**A/S SAF TEHNIKA  
CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2013**

## **Management Report**

### **Line of business**

The core business activity of SAF Tehnika AS (hereinafter – the Group) is the design, production and distribution of digital microwave transmission equipment. The Group offers comprehensive and cost-effective solutions of wireless broadband connections for digital transmission of voice and data to the operators of fixed and mobile networks and providers of data transmission both in the public and private sector as an alternative to cable channels.

### **Activities during the reporting year**

Net turnover of the Group in the 2012/ 2013 financial year was LVL 9.38 million (EUR 13.34 million) which represents a decrease by 3% comparing to the previous financial year. While the reporting year can be characterized by increasing global competition between producers of microwave transmission equipment, the Group managed to keep its customer base, meanwhile also attracting new customers by offering products according to market demands and highest quality standards. In addition, the Group developed customized solutions for particular client needs and provided support during installation and commissioning stages. Delays in the Group's supply chain and customer payments forced certain shipments to be put on hold, thus, affecting expected sales result.

Export represented 98.41% of turnover amounting to LVL 9.23 million (EUR 13.13 million). During the reporting period the products of the Group were exported to 86 countries in the world, three of which received the products of SAF for the first time.

Asia, Africa and Middle East regions has shown a 17% drop in total turnover accounting for comparatively smaller part (24%) for total revenue, whereas the Americas has been the only region that continued to show positive trends growing 21% on year-to-year basis and comprising 42% of the total Group's turnover. Although Europe, CIS region experienced strong results in the middle of FY 2012/ 2013, the annual revenue decreased by 13% while still retaining a strong portion (34%) from the total revenue. The continuously even split in revenues among the different regions has been the key element for maintaining stable revenue stream. This was achieved with the strong support provided by local partners as well as Group's offices and local SAF product warehouses in USA and Nigeria.

During reporting year the Group's *Lumina* products, apart from main Riga manufacturing site, were also produced at Siemens factory in Brazil, but due to closing of factory the production was ceased in September, 2013, after which the Group continues to make all further product deliveries from Riga factory.

The Group's export activities were supported by State agencies such as Latvian Guarantee Agency (LGA) which provided export credit guarantees committing to provide reimbursement in case foreign buyer does not make a contractual payment for the delivered goods or services in the specified time period. The Group also received support from Investment and Development Agency of Latvia (LIAA) in the form of co-financing for the Group's participation in industry exhibitions and for product development.

AfricaCom 2012 (Republic of South Africa), FutureCom 2012 (Brazil), CTIA Wireless 2013 (USA) and CeBIT 2013 (Germany) have to be mentioned as the most significant exhibitions SAF Tehnika participated in with the aim to strengthen the brand recognition and promote the SAF products in order to expand the customer and partner network. In addition, the Group increasingly introduced training programs on SAF Tehnika products and solutions via webinars and video tutorials, thus, focusing to reach broader audience and be more efficient in terms of receiving feedback and saving costs – both for client and the Group.

We are proud to mention that SAF Tehnika was acknowledged among 25 the best exporting brands of Latvia in the survey held in spring 2013 by branding professionals, Latvia Chamber of Commerce and Industry as well as Ministries of Economics and Foreign Affairs of Latvia.

The main CFIP product line retained the dominant share from total sales of the reporting year. CFIP *Lumina* proved to remain the flagship product, while other product modules, such as *Freemile*, *CFIP 108*, *Marathon* and *Phoenix* made a significant contribution to the bottom line. The Group still received orders for older *CFM line* which reflects that these products still can meet the needs of particular clients.

**A/S SAF TEHNIKA  
CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2013**

**Management report (continued)**

The establishment of local warehouse as well as sales EXW USA has been the main reason for increase in transportation and insurance expenses, marketing and various sales expenses reflected investments made into future sales, while delayed customer payments were reason for increased allowances for bad debts; in addition, unfavorable USD to LVL foreign exchange rates resulted in financial loss.

The Group's financial result of 2012/ 2013 was a loss of LVL 30 thousand (EUR 42 thousand).

Nevertheless, SAF Tehnika has retained financial stability. The audited net cash flow of the Group for 12 months was positive and amounted to LVL 646 thousand (EUR 919 thousand). In December 2012, the Parent company paid out dividends of LVL 0.1 per share amounting to LVL 297 thousand (EUR 423 thousand) in total.

During the reporting year the Group made investments in the amount of LVL 342 thousand (EUR 487 thousand) to acquire property, plant and equipment such as IT infrastructure, production and research equipment, as well as software and other licenses in order to improve manufacturing, R&D, testing and other company-wide processes. In addition Group invested in products certification.

**Research and development**

Continuous product development is the main driving force and success factor for the Group. During the reporting year the Group continued developing products for licensed and for the unlicensed frequencies by adding new features and customizing products for specific customer needs. New products are developed and designed not only being feature rich and cost effective in production and usage, but also designed to reduce installation and commissioning costs, which forms the largest part of expansion and operation expenses for communication networks. As a result, *Spectrum Compact* – the world's first powerful handheld microwave spectrum analyzer - and the new *Integra product line* were introduced. With Integra product, the Group was proud to introduce the next generation product characterized by integrated antenna and next-generation microwave radio with industry leading compact form factor. These products are expected to become substantial components of the Group's product portfolio, help acquiring a new customer segment and increase the Group's global market share.

