

PRESS RELEASE

Halmstad 6 September, 2013

Power Production August 2013 – 29.5 GWh

Slightly below normal winds in August resulted in an electricity production of around 29,500 MWh¹. Actual output in the same month the previous year was 17,300 MWh.

A milestone in the history of the company has been reached during the month. 1 TWh of green electricity has been produced since the start of the first wind farm in 2009.

¹ Including leased wind farms, around 33,000 MWh of electricity was generated during the month.

About Arise

Arise is one of Sweden's leading companies in onshore wind power. Its business concept is to sell electricity generated at the company's own wind turbines. The company's target is to have 1,000 MW of onshore wind power constructed and under management by 2017, of which 500 MW will remain in the ownership of the company. Arise is listed on NASDAQ OMX Stockholm.
