

## Danish Defense chooses Sectra's new Tiger

**Sectra (NASDAQ OMX: SECT B) has signed a contract with the Danish Defense Acquisition and Logistics Organization concerning deliveries of the new secure mobile phone Tiger 7401.**

[Tiger 7401](#) is based on Sectra's [Tiger XS](#), the de facto standard for secure mobile communications within the EU. The Tiger system is used for voice communication, SMS and data at the SECRET security level. It communicates on 2G and 3G as well as satellite communication and IP networks to ensure the highest possible availability for the user.

"We look forward to introducing the Tiger 7401 for our users in the Danish Defense Forces. We are confident that it will meet their needs for secure mobile communications, while providing them with a familiar user experience," says Mogens P. Svendsen, Project Manager at Danish Defence Acquisition and Logistics Organization.

"Tiger 7401 meets our users' high demands on flexibility and mobility. In a single device, it provides secure communication and transparent interoperability between, for example, national and EU domains," says Michael Bertilsson, President of [Sectra Communications AB](#).

Sectra's close cooperation with customers and national security agencies has resulted in the company's solutions for secure communications being used in a majority of European countries, as well as in the EU and NATO. Users are decision-makers and officials in governments, defense authorities and critical functions of society, such as municipalities, police, customs and rescue services. All of these customers have a shared need to communicate securely everywhere at any time.

### **About Sectra**

Sectra develops and provides effective security solutions for European government authorities, defense departments and other critical functions of society. These security solutions ensure that organizations and individual users can meet their continuous need for secure communication. Sectra's solutions are approved at national levels and by the EU and NATO, and pave the way for communications that lead to a secure and stable world.

Sectra was founded in 1978. The Group's operations include products and services in the niche segments of secure communication and medical systems. Sectra has offices in 12 countries and operates through partners worldwide. The head office is located in Linköping, Sweden, and the company has its roots in Linköping University. Sales in the 2011/2012 fiscal year totaled SEK 823 million. The Sectra share is quoted on the NASDAQ OMX Stockholm AB exchange. For further information, visit <http://www.sectra.com>