**Future perspectives**

The Group has diversified its portfolio to become a unique market player among the global point-to-point microwave manufacturers, not only providing equipment and managed services, but also providing solution for radio field engineers with the launch of the SAF Spectrum Compact. The Group sees demand for installation and commissioning and managed services and will broaden its offerings in this direction. Meanwhile, the Group prepares for full market enrolment of the announced Integra product, which is designed to be system optimized for small cell backhaul and other dense urban applications. At the same time the Group continues extensive R&D activities for further developing the new product line and adding new features to the existing products.

The Group will continue the market strategy of focusing on strategic niche markets both for products and regions.

The Group remains financially stable and with positive outlook for the next operating periods; however the Board of the Parent company refrains from giving any forward-looking sales and financial result statements.

**A/S SAF TEHNIKA  
CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2013**

**Statement of the Board's responsibilities**

The Board of SAF Tehnika A/S (hereinafter – the Parent company) is responsible for preparing the consolidated financial statements of the Company and its subsidiaries (hereinafter – Group).

The financial statements set out on pages 10 to 45 are prepared in accordance with the source documents and present fairly the consolidated financial position of the Group as at 30 June 2013 and the results of its financial performance and cash flows for the year then ended.

The above mentioned financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the European Union on a going concern basis. Appropriate accounting policies have been applied on a consistent basis. Prudent and reasonable judgments and estimates have been made by the Management in the preparation of the financial statements.

The Board of SAF Tehnika A/S is responsible for the maintenance of proper accounting records, the safeguarding of the Group's assets and the prevention and detection of fraud and other irregularities in the Group. The Board is also responsible for compliance with requirements of normative acts of the countries where Group companies operate (Latvia and United States of America).

On behalf of the Board:

## **Independent Auditors' Report**

### **To the shareholders of A/S "SAF Tehnika"**

#### **Report on the Consolidated Financial Statements**

We have audited the accompanying consolidated financial statements of A/S "SAF Tehnika" and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as at 30 June 2013, the consolidated statements of profit and loss and other comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes, as set out on pages 9 to 45.

#### *Management's Responsibility for the Consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union and for such internal controls as management determines are necessary to enable the preparation of these financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditors' Responsibility*

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with relevant ethical requirements and plan and perform the audit to obtain reasonable assurance whether these financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of these financial statements, whether due to fraud or error. In making those risk assessments, we consider internal controls relevant to the Group's preparation and fair presentation of these financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal controls. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of accounting estimates made by the Group management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### *Opinion*

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the A/S "SAF Tehnika" and its subsidiaries as at 30 June 2013, and of its consolidated financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

### **Report on Other Legal and Regulatory Requirements**

In addition, our responsibility is to assess whether the accounting information included in the Consolidated Management Report, as set out on pages 4 to 5, the preparation of which is the responsibility of management, is consistent with the consolidated financial statements. Our work with respect to the Consolidated Management Report was limited to the aforementioned scope and did not include a review of any information other than drawn from the consolidated financial statements of the entity. In our opinion, the Consolidated Management Report is consistent with the consolidated financial statements.

**A/S SAF TEHNIKA  
CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2013**

## **Notes to the consolidated financial statements**

### **1. General information**

The core business activity of SAF Tehnika A/S (hereinafter – the Parent company) and its subsidiary (together hereinafter referred to as Group) is the design, production and distribution of microwave radio data transmission equipment offering an alternative to cable channels. The Group offers products to mobile network operators, data service providers (such as Internet service providers and telecommunications companies), as well as state institutions and private companies.

Promotion of the Parent's products and services, marketing, market research, attraction of new clients and technical support in North America is provided by a 100% subsidiary SAF North America LLC.

In August 2012 another company began operations in North America - SAF Services LLC in which the Parent company holds 50% shares (joint venture arrangement). The objective of establishing SAF Services LLC was to provide local clients with services connected with the creation, long-term maintenance and management of data transmission networks. Both of these companies are registered in the USA and operate in Denver, Colorado.

The Parent company is a public joint stock company incorporated under the laws of the Republic of Latvia. Its legal address is Ganību dambis 24a, Rīga, Republic of Latvia.

The shares of the Parent company are listed on NASDAQ OMX Riga Stock Exchange, Latvia.

These consolidated financial statements (hereinafter – financial statements) were approved by the Parent company's Board on 25 October 2013. The financial statements will be presented for approval to the shareholders' meeting. The shareholders have the power to reject the financial statements prepared and issued by management and the right to request that new financial statements be issued.

### **2. Summary of accounting principles used**

These consolidated financial statements are prepared using the accounting policies and valuation principles set out below. These policies have been applied consistently to all the years presented, unless otherwise stated.

The previous set of consolidated financial statements was prepared for the financial year ended 30 June 2012.

#### **A Basis of preparation**

These financial statements have been prepared in accordance with the International Financial Reporting Standards as adopted by the European Union (IFRSs). The financial statements have been prepared under the historical cost convention (including financial instruments available-for-sale as it is impracticable to determine their fair value).

