

PRESS RELEASE

May 30, 2008

Skanditek's share capital and total number of shares at May 30, 2008

The total number of shares outstanding in Skanditek Industriförvaltning AB (publ) at May 30, 2008 amounted to 65,350,980. The total does not include any treasury shares held by Skanditek. The share capital amounts to SEK 393,030,480.

At the beginning of the month, the total number of shares in the company amounted to 65,505,080, including 154,100 treasury shares. The decrease in the total number of shares during May resulted from 154,100 shares being canceled in accordance with a resolution passed by the Annual General Meeting on April 7, to the effect that the share capital was to be reduced through the redemption of treasury shares.

The share capital remains unchanged at SEK 393,030,480 since, at the same time as the resolution to redeem the treasury shares, it was resolved to implement a bonus issue through a transfer from unrestricted equity, whereby the share capital was restored to the same level as prior to the reduction without having to issue new shares.
