Item 18:

A. Long-term performance-based incentive program

The program in brief

The Board proposes that the AGM resolve to introduce a long-term performance-based incentive program for senior executives and key personnel within the NCC Group ("LTI 2014"). In all significant respects, this motion complies

with the long-term performance-based incentive program adopted by the AGM on April 9, 2013. The Board is of the opinion that incentive programs of this type are of benefit to the company's long-term development. The purpose of LTI 2014 is to ensure a focus on the company's long-term return on equity and to minimize the number of worksite accidents.

It is proposed that LTI 2014 encompass a total of approximately 150 participants within the NCC Group. LTI 2014 is a three-year performance-based program under which the participants will be allotted, free of charge, performance-based share awards that provide entitlement to Series B shares and to performance-based synthetic shares that provide entitlement to cash remuneration in accordance with the terms, conditions and principles described below. In view of the introduction of LTI 2014, the maximum short-term variable remuneration payable to the CEO and other members of the Executive Management Group will be adjusted in the manner stipulated in Item 17 above. For other participants in LTI 2014, the maximum short-term variable remuneration will be reduced by 5 or 10 percentage points.

Terms and conditions for share awards and synthetic shares

Share awards and synthetic shares are subject to the following terms and conditions:

- Share awards and synthetic shares will be allotted free of charge following the AGM.
- Share awards or synthetic shares may not be transferred or pledged.
- Each share award provides the holder with entitlement, free of charge, to receive one Series B share in the company three years after allotment of the share award ("**the Vesting Period**").
- Following the Vesting Period, each synthetic share will entitle the holder to receive cash payment corresponding to the price of the NCC Series B share at the date of payment.
- A prerequisite for entitlement to receive shares on the basis of share awards or receive cash payment on the basis of synthetic shares, subject to certain exceptions, is that the participant at the time of

NCC's interim report on the first quarter of 2017 is still employed by the NCC Group.

- In order to equate the participants' interests with those of the shareholders, the company will compensate the participants should dividends paid during the Vesting Period exceed the level stipulated in NCC's dividend policy by paying them a corresponding cash amount.
- Share awards or synthetic shares may be issued by the company or other Group companies.

Performance targets

The number of shares and the cash amount that is eventually received depends on the extent to which certain predetermined targets are achieved during the Vesting Period. The targets that have been established for LTI 2014 comprise the average return on equity in relation to eight benchmark companies during the years 2014–2016 as well as a reduction in the number worksite accidents by year-end 2016. Performance targets for allotment of shares and the payment of cash include both a threshold that has to be achieved for any allotment or payment to be made at all, and a ceiling, above which no additional allotment or payment will occur. The outcome between the threshold and the ceiling is linear. For any payment from LTI 2014, a further requirement is that the NCC Group report a pretax profit. The performance targets will be measured during the period January 1, 2014 through December 31, 2016.

Allotment

The participants are divided into three categories: CEO; other members of the Executive Management Group business area management and other key personnel. The number of share awards and synthetic shares that a participant may be allotted depends on the participants' gross annual salary and the category to which the participant belongs.

For each participant, the Board of Directors establishes an allotment value relative to the participant's annual salary. The allotment value is 50 percent of annual salary for the CEO, 30 percent of annual salary for other members of the Executive Management Group and either 15 percent or a maximum of 30 percent of annual salary for other key personnel. The share price that is to form the basis for calculating the number of share awards and synthetic shares is to correspond to the average last price paid during a period of ten trading days immediately following the date of the 2014 AGM, a period when the share is traded ex-rights to dividends. The share price is thereafter divided by the individual allotment value in order to arrive at the total number

of awards per participant, of which half will be allotted in the form of share awards and half in the form of synthetic shares.

Reason for the motion

The purpose of LTI 2014 is to ensure a focus on NCC's long-term return on equity, to provide prerequisites for retaining and recruiting key personnel, to provide competitive remuneration and to enhance the community of interests among shareholders and key personnel by encouraging the ownership of shares in the company. An additional reason for LTI 2014 is to minimize the number of worksite accidents in the NCC Group. Against this background, the Board of Directors believes that the introduction of LTI 2014 will have a positive impact on the Group's continued development and that LTI 2014 will thus benefit both the shareholders and the company.

Design and management

Within the framework of the specified terms, conditions and guidelines, the Board of Directors is to be responsible for the more detailed design and management of LTI 2014. In this connection, the Board is to be entitled to make any adjustments required to fulfill special regulations or market conditions outside Sweden.

The Board is also to be entitled to make any other adjustments should material changes occur in the NCC Group or its business environment that would entail that the decided terms and conditions for allotment and the opportunity to exercise the share awards or the synthetic shares in accordance with LTI 2014 no longer be deemed viable. Prior to finally determining allotment of Series B shares on the basis of share awards and any payment on the basis of synthetic shares, the Board will assess whether the outcome of LTI 2014 is reasonable in relation to the company's financial earnings and position, conditions in the stock market and other circumstances, and should the Board not consider this to be the case, the number of shares to be allotted and the cash payment will be reduced.

Preparation of the motion

LTI 2014 has been initiated by NCC's Board of Directors and formulated in accordance with the guidelines decided for LTI 2013. No material changes have been made, apart from the allotment value for the CEO amounting to 50 percent of annual salary, which represents an increase in the allotment value for the CEO by 10 percentage points. In addition, the performance target regarding worksite accidents has been sharpened.

Scope and costs of the program

Assuming a share price of SEK 210 and the maximum outcome in accordance with LTI 2014 in terms of both shares and cash amount, it is estimated that the cost of LTI 2014, including costs for social security fees, will amount to MSEK 57, corresponding to approximately 0.25 percent of the total number of shares in the company. At 50-percent fulfillment of the targets, the total cost of LTI 2014, based on the above principles, is estimated at MSEK 28.5. At maximum outcome, including costs for social security fees, LTI 2014 could encompass 0.8 percent of the total number of shares.

The value that a participant may receive at maximum allotment of Series B shares and maximum cash payment is limited to an amount per share that corresponds to 400 percent of the share price, calculated on the basis of the average last price paid during a period of ten trading days immediately following the 2014 AGM, a period when the share is traded ex-rights to dividends.

B. Buyback of company shares

In order to secure delivery of Series B shares and to cover costs, including costs for social security fees and payments on the basis of the synthetic shares, in accordance with LTI 2014, the Board proposes that the AGM resolve to authorize the Board to make decisions on one or several occasions during the period up to the following AGM to buy back no more than 867,486 Series B shares. The shares are to be acquired on NASDAQ OMX Stockholm and may only be effected at a price within the registered span of share prices at the particular time, by which is meant the span between the highest price paid and the lowest asked price. The shares are to be paid for in cash.

C. Transfer of treasury shares

In order to secure delivery of Series B shares in accordance with LTI 2014, the Board proposes that the AGM resolve to permit the transfer of no more than 303,620 Series B shares to the participants of LTI 2014. In accordance with the terms and conditions for LTI 2014, each participant is to be entitled during a specified period of time to receive a certain number of Series B shares.