*Standards, amendments to standards and interpretations that became effective on or after 1 July 2012 and are applicable to financial statements for year ending on 30 June 2013:*

**Amendments to IAS 1 Presentation of Financial Statements: Presentation of Items of Other Comprehensive Income** (effective for annual periods beginning on or after 1 July 2012; to be applied retrospectively) The amendments require that the Group presents separately the items of other comprehensive income that may be reclassified to profit or loss in the future from those that would never be reclassified to profit or loss. If items of other comprehensive income are presented before related tax effects, then the aggregated tax amount should be allocated between these sections. The amendments change the title of the Statement of Comprehensive Income to Statement of Profit or Loss and Other Comprehensive Income; however, other titles are also allowed to be used. The Group has adopted these amendments to IAS 1 early, i.e. from 1 July 2011. Prior to the amendments the Group used the name Statement of Profit and Loss which was renamed to the Statement of Profit and Loss and Other Comprehensive Income. Adopting the amendments from 1 July 2012, the Group has the following items of the other comprehensive income to be presented as items that may be reclassified to profit or loss in the future: LVL 51 (EUR 73) recognized in the foreign currency translation reserve. The Group does not have any other items of other comprehensive income at the date of initial application.

**A/S SAF TEHNIKA  
CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2013**

**Notes to the Consolidated financial statements (continued)**

**2. Summary of accounting principles used (continued)**

**A Basis of preparation (continued)**

**B Consolidation**

*(a) Subsidiaries*

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

*(b) Joint ventures*

The Group's interests in equity-accounted investees comprise interest in a joint venture.

A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in the joint venture are accounted for using the equity method. They are recognized initially at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of equity-accounted investees, until the date on which joint control ceases.

Subsidiaries and joint ventures controlled by the Parent company:

	Residence country	Number of shares	Subsidiary and joint venture's equity		Subsidiary and joint venture's losses	
			30.06.2013	30.06.2012	2012/ 2013	2011/2012
			LVL	LVL	LVL	LVL
„SAF North America” LLC	United States of America	100%	13 076	1 240	(4 323)	(4 380)
„SAF Services” LLC	United States of America	50%	9 912	-	(32 963)	-

The accounting policies of subsidiaries were changed when necessary in order to ensure consistency with those of the Group.

*(c) Transactions eliminated on consolidation*

Internal transactions, account balances and unrealized gains from transactions between the Group companies are eliminated. Unrealized gains are also eliminated unless objective evidence exists that the asset involved in the transaction has impaired. Unrealized gains arising from transactions with a joint venture are also eliminated.

**C Foreign currency revaluation**

*(a) Functional and reporting currency*

Items of each structural unit of the Group included in the financial statements of the Group are measured using the currency of the primary economic environment in which the structural unit operates ('the accounting currency'). The financial statements are presented in Latvian Lats (LVL), which is the Group's functional currency.

The requirements of Riga Stock Exchange prescribe that all balances should also be reported in EUR. Using EUR as the presentation currency, the statement of profit and loss and other comprehensive income and the related notes were denominated in LVL according to the exchange rates set by the Bank of Latvia at the transaction date, whereas the statement of financial position and the related notes were revalued according to the exchange rates set by the Bank of Latvia at the reporting date. The translation of the financial statements into EUR has not resulted in foreign exchange gains or losses as the Latvian lat is pegged to EUR at the exchange rate of EUR 1 = LVL 0.702804.

**A/S SAF TEHNIKA  
CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2013**

**Notes to the Consolidated financial statements (continued)**

**2. Summary of accounting principles used (continued)**

**C Foreign currency revaluation (continued)**

*(b) Transactions and balances*

Transactions denominated in foreign currency are recorded at functional currency at the transaction date. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss. The following Bank of Latvia Exchange rates were effective as at following dates:

	<b>30.06.2013.</b>	<b>30.06.2012.</b>
	<b>LVL</b>	<b>LVL</b>
1 USD	0.539000	0.562000
1 EUR	0.702804	0.702804
1 GBP	0.827000	0.876000

*(c) Group companies*

The results of operations and the financial position of the Group companies (none of which are operating in hyperinflation economics) that operate with functional currencies other than the reporting currency are translated to the reporting currency as follows:

- (i) Assets and liabilities are converted according to exchange rate as at the date of statement of financial position;
- (ii) Transactions of the statement of profit and loss and other comprehensive income are revalued according to exchange rate as at the date of transaction; and
- (iii) all currency exchange differences are recognized as a separate item of equity.

**D Property, plant and equipment**

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenses directly related to acquisition of property, plant and equipment. Such cost includes the cost of replacing part of such plant and equipment if the asset recognition criteria are met.

Leasehold improvements are capitalized and disclosed as property, plant and equipment. Depreciation of these assets is calculated over the shorter of the leasehold period or the estimated useful life on a straight line basis.

Where an item of property, plant and equipment has different useful life as the other items of the same property, plant and equipment, they are accounted for as separate items of property, plant and equipment.

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment is recognised in the profit or loss statement as incurred.

Maintenance costs of tangible assets are recognized in the profit and loss statement as incurred.

Depreciation is calculated on a straight-line basis to write down each asset to its estimated residual value over its estimated useful life using the following rates:

	% per year
Mobile phones	50
Equipment	33.33
Vehicles	20
Other equipment and machinery	25

Capital repair costs on leased Property, plant and equipment are written off on a straight line basis during the shortest of the useful lifetime of the capital repairs and the period of lease.

