

### Comparison of the effective and the requested trade end tariffs for industrial natural gas consumers

Consumer group	Annual amount consumed (m <sup>3</sup> )	Tariffs as of 04.2008 Heavy fuel oil quotation up to 400 USD/t	Tariffs as of 07.2008 Heavy fuel oil quotation up to 500 USD/t	Tariff increase %
3	25 000 to 126 000	222.16	301.24	35.6
4	126 000 to 1 260 000	215.10	278.30	29.4
5	1 260 000 to 12 600 000	209.06	262.90	25.8
6	12 600 000 to 20 000 000	204.52	252.53	23.5
7	20 000 000 to 100 000 000	192.93	245.53	27.3
8	over 100 000 000	184.37	238.83	29.5

Already in 2008 the natural gas prices have grown throughout Europe. For instance, for households in Lithuania the tariffs were increased by 75% as of January 1, 2008 (Eurostat data on prices in the European Union are available only for 2007). Considering the price increase in all Europe, the natural gas prices of 2008 in Latvia will remain at a competitive level.
