Cybercom signs new framework agreement with CSN

Cybercom signed a new, two-year framework agreement with the Swedish Central Student Grants Committee (CSN) to deliver IT consultancy services.

Cybercom was selected as a frame agreement supplier. The agreement is valid for two years with an option for a two-year extension. The frame agreement is for development and administration of CSN's systems, and it includes services such as business development and strategy, project management, system development and administration, IT security and infrastructure, and CA-Gen development.

"CSN is a new customer for Cybercom and we're delighted to be selected as a future supplier," says Johan Stenborg, account manager at Cybercom. "Cybercom has a local presence in Sundsvall, which gives us great opportunities to further develop our partnership with CSN."