The assets residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each reporting date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount exceeds its estimated recoverable amount (see Note G).

**A/S SAF TEHNIKA  
CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2013**

**Notes to the Consolidated financial statements (continued)**

**2. Summary of accounting principles used (continued)**

**D Property, plant and equipment (continued)**

Gains and losses on disposals are determined by comparing proceeds with the respective carrying amount and included in the profit or loss statement.

**E Intangible assets**

*(a) Trademarks and licenses*

Trademarks and licenses have a definite useful life and are carried at cost less accumulated amortisation and any accumulated impairment losses. Amortisation is calculated on a straight-line basis to allocate the costs of trademarks and licenses over their estimated useful life, which usually is 3 years.

*(b) Software*

The acquired software licenses are capitalised on the basis of the purchase and installation costs. These costs are amortised over their estimated useful lives of three years.

**F Cost of research and development activities**

Research costs are recognized in profit and loss statement as incurred. An intangible asset arising from the development expenditure on an individual project is recognized only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intentions to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete and the ability to measure reliably the expenditure during the development. Following the initial recognition of the development expenditure, the cost model is applied requiring the asset to be carried at cost less any accumulated amortisation and impairment losses. Any expenditure capitalized is amortized over the period of the expected future sales from the related project.

**G Impairment of non – current assets**

Intangible assets that are not put in use or have an indefinite useful life are not subject to amortisation and are reviewed for impairment on an annual basis.

Moreover, the carrying amounts of the Group's property, plant and equipment and intangible assets that are subject to amortisation and depreciation are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amount of the assets in the unit (group of unit) on a pro rata basis.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset in relation to which the future cash flows have not been adjusted.

All Group's assets are allocated to two cash generating units that are identified as Group's operating segments (see note 17). There have been no impairment indicators noted.

In respect of non-current assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Any impairment loss reversed is only reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

**A/S SAF TEHNIKA**  
**CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2013**

**Notes to the Consolidated financial statements (continued)**

**2. Summary of accounting principles used (continued)**

**H Segments**

Information on the Group's operating segments is disclosed in Note 16. Segment results that are reported to the Chief Executive Officer include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets (primarily the Group's headquarters), head office expenses, and tax assets and liabilities.

**I Government grants**

Government grants are recognized where there is a reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognized as income over the period necessary to match the grant on a systematic basis to the costs that it is intended to compensate. Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to the profit or loss statement over the expected useful life of the relevant asset by equal annual instalments.

**J Stock**

Stock is stated at the lower of cost or net realizable value. Cost is valued based on the FIFO method. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs necessary to make the sale. Costs of finished goods and work-in-progress include cost of materials, personnel and depreciation.

**K Financial instruments**

The Group's financial instruments consist of trade receivables, equity-accounted investees, investments in other companies' equity, other receivables, cash and cash equivalents, borrowings, trade payables and other payables and derivatives. Investments in other companies' equity are classified as available for sale. All other financial assets except for equity-accounted investees and derivatives are classified as loans and receivables but liabilities – as liabilities at amortised cost.

Financial instruments except for derivatives are initially recognised at fair value plus directly attributable transaction costs.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognized if the Group's obligations specified in the contract expire or are discharged or cancelled.

*Loans, receivables and other debts*

Loans and receivables and other debts are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, other than held for trading. Loans and receivables are stated at their amortized cost after deducting allowance for estimated irrecoverable amounts. Amortized cost is determined using the effective interest rate method, less any impairment losses. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset. When calculating the effective interest rate, the Group estimates future cash flows considering all contractual terms of the financial instruments. An impairment allowance for impairment of loans and receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the loan or trade receivable is impaired. The amount of the allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in the profit or loss statement. When a loan, receivables and other debts are uncollectible, it is written off.

**A/S SAF TEHNIKA  
CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2013**

**Notes to the Consolidated financial statements (continued)**

**2. Summary of accounting principles used (continued)**

**K Financial instruments (continued)**

*Available for sale financial investments*

Financial investments available-for-sale are acquired to be held for an indefinite period of time. Financial investments, whose market value is not determined in an active market and whose fair value cannot be reliably measured, are carried at acquisition cost. All other financial investments available-for-sale are carried at fair value. Gains or losses resulting from the change in fair value of financial investments available-for-sale, except for impairment losses, are recognised in other comprehensive income until the financial asset is derecognised; thereafter, the cumulative gain or loss previously recognised in other comprehensive income is recognised in profit or loss.

*Liabilities*

Liabilities are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method.

Please see note 3 (2) for the description of accounting policy for derivatives.

**L Cash and cash equivalents**

Cash and cash equivalents comprise current bank accounts balances and deposits, and short term highly liquid investments with an original maturity of three months or less.

**M Share capital**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are charged against the share premium account.

**N Corporate income tax and Deferred tax**

Corporate income tax comprises current and deferred tax.

The calculated current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred taxation arising from temporary differences between carrying amounts for accounting purposes and for tax purposes is calculated using the liability method. However, if the deferred tax arises from initial recognition of an asset or liability in a transaction other than a business acquisition that at the time of the transaction affects neither accounting, non-taxable profit or loss, it is not accounted for. Deferred tax is determined using tax rates (and laws) that have been enacted by the financial position date and are expected to apply when the related deferred tax asset is realised or the deferred income tax liability is settled. Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Income taxes are recognized through profit or loss unless they relate to items recognized directly in equity.

