SHARE PRICE DEVELOPMENT

MANAGEMENT REPORT

Information on the results of the company in 6 months of year 2012

In 6 months period of 2012 net-turnover was fulfilled in the amount of 5 284 thous.LVL (7 518 thous.EUR), which compared to the forecast is by 1 184 thous.LVL (1 685 thous.EUR) or 29% more. Compared to the level of previous year, net-turnover of the reporting period is by 1 308 thous.LVL (1 861 thous.EUR) or by 33% more.

Profit before taxes amounted to 29 thous.LVL (41 thous.EUR) in 6 months period of 2012. Profit after taxes amounts to 7 thous.LVL (10 thous.EUR).

Commodity output is estimated in the amount of 3 063 thous.LVL (4 358 thous.EUR). The result of 6 months of 2012 is by 120 thous.LVL (171 thous.EUR) or by 4% higher than in the relevant period of previous year.

At present the company exports 99% of its products to the East and West: among them 68% eastwards and 31% westwards; 1% of products are sold on domestic market.

The average statistical number of employees of JSC "Ditton pievadķēžu rūpnīca" was 339 employees in 6 months of year 2012.

The average salary amounted to 341 LVL (485 EUR) in 6 months period of 2012, which is by 1 LVL (1,4 EUR) more than in 6 months of 2011.

Significant events. Market tendencies and development of the company. Risks.

The activity of the Company in 6 months of the year 2012 gives the ground to consider that in the mentioned period the situation on the market where production of the Company is represented was maintained. It is indicated by the economic situation on the markets of the states where production of the Company is represented and by increase of purchase orders in Eastern and Western market segments. At the same time growth of demand for production in the Eastern market, where the Company's driving chains are represented, is not infinite; the Company notes the first signs of market saturation and slowing down of growth of demand and production volumes. In these circumstances development and retention of Eastern market (RF, CIS) represent important goals and interests for the Company. In such way it can be assumed that all risks and market trends reflected in previous reports are effective and relevant in the reporting period.

Besides, the Management Board of the Company notes that up trends can be affected by instability and increase of prices on metal products, as well as by the expected domestic increase of energy prices. These changes which are not controlled by the Company and often – ungrounded and non-systematic – negatively affect production programs of the Company and don't allow to enter into long-term supply contracts due to price and prime cost fluctuations.

Also the rate of turnover growth forecasted for the reporting period can be considered as fulfilled which resulted in a certain stabilization of the financial situation of the Company, at the same time, some facts and market trends may be evidence for the probability of the "second wave" of crisis phenomena. According to analysts of Latvia and the European Union, elements of the "second wave" of global economic crisis, at least in the euro area, are becoming apparent and it has a certain impact on the Company's performance.

This assumption is reinforced by general factors that may adversely affect tendencies of the Company's development, particularly, instability of global economic due to economic crisis in USA, to which the manufacturers responded accordingly. Also, the European economic is developing at the negative scenario, growth rates previously expected have not been achieved, the European Union devotes much effort to support its member states.

In the abovementioned period in Russian Federation there can be market stabilization observed, without demonstration of features of rapid growth. The situation in the Eastern segment of the market is constantly in the sphere of the Company's monitoring (refer also to forecasts for the Eastern market above).

Probability of the "second wave" of crisis, as well the fact that consumer market is growing with no surpassing the forecasts and in respect of many indicators it has not reached the pre-crisis level are taken into account by the Management Board by organization of the Company's activity in general. However, as indicated above, not all influencing factors can be evaluated and managed, which along with the Company's integration into global economics cause negative factors of dependence.

The Management Board considers as its main task to continue the activity aimed at development of the Company in accordance the goals and mission of the Company approved by the shareholders in respect of maintaining the Company with its brand, technologies, personnel, traditional partners and market and future development together with the whole global and Latvian economics with simultaneous using of all favorable conditions appearing for development of the Company's chances and its market growth.

Taken together, the Company closed the 6 months period of 2012 with profit.
