Key figures

EUR million	Q1 2009	Q1 2008
Net sales	506.6	548.6

Overview

The demand for consumer packaging was characterized by uncertainty and customer cautiousness in the beginning of the year. Although majority of the Group's segments are considered to be of a defensive nature with mainly food and personal care related packaging products, sales were not immune to the economic downturn. Sales suffered severely in Films Global segment with industrial applications.

Operating earnings for the reporting period were well above the corresponding period in 2008 in spite of lower sales. Earnings improved due to successful cost containment, better operational control as well as price and mix management. Cost containment was aided by lower raw material prices and significant headcount reduction with approximately 900 employees less than a year ago. Profitability improved markedly in North America, Rigid Consumer Goods Plastics and Flexibles Global segments.

Cash flow generation was good and further reduction of net debt was achieved. On a rolling 12 month basis, return on investment (ROI) was still negative reflecting significant non-recurring charges in 2008.

Business review by segment

The new segment structure for financial reporting was adopted as of January 1, 2009. The sales distribution by segment is the following: Flexibles Global 24% (23%), Films Global 8% (9%), North America 25% (21%), Rough Molded Fiber Global 10% (10%), Foodservice Europe-Asia-Oceania 19% (19%) and Rigid Consumer Goods Plastics 14% (17%).

Flexibles Global

Flexibles business is organized as a global segment. Flexibles are used for consumer packaging of a wide range and variety of food, personal and health care and other products.

EUR million	Q1 2009	Q1 2008
Net sales	120.2	128.8
EBIT	8.8	6.2
EBIT margin %	7.3	4.8
RONA % (12m roll.)	0.4	5.5

Sales within the segment declined during the reporting period. In Europe sales were negatively affected by weak demand in certain market segments such as pet food packaging and tube laminate. In Asia-

Oceania sales were at the level of the corresponding period in 2008 but the development by market was mixed.

Improved profitability reflects lower costs and better operational control achieved especially in smaller units.

The discontinuation of the loss-making flexible packaging operations in Malvern, USA, will be finalized by the end of the first half of 2009.

Films Global

Films business is organized as a global segment. Films are mainly used for technical applications in the label, adhesive tape, hygiene and health care industries, as well as building and construction, automotive, packaging and graphic arts industries.

EUR million	Q1 2009	Q1 2008
Net sales	41.3	53.1
EBIT	0.5	0.5
EBIT margin %	1.2	0.9
RONA % (12m roll.)	5.7	6.8

Sales within the segment suffered from weak demand of industrial applications. The consumer related products were more resilient to the economic downturn.

Despite the volume shortfall profitability remained at the level of the corresponding period in 2008 due to cost reduction efforts and better operational control.

During the reporting period the release paper business with annual net sales of EUR 30 million in Forchheim, Germany was sold to B. Laufenberg GmbH. The business will be gradually transferred to the buyer by the end of the first quarter 2010. Following the divestment and further focus on release films, a social plan discussion with the works council concerning approximately 100 permanent employees has been started.

North America

The segment includes the Rigid and Molded Fiber business in North America and Mexico. Rigid paper and plastic packaging, which serves ice-cream and other consumer goods as well as foodservice markets, is completed with Molded Fiber Chinet® disposable tableware products.

EUR million	Q1 2009	Q1 2008
Net sales	129.1	114.1
EBIT	14.5	7.3
EBIT margin %	11.2	6.4
RONA % (12m roll.)	10.7	8.7

Sales in constant currencies were at the level of the corresponding period in 2008. Retail, Frozen desserts and Foodservice distribution as well as Mexico showed growth. Sales development in other market segments was weak, partially as a result of product portfolio optimization.

The clear improvement in profitability reflects strong market positions, better mix and lower costs. Also, currency translation impact was favorable.

The closure of the rigid plastics site in Phoenix, USA, is ongoing with completion expected by the end of the first half of 2009.

Rough Molded Fiber Global

The segment includes the Rough Molded Fiber business in Europe, Oceania, Africa and South America. Rough molded fiber is used to make fresh product packaging, such as egg and fruit packaging.

