

PRESS RELEASE

Enea re-selected as preferred supplier by US aerospace/defense company

STOCKHOLM, Sweden, August 21, 2013 – A leading US aerospace/defense company has re-selected Enea as preferred supplier after a major review of all its service suppliers. Enea was selected out of more than 30 suppliers after a 6 month evaluation and negotiation process. With the new frame agreement Enea can continue to do service business valued to app. 20 MUSD over three years.

“We saw a major decline in service business from the aerospace/defense industry in the US in the beginning of this year. To secure this frame agreement and confirm the customer commitment is of major importance going forward.”, says Anders Lidbeck, President and CEO for Enea. “We were competing with many companies larger than us and succeeded in being selected without having to compromise on any important factors. That is a major proof of the quality and competence that our service business is delivering.”