**O Employee benefits**

The Group makes social insurance contributions under the State's health, retirement benefit and unemployment schemes at the statutory rates in force during the year, based on gross salary payments. The Group will have no legal or constructive obligations to pay further contributions if the statutory fund cannot settle their liabilities towards the employees. The cost of these payments is included into the profit or loss statement in the same period as the related salary cost.

**A/S SAF TEHNIKA  
CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2013**

**Notes to the Consolidated financial statements (continued)**

**2. Summary of accounting principles used (continued)**

**P Revenue recognition**

Revenue comprises the fair value of the goods and services sold, net of value-added tax and discounts. Revenue is recognised as follows:

*(a) Sales of goods*

Sale of goods is recognised when a Group entity has passed the significant risks and rewards of ownership of the goods to the customer, i.e. delivered products to the customer and the customer has accepted the products in accordance with the contract terms, and it is probable that the economic benefits associated with the transaction will flow to the Group.

*(b) Provision of services*

Revenue is recognised in the period when the services are rendered.

**Q Lease**

Leases of property, plant and equipment in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the profit or loss statement on a straight-line basis over the lease period.

**R Payment of dividends**

Dividends payable to the Parent company's shareholders are recognised as a liability in the Group's financial statements in the period in which the dividends are approved by the Parent company's shareholders.

**S Financial income and expenses**

Financial income and expenses comprise interest payable on borrowings calculated using the effective interest rate method, interest receivable on funds invested, and foreign exchange gains and losses. Interest income is recognised in the income statement as it accrues, using the effective interest method. The interest expenses of finance lease payments are recognized in profit or loss using the effective interest rate method.

**T New standards and interpretations not yet adopted**

The following new Standards and Interpretations are not yet effective for the annual period beginning 1 July 2012 and have not been applied in preparing these financial statements:

- Amendments to IFRS 7 and IAS 32 on *Offsetting Financial Assets and Financial Liabilities*

Amendments to IFRS 7 Disclosures (effective for annual periods beginning on or after 1 January 2013; to be applied retrospectively) contain new disclosure requirements for financial assets and liabilities that are offset in the statement of financial position or subject to master netting arrangements or similar agreements.

*Amendments to IAS 32* (effective for annual periods beginning on or after 1 January 2014; to be applied retrospectively) clarify that an entity currently has a legally enforceable right to set-off if that right is not contingent on a future event and enforceable both in the normal course of business and in the event of default, insolvency or bankruptcy of the entity and all counterparties.

The Group does not expect the Amendments to have any impact on the financial statements since the Group does not apply offsetting to any of their financial assets and financial liabilities and have not entered into master netting arrangements.

**A/S SAF TEHNIKA  
CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2013**

**Notes to the Consolidated financial statements (continued)**

**2. Summary of accounting principles used (continued)**

**T New standards and interpretations not yet adopted (continued)**

- IFRS 10 *Consolidated Financial Statements*, IFRS 11 *Joint Arrangements*, IFRS 12 *Disclosure of Interests in Other Entities* (effective for annual periods beginning on or after 1 January 2014; to be applied retrospectively). IFRS 10 provides a single model to be applied in the control analysis for all investees, including entities that currently are SPEs in the scope of SIC-12. IFRS 10 introduces new requirements to assess control that are different from the existing requirements in IAS 27 (2008). Under the new single control model, an investor controls an investee when:

- (1) it is exposed or has rights to variable returns from its involvements with the investee;
- (2) it has the ability to affect those returns through its power over that investee; and
- (3) there is a link between power and returns.

The new IFRS 10 also includes the disclosure requirements and the requirements relating to the preparation of consolidated financial statements.

Under the new IFRS 11, joint arrangements are divided into two types, each having its own accounting model defined as follows:

- a joint operation is one whereby the jointly controlling parties, known as the joint operators, have rights to the assets, and obligations for the liabilities, relating to the arrangement.
- A joint venture is one whereby the jointly controlling parties, known as joint venturers, have rights to the net assets of the arrangement.

IFRS 11 effectively carves out from IAS 31 jointly controlled entities those cases in which, although there is a separate vehicle for the joint arrangement, separation is ineffective in certain ways. These arrangements are treated similarly to jointly controlled assets/operations under IAS 31, and are now called joint operations. IFRS 11 eliminates the free choice of equity accounting or proportionate consolidation; the equity method must always be used in financial statements.

IFRS 12 requires additional disclosures relating to significant judgements and assumptions made in determining the nature of interests in an entity or arrangement, interests in subsidiaries, joint arrangements and associates and unconsolidated structured entities.

The Group did not complete the assessment of the impact of these new standards on the Group's operations.

- IFRS 13 *Fair Value Measurement* (effective prospectively for annual periods beginning on or after 1 January 2013). IFRS 13 replaces the fair value measurement guidance contained in individual IFRSs with a single source of fair value measurement guidance. It defines fair value, establishes a framework for measuring fair value and sets out disclosure requirements for fair value measurements. IFRS 13 explains 'how' to measure fair value when it is required or permitted by other IFRSs.

The Group does not expect IFRS 13 to have a material impact on the financial statements since management considers the methods and assumptions currently used to measure the fair value of assets to be consistent with IFRS 13.

