## **PRESSE RELEASE**

### **BioPorto Diagnostics to host first Scientific Advisory Board meeting in May 2014**

BioPorto Diagnostics is proud to announce that we have established a prominent European Scientific Advisory Board, and we will host the first meeting in Brussels May 2014 with next meeting planned in the Autumn of 2014. We have received acceptance from a group of renowned and leading acute kidney injury (AKI) specialists from cardiac, nephrology and ICU medical areas. Our Board members will challenge current published knowledge and by applying their experience and expertise, the goal is to move current knowledge to a higher level. Ultimately, the aim will be to identify and set forth sound clinical practical approaches that will lead the way for improvements of AKI diagnostics.

The Scientific Advisory Board members are:

- Prof. Dr. med Jean-Louis Vincent, Erasme, Belgium. (Chair)
- Assoc. Prof. Dr. med Andrew Lewington, St. James's University Hospital, Leeds, UK. (Vice Chair)
- Director Dr. med Claudio Ronco, San Bortolo Hospital, Vicenza, Italy
- Prof. Dr. med Laurent Jacob, Saint-Louis Hospital, Paris, France
- Prof. Dr. med Michael Haase, Otto-von.Guericke University, Magdeburg, Germany
- Dr. med, PhD, Hilde RH DE Geus, Erasmus University Medical Center Rotterdam, NL

Acute kidney injury is a syndrome that affects patients across several medical and surgical specialties, and is a syndrome with poor outcome. The Scientific Advisory Board meetings will address the challenges and unmet needs for AKI diagnostics within a specific medical area at bi-annual meetings.

Meetings in 2014 will address AKI and neutrophil gelatinase-associated lipocalin (NGAL) biomarker challenges and opportunities within two major surgical specialties: Kidney Transplantation and Cardiopulmonary Bypass (CPB) procedures.

For questions or comments, please contact CEO Peter M. Eriksen or Marketing Manager Thomas Lowes
