New CED appointed in Solar Sverige AB

We are very pleased to announce that Anders Gärdström has been appointed as Chief Executive Director (CED) in the Group's Swedish subsidiary Solar Sverige AB with accession latest at the beginning of 2009.

Anders Gärdström, who is Swedish and 42 years old, has been employed with YIT Sverige AB since 2003, originally as Vice President and later as Executive Vice President. Previously, Anders Gärdström has been employed within the ABB group for a number of years, i.a. as Executive Vice President for the business area ABB Building System, Zurich and as President for ABB Communications AB, Sweden.

Anders Gärdström will at a later appointed date replace our current CED Kjell Svensson who in the most excellent way during the past 15 years, through the construction of a very strong and competent Swedish organisation, has created the company's strong position in the market. Kjell Svensson will still be involved in Solar – however, on his own request, part-time – solving special tasks for Anders Gärdström and Group Management in Kolding.

We would like to take this opportunity to bid Anders Gärdström a warm-hearted welcome to Solar – not only in the role as CED for Solar Sverige AB but also as a member of Solar Management Team which is the Group's top day to day management. At this rather early point in time, we would also like to thank Kjell Svensson very much for his unique effort for the Solar Group during the many years past.

Yours sincerely,

Solar A/S

Flemming H. Tomdrup