**A/S SAF TEHNIKA  
CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2013**

**Notes to the Consolidated financial statements (continued)**

**2. Summary of accounting principles used (continued)**

**T New standards and interpretations not yet adopted (continued)**

- Amendments to IAS 12: *Deferred Tax: Recovery of Underlying Assets* (effective for annual periods beginning on or after 1 January 2013; to be applied retrospectively). The amendments introduce a rebuttable presumption that the carrying value of investment property measured using the fair value model would be recovered entirely by sale. Management's intention would not be relevant unless the investment property is *depreciable* and held within a business model whose objective is to consume substantially all of the asset's economic benefits over the life of the asset. This is the only instance in which the presumption can be rebutted.

The amendments are not relevant to the Group's financial statements, since the Group does not have any investment properties measured using the fair value model in IAS 40.

- IAS 19 (2011) *Employee Benefits* (effective for annual periods beginning on or after 1 January 2013; to be applied retrospectively. Transitional provisions apply). The amendment requires actuarial gains and losses to be recognized immediately in other comprehensive income. The amendment removes the corridor method previously applicable to recognizing actuarial gains and losses, and eliminates the ability for entities to recognize all changes in the defined benefit obligation and in plan assets in profit or loss, which currently is allowed under the requirements of IAS 19. The amendment also requires the expected return on plan assets recognized in profit or loss to be calculated based on rate used to discount the defined benefit obligation.

The amendments are not relevant to the Group's financial statements, since the Group does not have any defined benefit plans. Other amendment impact is still being assessed by the Group.

- IAS 28 (2011) *Investments in Associates and Joint Ventures* (Amendments effective for annual periods beginning on or after 1 January 2014; to be applied retrospectively). There are limited amendments made to IAS 28 (2008):
  - *Associates and joint ventures held for sale.* IFRS 5, *Non-current Assets Held for Sale and Discontinued Operations* applies to an investment, or a portion of an investment, in an associate or a joint venture that meets the criteria to be classified as held for sale. For any retained portion of the investment that has not been classified as held for sale, the equity method is applied until disposal of the portion held for sale. After disposal, any retained interest is accounted for using the equity method if the retained interest continues to be an *associate or a joint venture*.
  - *Changes in interests held in associates and joint ventures.* Previously, IAS 28 (2008) and IAS 31 specified that the cessation of significant influence or joint control triggered remeasurement of any retained stake in all cases, even if significant influence was succeeded by joint control. IAS 28 (2011) now requires that in such scenarios the retained interest in the investment is not remeasured.

The Group did not complete the assessment of the impact of these new standards on the Group's operations.

**CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2013**

**Notes to the Consolidated financial statements (continued)**

**3. Financial risk management**

**(1) Financial risk factors**

The Group's activities expose it to a variety of financial risks:

- (a) foreign currency risk;
- (b) credit risk;
- (c) liquidity risk;
- (d) interest rate risk.

The Group's overall risk management focuses on the unpredictability of financial markets and seeks to minimise its potential adverse effects on the Group's financial performance. The Group uses derivative financial instruments to hedge certain risk exposures. The responsibility for risk management lies with the Finance Department. The Finance Department identifies and evaluates risks and seeks for solutions to avoid financial risks in close co-operation with other operating units of the Group. Financial risks are managed both on Parent company and consolidated level.

*(a) Foreign currency risk*

The Group operates internationally and is exposed to foreign currency risk arising mainly from fluctuations of the U.S. dollar.

Foreign currency risk arises primarily from future commercial transactions and recognised assets and liabilities. To manage the foreign currency risk arising from future commercial transactions and recognised assets and liabilities, the Group uses forward foreign currency contracts. Foreign currency risk arises when future commercial transactions and recognised assets and liabilities are denominated in a currency different from the Group's functional currency. The Finance Department analyses the net open position in each foreign currency. The Group might decide to enter to forward foreign currency contracts or to maintain borrowings (in form of credit line) in appropriate currency and amount.

The following schedule summarises net open positions for currencies other than LVL as at the reporting date:

	<b>30/06/2013</b>	<b>30/06/2012</b>	<b>30/06/2013</b>	<b>30/06/2012</b>

**A/S SAF TEHNIKA  
CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2013**

**Notes to the Consolidated financial statements (continued)**

**3. Financial risk management (continued)**

**(1) Financial risk factors (continued)**

*Sensitivity analysis*

A 10 percent weakening of the lat against the USD and a 1 percent weakening of the lat against the EUR on 30 June would have increased (decreased) profit or loss and equity by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis for 2011/2012 was performed on the same basis. The Latvian lat was pegged to Euro as at 30 June 2012 and 30 June 2013.

	2012/ 2013 Effect in LVL	2011/ 2012 Effect in LVL	2012/ 2013 Effect in EUR	2011/ 2012 Effect in EUR
USD	206 316	94 665	293 562	134 695
EUR	19 673	28 316	27 993	40 291
	<b>225 989</b>	<b>122 981</b>	<b>321 555</b>	<b>174 986</b>

*(b) Credit risk*

The Group has significant exposure of credit risk with its customers. The Group's policy is to ensure that wholesale of products is carried out with customers having appropriate credit history. If the customers are residing in countries with high credit risk, then Letters of Credit issued by reputable credit institutions are used as credit risk management instruments. In situations where no Letters of Credit can be obtained from reputable credit institutions, the prepayments from the customers are requested or State Export Guarantees purchased. Customers' financial position is monitored on regular bases and assigned credit limits has been changed based on credit history and customer's paying behaviour.

