

HTN continues to expand US network with Net Insight's Nimbra platform

5 August, 2008

Stockholm, Sweden – Net Insight, leading developer of efficient and scalable optical transport solutions for media, IP and broadcast networks, has received a further order from HTN to expand its Nimbra-based transport network.

In 2007, Net Insight received a first order from HTN for a Nimbra based network for its media transport services in several locations in the United States. HTN has continued to expand its services during 2008 and has now placed a further extension order with Net Insight. The new Nimbra equipment will be delivered in the third quarter 2008.

"We are pleased to be entrusted with the continued expansion of HTN's media transport network", said Fredrik Trägårdh, CEO of Net Insight.
