Cybercom signs 1-year contract extension with Linköpings Kommun

Cybercom received an extension of its contract with the Linköping municipality for project management and support services.

"Extension of the Linköpings Kommun contract is aligned with our strategy for expansion into the public sector," say Peter French, key account manager at Cybercom Sweden West. "Cybercom has a strong proposition for Sweden's county councils and municipalities. Within a very short time, Cybercom won contracts with county councils in Stockholm and Jämtland plus the Linköping contract."

The public sector faces rigorous challenges regarding increased cost-effective solutions and IT support availability. Cybercom's extended frame agreement/contract with Linköpings Kommun is for project management and support.
