Press release 2008-08-15

Reinforced Management Team

Seamless is reinforcing the Management Team with three new members adding senior level expertise and talent. To leverage both business and technology development for Seamless, Shailendra Naidu joins Seamless as Director of Business Development and Marketing, while Emil Wikström comes in to fill the Chief Technology Officer (CTO) position. Daniel Nyholm, currently Business Controller, also moves into the Management Team as Head of Finance.

"Emil Wikström has a solid background in transaction systems for stock exchange and trading systems, very valuable to us as our Top Up business expands into Money Transfer" says Rohit Bhatia, CEO at Seamless. "Daniel Nyholm has proven to have the financial knowledge needed for a fast growing company traded on a stock exchange." About Shailendra Naidu Rohit Bhatia comments "He has thorough experience of Mobile Money Transfer systems and will be very valuable to help us communicate the benefits of our system The Mollet™ to mobile operators, banks, retail chains and authorities in countries all over the world."

Shailendra Naidu has rich and extensive experience working with telecom industry leaders like Bharti Airtel in India. His areas of expertise are sales and market development, product management and building business areas from scratch. He comes from Tanla Solutions where he created telecom products and solutions for the global market and was instrumental in setting up Mobile Commerce solutions. Shailendra Naidu holds a Master's degree in Management Studies from Mumbai (Bombay) University, India and a Masters' in Mathematics from Benares Hindu University, India.

Emil Wikström has worked as management consultant and CTO in a number of technology companies during the last eight years. As systems architect he worked mainly with financial trading systems, examples are the NGM stock exchange in Stockholm and the internationally recognized Front Arena trading system. His experience from numerous companies has already significantly improved the interworking processes between Product Development, Delivery and Support. Emil Wikström holds a Master in Computer Science from the Royal Institute of Technology (KTH) in Sweden.

Daniel Nyholm started as Business Controller at Seamless in 2007. Prior to this he was at Pixbox, a leading web community in Sweden where he was responsible for financials during a fast expansion phase. Before that he finished his Master's degree in Economics at Linköping University in Sweden with Micro and Macro Economy as majors.

From now on the management team is:
Rohit Bhatia, CEO
Daniel Nyholm, Head of Finance
Danijela Kostic, Head of Delivery
Devika Sehgal, VP Sales
Emil Wikström, CTO
Mikael Signarsson, founder and Partnership Manager
Shailendra Naidu, Director of Business Development and Marketing

About Seamless:

Seamless is a software company specialized in solutions for Top Up, m-Payments and Money Transfer through mobile phones.

The product **ERS 360°** connects Mobile Operators to Retail Chains, Banks, Web portals, Remitters etc. as a hub for transactions. It seamlessly interfaces to business systems, to a multitude of cash registers and terminals in a secure and scalable solution.

The ERS 360° hosts the Money Transfer system **Mollet**™ (derived from Mobile Wallet) that is a wallet in a mobile phone allowing mobile phone users to send money to other phones and organisations.

Examples of the Top Up product range are **GoHandset** that enables Top Up reselling using a mobile phone as terminal and **GoShopping** that enable retail chains to offer their customers e-Top Up seamlessly integrated in their business system and cash registers.

Seamless has deployed Top Up and Money Transfer solutions for more than 40 Operators in 16 countries, across four continents. The company is a Global Partner of both Ericsson and Sagem Orga. The company is headquartered in Stockholm, Sweden with sales offices in India and South Africa as well as a support centre in India. Seamless was founded in 2001 and the share is traded at Nasdaq/OMX First North since May 30th, 2006.
