

Eolus sells 14 wind turbines to Munich Re

Hässleholm, May 23rd 2013

Eolus Vind AB and MEAG have today signed an agreement regarding sales of 14 wind turbines (30 MW) with an expected yearly energy production of roughly 80 GWH to Munich Re.

The agreement concerns the wind farms Hakarp, Kaptensberget and Åsen, all of them established and taken into operation by Eolus during 2012 and 2013.

The transaction is subject to fulfillment of a number of conditions before closing, which is expected to occur in July. As part of the transaction, Eolus shall operate and manage the wind farms on behalf of MEAG.

-We are very proud of the trust that MEAG, one of Europe's largest investors, shows when choosing Eolus as their partner when entering the Nordic energy market, says Per Witalisson, CEO of Eolus Vind AB. The agreement is also a confirmation of our efforts to offer competitive asset management services have been successful and are suitable both for local investors as well as large international institutional investors.

About MEAG:

MEAG stands for best practice asset management for Munich Re and ERGO. MEAG is represented in Europe, Asia and North America and also offers its extensive know-how to institutional investors and private clients from outside the Group. MEAG currently manages assets to the value of around € 239 billion.