As at 30 June 2013, the Group's credit risk exposure to a single customer amounted to 13.63% of the total short and long-term receivables (30 June 2012: 14.43%). With respect to credit risk arising from the other financial assets of the Group, which comprise cash and cash equivalents, the Group's exposure to credit risk arises from the default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. The Group's maximum credit risk exposure amounts to LVL 4 991 546 or 57.13% of total assets (30 June 2012: LVL 5 003 202 or 57.84% of total assets).

For more information on the Group's exposure to credit risk please refer to Note 8.

*(c) Liquidity risk*

The Group follows a prudent liquidity risk management and hence maintain a sufficient quantity of liquid funds. The current ratio of the Group is 5.3 (30.06.2012: 6.9), quick ratio is 3.3 (30.06.2012: 4.3). The Group's management monitors liquidity reserves for the operational forecasting, based on estimated net cash flows. Most of the Group's liabilities are short term.

Management believes that the Group will have sufficient liquidity to be generated from operating activities and does not see significant exposure to credit risk.

For more information on the Group's exposure to liquidity risk please refer to note 14.

*(d) Interest rate risk*

As the Group does not have significant interest bearing liabilities, thus the Group's cash flows and net results are largely independent of changes in market interest rates. The Group's cash flows from interest bearing assets are dependent on current market interest rates; however as the Group mainly has short-term interest-bearing assets, the exposure is not significant.

**A/S SAF TEHNIKA  
CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2013**

**Notes to the Consolidated financial statements (continued)**

**3. Financial risk management (continued)**

**(2) Accounting for derivative financial instruments**

The Group uses derivative financial instruments such as forward currency contracts to hedge its risks associated with foreign currency fluctuations. Such derivative financial instruments are initially recognized at fair value on the date on which derivative contract is entered to and are subsequently remeasured at fair value through profit and loss. All derivatives are carried as assets when their fair value is positive and as liabilities when negative. The fair value of forward currency contracts is calculated by reference to current forward exchange rates for contracts with similar maturity profiles.

Any gains or losses arising from changes in fair value of derivatives that do not qualify as hedge accounting are taken directly to profit or loss for the year.

As at 30 June 2012 the Group did not have any open derivative financial instruments contracts.

**(3) Fair value**

The carrying amounts of financial assets and liabilities of the Group do not significantly differ from fair value, as the influence of the discounting factor for short term financial instruments is minor, and as the long term instruments bear no fixed interest rates, or the interest rates of those approximately correspond to the market rates effective 30 June 2013. Fair value of the financial instrument available for sale cannot be measured.

**4. Management of the capital structure**

The Group manages its capital to ensure that the Group will be able to continue as a going concern while maximizing the return to stakeholders through the optimization of the debt and equity balance. The capital structure indicator of the Group consists of debt, which includes the borrowings disclosed in note 15, cash and cash equivalents and equity, comprising issued capital, retained earnings and share premium. The gearing ratio at the year-end was as follows:

	<b>30/06/2013</b>	<b>30/06/2012</b>	<b>30/06/2013</b>	<b>30/06/2012</b>
	<b>LVL</b>	<b>LVL</b>	<b>EUR</b>	<b>EUR</b>
Debt	1 479 231	1 151 969	2 104 758	1 639 105
Cash	(1 974 385)	(1 328 770)	(2 809 297)	(1 890 669)
<b>Net debt</b>	<b>(495 154)</b>	<b>(176 801)</b>	<b>(704 539)</b>	<b>(251 564)</b>
<b>Shareholders' equity</b>	<b>7 171 004</b>	<b>7 497 650</b>	<b>10 203 418</b>	<b>10 668 194</b>
Debt to equity ratio	21%	15%	21%	15%
Net debt to equity ratio	-7%	-2%	-7%	-2%

The current year losses will be covered by retained earnings from previous years.

**A/S SAF TEHNIKA  
CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2013**

**Notes to the Consolidated financial statements (continued)**

**5. Key estimates and assumptions**

The management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

*Recoverable amount and impairment of non-current assets*

When the events and circumstances indicate a potential impairment, the Group performs impairment tests for items of property, plant and equipment and intangible assets. According to these tests assets are written down to their recoverable amounts, if necessary. When carrying out impairment tests management uses various estimates for the cash flows arising from the use of the assets, sales, maintenance, and repairs of the assets, as well as in respect of the inflation and growth rates. If the situation changes in the future, either additional impairment could be recognised, or the previously recognised impairment could be partially or fully reversed. See also note 2G.

*Impairment of loans and receivables*

The Group recognizes allowances for doubtful loans and receivables. In order to set unrecoverable amount of receivables, management estimates the basis of which is the historical experience are used. Allowances for doubtful debts are recognized based on an individual management assessment of recoverability of each receivable. See also note 2K.

*Useful lives of property, plant and equipment*

Management estimates the expected useful lives of property, plant and equipment in proportion to the expected duration of use of the asset based on historical experience with similar property, plant and equipment and based on future plans. Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Depreciation of property, plant and equipment is calculated over the shortest period – lease term or over the useful life. No depreciation is calculated for land. See also note 2D.