EUR million	Q1 2009	Q1 2008
Net sales	48.3	54.7
EBIT	3.8	3.1
EBIT margin %	7.9	5.7
RONA % (12m roll.)	5.3	8.1

Sales growth was achieved in constant currencies and excluding ancillary operations. Demand for egg packaging was good ahead of the seasonally important Easter period. Regionally, performance in South America and Africa was favorable.

Profitability was stable reflecting lower costs offset by adverse currency impact and volume shortfall in ancillary operations, which include the machine and waste paper trade businesses.

Foodservice Europe-Asia-Oceania

Foodservice paper and plastic disposable tableware is supplied to foodservice operators and fast food restaurants.

EUR million	Q1 2009	Q1 2008
Net sales	104.5	115.0
EBIT	2.4	2.4
EBIT margin %	2.3	2.1
RONA % (12m roll.)	-0.6	0.3

Reported net sales declined mainly due to adverse currency translation impact. Sales growth has slowed down in Eastern Europe. Sales in Asia were below the level of the corresponding period in 2008, while growing in Oceania.

Profitability was stable reflecting lower costs, better operational control in Asia as well as price and mix management offset by adverse currency impact.

During the reporting period it was decided to optimize the rigid packaging production in Asia and to close down the production unit in Balakong, Malaysia. The Group's new facility in Guangzhou, China, will continue to serve Foodservice customers in Southeast Asia. The restructuring process at the Balakong facility will impact approximately 70 employees. The closure of the site is expected by the end of the third quarter 2009.

Rigid Consumer Goods Plastics

The segment includes the Rigid Consumer Goods Plastics business in Europe, Oceania and South America. Rigid plastic packaging serves the consumer goods markets with fresh food, dairy, ice cream and edible fats packaging.

EUR million	Q1 2009	Q1 2008
Net sales	77.7	100.8
EBIT	5.7	0.5
EBIT margin %	7.3	0.5
RONA % (12m roll.)	-59.3	-21.1

Sales within the segment declined in most markets.

The clear improvement in profitability reflects better operational control, lower costs and the elimination of the loss-making UK business.

A strategic review of the operations is ongoing.

Financial review

The Group EBIT for the reporting period was EUR 35 million (EUR 20 million), corresponding to an EBIT margin of 6.9% (3.6%).

The net financial items were unchanged at EUR -9 million. Tax expense was EUR 5 million (EUR 2 million).

The result for the period was EUR 21 million (EUR 9 million) and the earnings per share (EPS) were EUR 0.18 (EUR 0.09). The average number of outstanding shares used in the EPS calculations was 100,426,461 (unchanged) excluding 5,061,089 (unchanged) of the Company's own shares.

Balance sheet and cash flow

Free cash flow for the reporting period amounted to EUR 37 million (EUR -12 million). The strong improvement was due to higher earnings, lower capital expenditure and prudent working capital management. North America and Flexibles Global segments were most successful in generating cash flow. Capital expenditure was EUR 8 million (EUR 14 million).

Net debt was EUR 561 million (EUR 741 million) at the end of March 2009. This corresponds to a gearing ratio of 0.77 (1.01). Total assets on the balance sheet were EUR 1,930 million (EUR 2,160 million).

Personnel

The Group had 14,294 (15,198) employees at the end of March 2009.

In addition, the Board of Directors resolved upon members of its committees for a term which lasts until the end of the AGM following the election.

Short-term risks and uncertainties

Volatile raw material and energy prices as well as movements in currency translations are considered to be relevant short-term business risks and uncertainties in the Group's operations. Material changes in

general economic conditions or in the financial markets could have an adverse effect on the implementation of the Group's strategy and on its business performance and earnings.

Outlook for 2009

Full year sales outlook remains uncertain and pressure on margins is expected to increase during the course of the year.

In the short-term, price and mix management, supply chain initiatives, control over costs and capital spending, positive cash flow generation and net debt reduction continue as key focus areas within the Group. Capital expenditure in 2009 is expected to be below EUR 100 million.

Financial reporting in 2009
