

Press Release  
Danderyd, Sweden, 22 April 2013

## **Bravida selects NOTE as supplier**

Bravida Fire & Security is extending its collaboration through a new three-year deal with NOTE to manufacture Bravida's products. The selection of NOTE as provider also paves the way for continued collaboration on future product development.

Bravida Fire & Security provides complete systems and products in the fire and burglar alarm, entry system, CCTV and integrated security systems segments. Apart from having one of the market's strongest standard ranges, Bravida offers tailored solutions developed by Systemhuset, the Bravida group's Nordic centre of excellence for security solutions.

NOTE's business model enables customer contacts and relationships to be managed by its plant in Lund, Sweden, which also supports Bravida on activities including prototyping and development services, while Bravida also achieves cost benefits by locating batch production at NOTE's Industrial Plant in Estonia.

Sven Klockare, President of Bravida Fire & Security, made the following comment on the choice of NOTE as its manufacturing partner: "NOTE's strategic and competitive offering over complete product lifecycles is a great fit with Bravida's high quality and flexibility standards."

Per Grönvall, President of NOTE Lund, responded: "We are delighted and proud that Bravida has selected NOTE as its supplier. They're in our primary target group in the high mix/low volume segment and we are now looking forward to continue demonstrating our strength in development, production, quality and logistics."