*Provisions*

Provisions are recognized when the Group has a present legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required from the Group to settle the obligation, and the amount of obligation can be measured reasonably. If the Group foresees that the expenses required for recognizing the provision will be partly or fully repaid, for example, within an insurance contract, the recovery of such expenses is recognized as separate assets only when it is certain that such expenses will be recovered. Expenses connected with any provisions are recognized in the profit or loss statement less recovered amounts.

As at the reporting date, the following provisions were recognized:

- provisions for potential warranty expenses are recognized based on the management assessment of the risk of expected warranty repairs relating to the concluded contracts.
- accrued liabilities for unused vacations are calculated in accordance with the number of vacation days unused as at 30 June 2013 and the average remuneration during the last six months of the reporting year.
- provision for bonuses is calculated in accordance with the procedures approved by management.

*Recognition of deferred tax asset*

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised. See also note 2M.

During the reporting year, the Group did not enter into any operating or finance lease agreements.

Depreciation of LVL 135 586 is included in the profit or loss statement item Cost of sales (2011/ 2012: LVL 145 637); depreciation of LVL 111 684 in Sales and marketing costs (2011/ 2012: LVL 70 898); and depreciation of LVL 39 742 in Administrative expenses (2011/ 2012: LVL 30 758), including depreciation of LVL 742 under Other administration expenses (2011/ 2012: LVL 21).

The acquisition costs of fully depreciated property, plant and equipment that is still in use at the reporting date amounted to LVL 2 711 863 (2011/ 2012: LVL 2 733 318).

The *Equipment and machinery* group includes items bought with EU co-financing and according to the agreement with the EU have restrictions in their usage in operations. In total cost of such items amount to LVL 45 670 (2011/ 2012: LVL 304 043), the carrying amount of PPE as at 30 June 2013 is LVL 10 413 (2011/ 2012: LVL 25 635). The restrictions apply until December 2014.

Other long-term assets include property, plant and equipment under construction.

Unrecognized temporary differences	95 502	(32 502)	63 000	12 988	75 988
<b>Deferred tax (asset), net</b>	<b>(103 915)</b>	<b>(27 785)</b>	<b>(131 700)</b>	<b>8 506</b>	<b>(123 194)</b>

Deferred income tax asset for the Group is recognised to the extent that the realisation of the related tax benefit through the future taxable profits is probable. Management believes that there is reasonable assurance that taxable profits in the next taxation periods will be sufficient to recover the recognized deferred tax asset in full.

CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2013**

**Notes to the Consolidated financial statements (continued)**

**17. Segment information and sales**

a) The Group's operations are divided into two major structural units:

- SAF branded equipment designed and produced in-house – CFM (Hybrid/ PDH Radios), CFIP (Etherent/Hybrid/ superPDH systems) and FreeMile (Hybrid Radios for unlicensed frequency bands) as the first structural unit.

**CFIP** - product line is represented by 4 respectable models:

- a split configuration (IDU+ODU) Phoenix hybrid radio system with Gigabit Ethernet + 20 E1 interfaces;
- Lumina high capacity Full Outdoor all-in-one radio with Gigabit Ethernet traffic interface;
- economic CFIP-108 radio system with Ethernet and 4xE1 ports - perfect for upgrade of E1 networks into packet data networks.
- Marathon FIDU low frequency low capacity system for servicing rural and industrial applications.

All CFIP radios are offered in most widely used frequency bands from 1.4 to 38 GHz, thus enabling the use of CFIP radios all across the globe.

CFIP Phoenix radio represents the type of microwave radio which is taking the commanding role on the market at present.

Full Outdoor units of Lumina and 108 modifications are of growing and developing radio type 'all-in-one' which has biggest potential as part of future data/packet networks.

**CFM** microwave radio product line has been the main type of radio SAF, however, demand for these products is decreasing. Nevertheless, such medium capacity, simple yet extremely reliable and feature rich radio forms the basis of many new deployments in the areas of rapid development of telecom networks.

**FreeMile** product line consists of 3 model radio for unlicensed 5.8, 17 and 24 GHz frequency bands, in more and more countries these frequencies become available to clients and usage of such equipment is becoming more common.

- Operations related to sales of products purchased from other suppliers, like Antennas, cables, in SAF name renamed (OEMed) products and different accessories - as the second unit.

**28. Related party transactions**

Related parties represent both legal entities and private individuals related to the Group in accordance with the following rules.

- a) A person or a close member of that person's family is related to a reporting group entity if that person:
  - i. has control or joint control over the reporting group entity;
  - ii. has a significant influence over the reporting group entity; or
  - iii. is a member of the key management personnel of the reporting group entity or of a parent of the reporting entity.
- b) An entity is related to a reporting group entity if any of the following conditions applies:
  - i. The entity and the reporting group entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - ii. One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
  - iii. Both entities are joint ventures of the same third party.
  - iv. One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
  - v. The entity is a post-employment benefit plan for the benefit of employees of either the reporting group entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
  - vi. The entity is controlled, or jointly controlled by a person identified in (a).
  - vii. A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

Related party transaction - a transfer of resources, services or obligations between a reporting entity and a related party, regardless of whether a consideration is determined.
