is invested in shares on the Russian market. Russian securities trading legislation is more rudimentary than in many other countries, and there are few effective directives or requirements for disclosures about offers, sales or equity trading. The stock market is less liquid and more volatile in Russia than the United States or Western Europe. As a result, the company's investment portfolio may exhibit greater price volatility and poorer liquidity than one that focuses on securities of listed companies in more highly developed countries.

A large percentage of securities transactions are brokered outside the regulated exchanges. The legislation covering fraud and insider trading is rudimentary and has been only partially accepted by market players. The market's disciplinary board lacks the resources to enforce the legislation that has been passed.

Parent Company

The risks associated with the activities for the group may also affect the parent company indirectly via the ownership of a subsidiary. Also, as the shares in the parent company are issued and traded in SEK and the group investments are held in USD or Russian Rubles, the company is subject to currency exchange fluctuations.

For more information about EOS' risk exposure, please see the risk section of the 2007 annual report.

Compliance with rules and regulations

EOS Russia draws up its consolidated accounts in accordance with the International Financial Reporting Standards (IFRS). This interim report was drawn up in accordance with IAS 34, Interim Financial Reporting. The new and revised standards adopted and interpretive announcements made by IASB/IFRIC and approved by the EU, which came into force on January 1st, 2008, have not been deemed to affect EOS Russia's financial reports. New or revised standards that are to be implemented from 2009 or later will not be applied before those dates. The same accounting and valuation principles have been applied as in the Annual Report for 2007.

The parent company applies the same accounting principles as the group, but taking into consideration RFR 2, Accounting for Legal Entities, the recommendations from the Swedish Financial Reporting Board. The same accounting and valuation principles have been applied as in the Annual Report for 2007.

For more detailed information about the principles used for the Group and the Company, please refer to the Annual Report 2007. Unless otherwise indicated, all amounts are rounded off to the nearest thousand SEK. By rounding the numbers in tables, totals may not always equal the sum of the included rounded numbers.

Report on Review of Interim Financial Information

Introduction

We have reviewed the interim report of EnergyO Solutions AB (publ), reg. no 556694-7684, as of 30 June 2008 and the six-month period then ended. The board of directors and the Chief Executive Officer are responsible for the preparation and fair presentation of this interim report in accordance with IAS 34 and the Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SÖG) 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing in Sweden RS and other generally accepted auditing practices. The procedures performed in a review do not enable us to obtain a level of assurance that would make us aware of all significant matters that might be identified in an audit. Therefore, the conclusion expressed based on a review does not give the same level of assurance as a conclusion expressed based on an audit.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Annual Accounts Act for the group and in accordance with the Annual Accounts Act for the parent company.
