## **Cybercom signs global agreement with Saab**

**Cybercom signed a new, three-year agreement with Saab for system and technology development services. Cybercom also signed a one-year group-wide master contract for this area.**

"The Saab contract is extremely important to Cybercom," says Patrik Boman, president and CEO of the Cybercom Group. "Saab provides the global market with cutting-edge products, services, and solutions that extend from military to civil defence. And the company puts stringent demands on cost-effective solutions that set the pace for technological development. The contract further develops and intensifies the Cybercom-Saab partnership."

The three-year frame agreement covers technical system development services. This is the third time that Cybercom was selected as a group supplier for Saab. Cybercom has extensive experience in the defence industry and has worked with Saab for 12 years.

"Saab is a major customer," says Jörgen Kleist, key account manager at Cybercom. "Our relationship goes way back, and we're delighted to get this show of confidence once again. As a preferred master contract partner, Cybercom has incredible opportunities for exciting projects and assignments."

### **About Cybercom**

The Cybercom Group is a high-tech consultancy that offers global sourcing for end-to-end solutions. The Group established itself as a world-class supplier in these segments: portals, mobile solutions, embedded systems, e-commerce, and business support systems. Thanks to its extensive industry and operations experience, Cybercom can offer strategic and technological expertise to these markets: telecom, Internet, and media (TIM); banking and financial services; automotive; national defence; and the public sector. The Group employs about 1850 persons and runs projects worldwide. Cybercom has 27 offices in 11 countries. Since 1999, Cybercom's share has been quoted on the OMX Nordic Exchange.
